27-28		
29-30		
31-32		
TOTAL		

SECTION A: (40 marks)

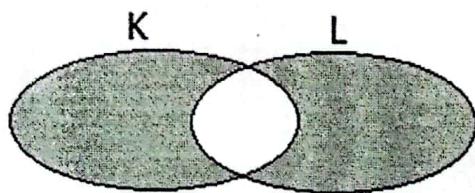

1. Workout: $2.7 - 1.3$

2. Write '**twenty four and six tenths**' in figures

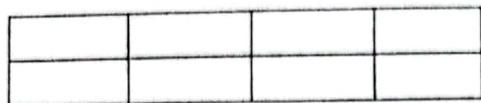

3. Simplify: $3 - 5(h+1)$

4. Evaluate 2.4×10^{-2}

5. Describe the shaded region in the Venn diagram below

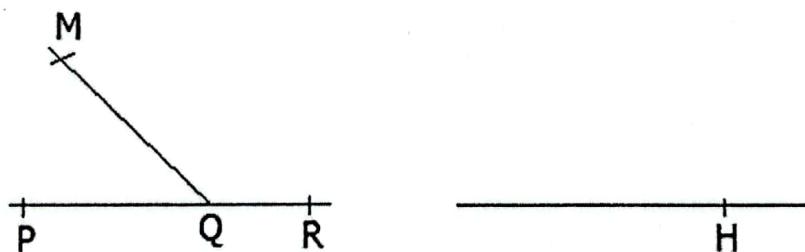

6. Shade $\frac{1}{4} : \frac{1}{2}$ of the figure below

7. The sum of 3 consecutive multiples of 5 is 60. Find the lowest multiple.

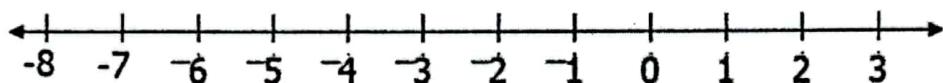

8. Workout $1 \div 3 = \dots \dots$ (finite 4)

9. Using a ruler, a well sharpened pencil and a pair of compasses only, copy angle PQM onto point H

10. Byamugisha moved from Kabura T/C to Kimuri T/C at a steady speed of 45km/hr and returned at 30km/hr. Calculate the distance between the two towns if Byamugisha used $1\frac{1}{2}$ -hours for the whole journey?

11. Show $7 - 3$ on the number line below.

12. A man had 18 bank notes numbered consecutively. What was the serial number of the first note if the last note's serial number was BX0436731?

13. Increase 1200 bags by $12\frac{1}{2}\%$

14. The cost of a book is sh.800. Find the cost of a $\frac{1}{4}$ of a dozen.

15. Given that  represent 12 balls. How many balls are represented by

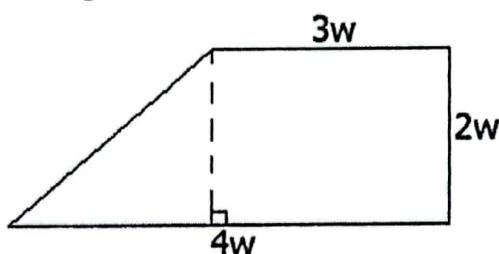

16. What must be added to $2y - 3$ to get $4y - 6$?

17. A rabbit covered 60metres in 3 second. Calculate the rabbit's speed in kilometres per hour.

18. Work out:
$$\begin{array}{r} 1101_{\text{two}} \\ \times 11_{\text{two}} \\ \hline \end{array}$$

19. 105 people in Katete village formed groups. For every 2 men, there are 5 women. How many more women are there than men?

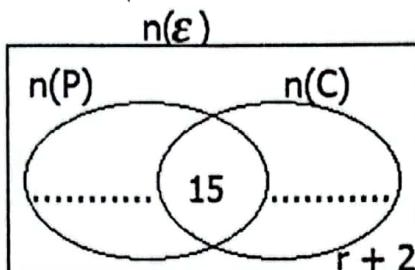

20. The figure below is a trapezium. Its area is 448dm^2 , find the value of w

SECTION B: (60 marks)

21. In a wedding ceremony, $2r + 6$ guests took Pepsi (P) only, $5r - 4$ guests took Coke (C) but not Pepsi, 15 guests took both drinks while $r + 2$ guests did not take any of the two drinks.

- a) Use the above information to complete the Venn diagram below.
(02 Marks)

- b) If there are 14 more guests who took Coke than Pepsi, find the value of r .
(03 Marks)

- 22.a) Find the **product** of the value of 8 and the value of 5 in 4896.53
(02 marks)

b) What number has been expanded to give: (03 marks)
 $(7 \times 10^2) + (6 \times 10^1) + (3 \times 10^0) + (8 \times 10^{-1})$

23.a) Solve and give the solution set: $12 > 3m - 3$ (m is a natural number) (02 marks)

b) Okello has one son and two daughters; James, Ann and Cissy. James is (k) years old and he is 3times as old as Ann. Cissy is twice as old as James. The product of the age of the two daughters is 24 years. How old is James? (03 marks)

thousand

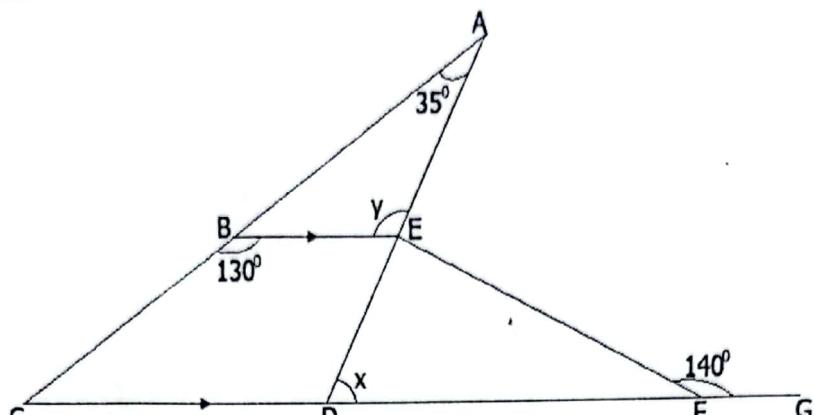

24. Mrs. Kakama went to the market twenty shilling notes only and bought the following items.

Item	Quantity	Unit price	Total cost
Rice	_____ kg	Sh. 6,000 per kg	Sh. _____
Beans	2500 g	Sh. _____ per kg	Sh. 10,000
Milk	_____ ml	Sh. 3,600 per litre	Sh. 14,400
Sugar	$3\frac{1}{3}$ kg	Sh. _____ per kg	Sh. 17,000
Mangoes	24 mangoes	Sh. 5,000 for every 4.	Sh. _____
Total expenditure			Sh. 76,400

a) Complete the table above. (06 Marks)

b) If she was given a change of sh. 3,600, how many notes did she have at first? (01 Mark)

25. In the figure below, line BE is parallel to line CG, angle $GFE = 140^\circ$, angle $CBE = 130^\circ$ and angle $BAE = 35^\circ$. Use it to answer the questions that follow.

a) Find the size of angle marked x.

(02 Marks)

b) Calculate the size of angle marked y.

(02 Marks)

26. Tap P alone takes 4 minutes to fill a water tank. Tap Q takes 8minutes to draw water from the same tank.

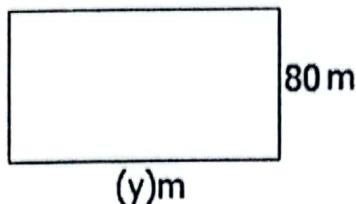

a) How long will it take to fill $\frac{3}{4}$ of the same tank when both taps are left open? (03 marks)

b) If it took one minute to fill 120 litres, find the capacity of the tank.

(02 marks)

27. A market vendor was to sell his item. Selling it at sh. 60,000 would earn him a profit but selling it at sh. 45,000 would lead him to a loss. If the profit was twice the loss, what was the cost price of the item? (04 marks)

28. 1200 poles were used to put up a fence around the rectangular garden below.

- a) Given that poles were planted 400cm apart, calculate the value of y. (02 marks)

- b) If each pole was bought at sh. 5,200, how much money did he spend on poles used along the width? (02 marks)

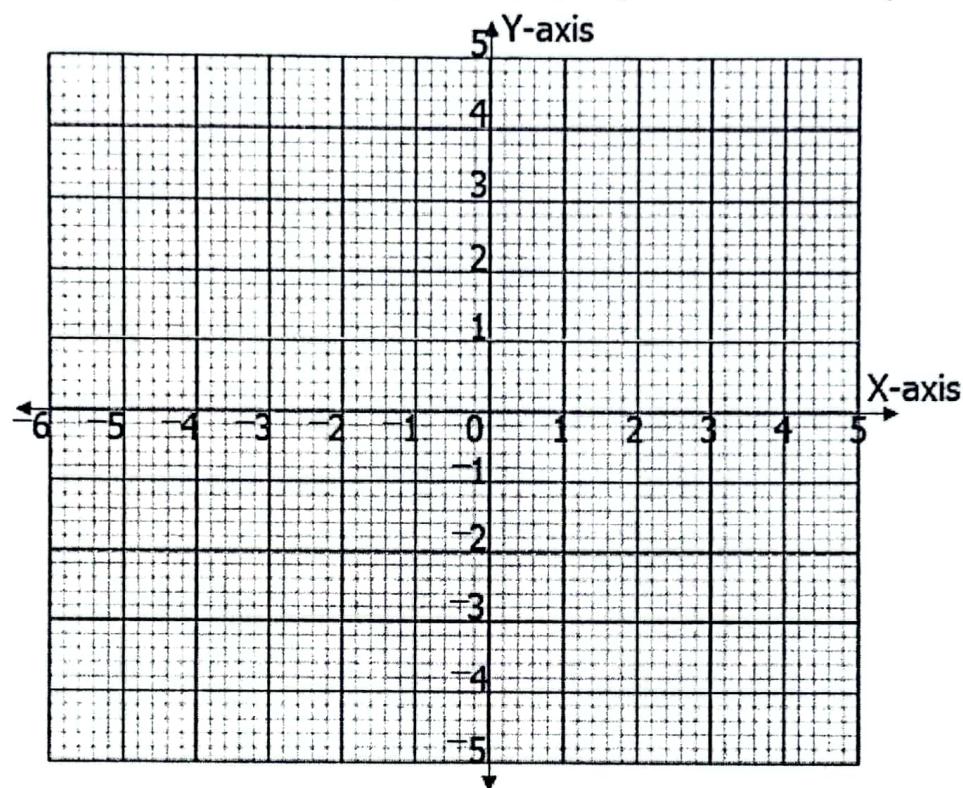

29. John, Jane and Asher shared money in the ratio 3:2:5 respectively. If Asher got sh.120,000 more than John;

- a) How much money did they share altogether? (03 marks)

b) Find the amount of money Jane got. (02 marks)

30. a) Plot the following point on the grid below.

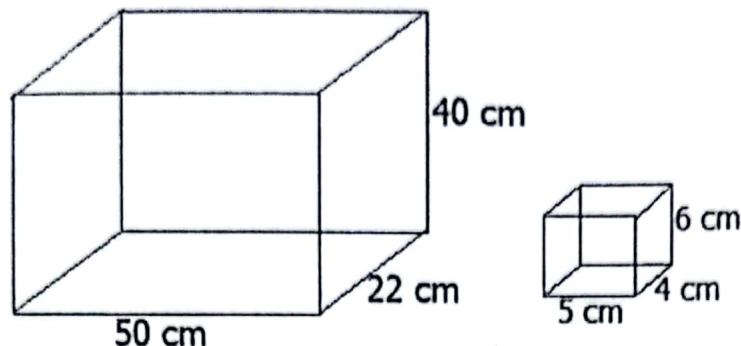

K(-5, 1), L(-2, 4), M(1, 1) and N(-2, -2). (04 Marks)

b) Join points K to L, L to M, M to N and N to K. (01 Mark)

c) Find the area of the figure formed. (01 Mark)

31. The figure below shows a big box (A) which a factory uses to pack the small boxes (B). Use it to answer the questions that follow.

- a) Find the total number of small boxes (B) that can be packed in the big box (A). (02 Marks)
- b) Calculate the volume of the space left after packing all the small boxes in a big box. (03 Marks)

32. The time table below shows the journey made by Kakise bus from Soroti to Kampala. Use it to answer the questions that follow.

Distance	Town	Arrival	Departure
0	Soroti		8: 30 a.m.
55	Kumi	9: 10 a.m.	9: 15 a.m.
70	Mbale	10: 05 a.m.	10: 20 a.m.
120	Iganga	11: 30 a.m.	11: 50 a.m.
50	Jinja	12: 20 p.m.	12: 30 p.m.
95	Kampala	3: 00 p.m.	

- a) Express the arrival time of the bus to Jinja as a 24 – hour clock system. (01 Mark)
- b) Find the distance between Kumi and Iganga. (01 Mark)
- c) How many stopovers did the bus make in the whole journey? (01 Mark)
- d) Calculate the average speed of the bus for the whole journey. (02 Marks)

-
.....
50. it was not necessary for you to switch off the TV.
(Rewrite using.....**need not**.....)
-
.....

SECTION B

51. Read the passage below and answer in full sentences the questions that follow.

One evening, while Brandie Byakagaba was listening to news read on radio by Opeto Cornelius, he heard that the P.L.E results for 2023 had been released. Brandie was worried because she was one of the 151 candidates who had sat P.L.E that year at St. Peter's School.

While releasing the results at the Ministry Headquarters, Ntinda, the Hon. Minister of Education, Sports, Science and Technology, Hon. Janet Museveni, was happy to note that most of the candidates had passed.

The general performance showed that science was the best-done subject. The Minister congratulated all the teachers of science on overcoming the old thinking that the subject was hard. She hoped that the country would be able to produce more engineers and doctors.

She thanked pupils who had worked hard to produce the wonderful results. She also appreciated the teachers who taught those young men and women tirelessly. She was happy with the parents who send their children to school. She advised the parents to keep their children in school or else they would be punished by the law.

The Minister also noted that she was releasing true results because the examination had been done without any misconduct. She called upon the head teachers of all the primary schools in the country to have a high level of discipline in their schools.

Questions:

1. Who read the news on the radio?

.....
.....

2. What is the name of the candidate mentioned in the passage?

.....
.....

3. Who is a candidate according to this story?

.....
.....

4. In which school was the named candidate studying?

.....
.....

5. In which class was that candidate in 2021?

.....
.....

6. Why was Brandie worried?

.....
.....

7. What was the old thinking about science?

.....
.....

8. Give one word or group of words with the same meaning as the following underlined words used in the passages.

i) wonderful.....

ii) appreciated

9. Suggest a suitable title for this passage.

.....
.....

52. Study the notice below carefully and then answer the questions that follow in full sentences.

FLOBBETO AT 10!

FLOBBETO AT 10!

FLOBBETO AT 10!

- #### 14 Define the term work.

15. How can silting along river bank be controlled?
-
.....

The diagram below shows formation of colours. Use it to answer the questions 16 and 17.

16. Name the colour marked with letter Y.
-

17. Why do objects appear with colour marked with letter C in our eyes?
-
.....

18. How does crop rotation improve the fertility of the soil?
-
.....

19. Identify any one factor that decrease the rate of transpiration.
-

20. How is wood seasoning important during timber storage?
-
.....

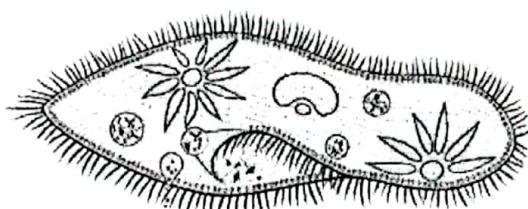

21. What name is given to the arrangement of veins in a leaf?

.....

22. Give any one way how school pupils protect themselves against conjunctivitis.

.....

The diagram below shows a protozoa. Use it to answer the question that follows.

23. How does the above organism move from one place to another?

.....

24. Point out one way how the use of biogas reduces on the rate of deforestation.

.....

.....

25. Why is the flat part of an iron box made of a metal?

.....

.....

26. Where does conception take place in the female reproductive system?

.....

.....

27. In which one way does immunization using vaccines boost a person's immunity?

.....
.....

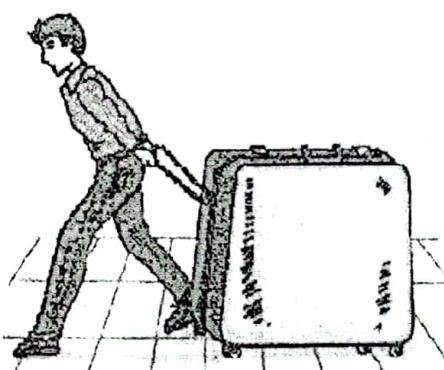

28. How is the reproduction of bacteria different from that of yeast?

.....
.....

29. Which component of soil is formed as result of weathering?

.....

The diagram below shows a boy pulling a bag. Use it to answer the question that follows.

30. Why is easier for the boy to pull the bag on smooth surface?

.....
.....

31. In which way is reflected sound important to chiroptera?

.....
.....

32. How does smoke move through the chimney of the kitchen?

.....

33. What role does oxygen play in seed germination?

.....

.....

.....

35. Why is it important to cover food with banana leaves during the process of cooking?

.....

.....

36. Give one way how milk let down can be stimulated before the start of the milking process.

.....

.....

37. What is the e.m.f of a torch that uses three drycells.

.....

.....

38. Identify one effect of heat decrease on matter

.....

.....

39. How do earthworms improve soil aeration?

.....

.....

40. What happens to the intercostal muscles when we breathe in?

.....

.....

SECTION B

41(a) What is meant by the term incubation?

.....
.....

(b) Write down any one advantages of natural incubation over artificial incubation.

.....
.....

(c) Give any one use of a brooder in poultry management.

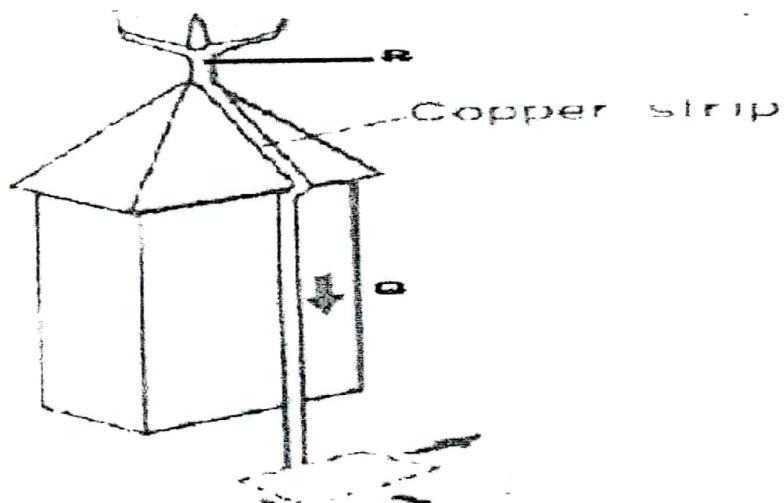

.....
.....

(d) How can cannibalism be prevented in poultry?

.....

42 The diagram below protection of the house against electricity.

Use it to answer questions that follow.

a) Name the device marked with letter R.

.....

(b) Identify the example of electricity prevented by the device in the diagram above.

.....

(c) Which electric charges are indicated by the movement at arrow Q?

.....

(d) State any one difference between static electricity and current electricity.

.....

.....

43(a) What is drug abuse?

.....

.....

(b) Mention any two examples of drugs that are commonly abused.

- (i)
- (ii)

(c) Identify any one danger of self medication among people in a community

.....

44(a) Give any two characteristic of images formed in plane mirrors.

- (i)
- (ii)

(b) Identify one adaptive feature that enables a choroid to prevent internal reflection in the human eye.

.....

(c) Why are convex mirrors suitable as driving mirrors.

.....
.....

45(a) Write down two examples of involuntary muscles.

- (i)
(ii)

(b) State the functional difference between a tendon and a ligament.

.....
.....

(c) How do muscles allow body movement?

.....
.....

45 The table below shows a group of vectors in A and their examples of germs in B.

A	B
Black fly	Chlamydia
Water snail	Onchocerca volvulus
Body louse	Schistosoma
House fly	Rickettsia

(a) Write against each vector below, its germ from B

- (i) Black fly
(ii) Water snail
(iii) Body louse
(iv) House fly

48.(a)State any two causes of juvenile delinquency in communities

(i).....

(ii).....

(b)Write down one example of information collected during a health survey.

(c) Identify one importance of carrying out health survey in communities.

47.The table below shows parts of the alimentary canal,enzymes and food substrate acted upon.

PART	ENZYME	FOOD SUBSTRATE
Mouth	(i).....	Carbohydrate
Stomach	Pepsin	(ii).....
(iii).....	Lipase	Fats
Ileum	(iv)	Lactose
