| 16- 20 | | |
| 21- 22 | | |
| 23- 24 | | |
| 25- 26 | | |
| 27- 28 | | |
| 29- 30 | | |
| 31- 32 | | |
| TOTAL | | |

SECTION (02 Marks each)

1. Work out: $\frac{5}{7} - \frac{3}{7}$

2. Mr. Mwaro bought 2.7 kilogrammes of sugar. Express this weight in grammes.

3. Solve : $4(y - 2) = 12$

4. Write 948 in Roman numerals.

5. Find the next number in the sequence below;

4, 9, 15, 22, 30, _____

6. Work out: $2^5 + 7^0$

7. The mean of 6, 8, k and 9 is 7. Find the value of k.

8. Simplify: ${}^{-}4 - {}^{-}2 + {}^{+}8$

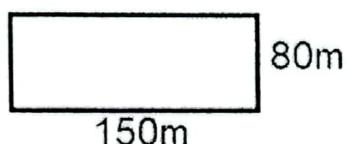

9. Today is Friday and a workshop that lasts 30 days has started. When will the workshop end?

10. The circumference of a circle is 88m. Find its radius. (Use $\pi = \frac{22}{7}$)

11. Two angles y and $(3y - 20)^\circ$ are supplementary. Find the value of y .

12. The LCM of two numbers is 100 and their GCF is 10. If the first number is 20, find the second number.

13. Find the area of the figure below in hectares(ha).

14. Write 0.004375 in standard form.

15. Using a ruler, a pencil and a pair of compasses only, construct an angle of 240° .

16. What is 25% of 1600kg ?
17. A regular polygon has 14 right angles. How many sides does the polygon have?
18. Work out: $111_{\text{two}} \times 11_{\text{two}}$
19. Keith is thrice as old as Paul. Their total age is 60 years. How old is each now?
20. A motorist covered 200km at a speed of 60km/hr. how long did the motorist take?

SECTION B (60Marks)

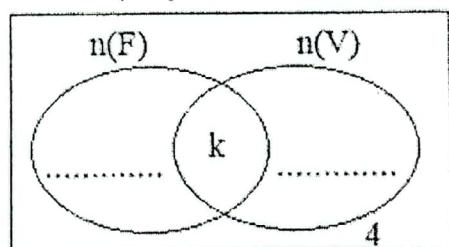

21. a) Write 60047 in words **(02 marks)**

b) Find the value of k in $104_k = 75_{\text{nine}}$ **(03 marks)**

22. In a stream of **6k** pupils, **(k+20)** pupils like Football(F) only, **(k+15)** pupils like Volley ball(V) only, **k** pupils like both games while **4** pupils like neither of the two games.

a) Complete the Venn diagram below; **(03 marks)**

$$n(\mathcal{E}) = \dots\dots\dots$$

b) Find the value of k. **(02 marks)**

23. a) A trader bought 25 eggs at sh.800 each. Some eggs got broken and he sold the remaining eggs at sh.1200 making a profit of 20%. How many eggs were broken?

(04 marks)

24. a) Using a ruler, a pencil and a pair of compasses only, construct a rhombus ABCD where line AB=7cm and angle ABC=120°. (04 marks)

b) Measure angle BAC. (01 mark)

25. Study the table below and answer the questions that follow;

| | | | | |
|------------------|----|----|----|----|
| Marks scored | 90 | 70 | 55 | 80 |
| Number of pupils | 3 | 4 | 6 | 7 |

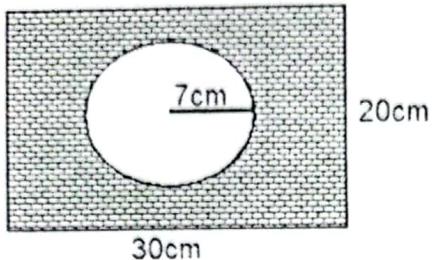

- a) How many pupils did the test? **(02 marks)**
- b) Find the range of marks. **(02 marks)**
- c) Work out the average mark of those who scored above 70. **(02 marks)**

b) If he is given a discount of 8%, how much will he pay? (**01 mark**)

28. a) Work out: $\frac{3.6 \times 0.21}{0.07 \times 0.9}$ (**03 marks**)

b) Simplify: $\frac{1}{4} - \frac{2}{3} + \frac{3}{4}$ (**02 marks**)

26. Below is a circle inside a rectangle. Find the area of the shaded part. (**05 marks**)

27. Kato went to the market and bought the following items.
- ✓ 2 kg of sugar at sh.5000 each.
 - ✓ 3 kg of salt at sh.(k) per kg
 - ✓ 750 gm of tea leaves at sh. 4000 per kg
- a) If Kato spend sh.19000 altogether, find the value of k. (**04 marks**)

29. Different telephone companies charge as follows;

Airtel sh.400 per minute

MTN sh.450 per minute

Lyca mobile sh.300 per minute

a) A pupil talked to her parents for 5 –four minute calls on MTN. How much
money was he charged? **(02 marks)**

b) How much more money does Kiguli spend on a five-minute call on Airtel
than a five-minute call on Lyca mobile? **(03 marks)**

30. Below is a magic square. Study it carefully and find the value of **a**, **b**, **c** and **d** **(05 marks)**

| | | | |
|----|----|----|----|
| 9 | 6 | a | 16 |
| b | 15 | 10 | 5 |
| 14 | 1 | 8 | c |
| 7 | d | 13 | 2 |

31. In a class, **a third** of the pupils like posho, $\frac{1}{4}$ of the remainder like rice and the rest like matooke.

a) What fraction of the class like matooke? **(03 marks)**

b) If 90 pupils like rice, find the total number of pupils in the class. **(02 marks)**

32. Town A is 50km east of town B and town C is 80km from town A on a bearing of 150° . Using a scale of 1cm to represent 10km,

a) Draw an accurate diagram to show the three towns. **(04 marks)**

b) Find the shortest distance between town B and town C in km. **(01 mark)**

SECTION A (40 Marks)

1. Okello has knock-legs. Mention the skeletal diseases he is likely to be suffering from.

.....

2. State any one secondary sex characteristic common to both boys and girls.

.....

3. Apart from bringing rain, state any one other importance of clouds in the environment.

.....

4. Suggest any one advantage of staking tomatoes in the garden.

.....

.....

5. Give any one example of a tuber crop.

.....

6. State any one advantage of proper budgeting of family resources.

.....

7. Write any one characteristic of underground stems.

.....

8. State the reason why gap filling is important in crop growing.

.....

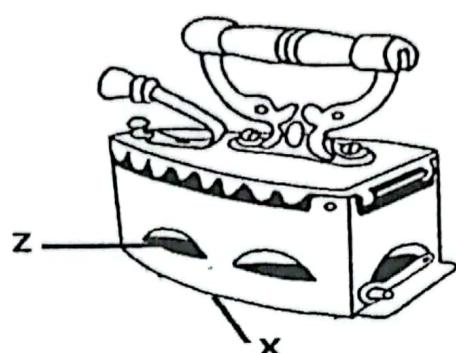

9. Name the type of electricity created from accumulation of charges on an object.

.....

10. Give any one importance of a stone in promoting personal hygiene.

.....

The diagram below shows an ironing box. Use it to answer questions 11 and 12.

11. Identify any one way holes marked Z help the ironing box above to work.

.....

12. State the reason why part marked X is made of iron metal.

.....

13. Suggest any one way of controlling rinderpest in cattle.

.....

14. Give any one way in which rearing of poultry helps in the prevention of kwashiorkor in infants.

.....

15. State the main reason why grains should be dried properly before storage.

.....

16. Point out any one characteristic of involuntary muscles.

.....

17. Cite any one way pests destroy crops in the garden.

.....

.....

18. Give any one way of preventing short circuits during electrical installation.

.....

19. State any one reason why aluminium metal is used to make body parts of aero planes.

.....

20. Name the group of simple machines to which a ladder belongs.

.....

21. Give any one health habit that helps to strengthen the human skeleton.

.....

22. Write any one way adolescent boys and girls can safeguard themselves from drug dependence.

.....

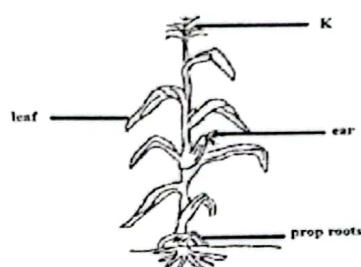

23. Give any one reason why blood from the heart goes to the lungs before being pumped to all body parts.

.....

24. Give any one characteristic of mammals.

.....

The diagram below is a maize plant. Study it carefully and answer questions 19 and 20.

25. Name the part marked K

.....

26. Apart from prop roots, mention any one other kind of roots that develop from the shoot system of a flowering plant.

.....

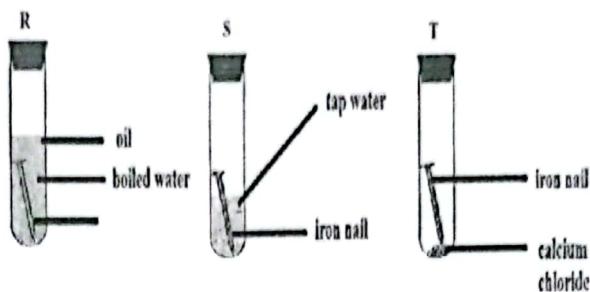

27. State any one difference between the knee joint and ball and hip joint in terms of movement.

.....

28. Mention any one source of materials used for making crafts in the environment.

.....

The diagram below shows an experiment about rusting. Use it to answer questions 29 and 30.

29. Give a reason why iron nails in container S will rust after three days.
-

30. State any one importance of rusting to the soil.
-

31. State any one reason why liquids and gases are regarded as fluids.
-

32. Give any one factor that may force a mother to bottle feed her baby.
-

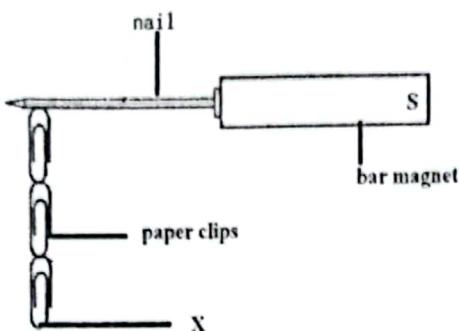

33. State any one reason why mercury is used as a thermometric liquid.
-

34. State any one characteristic of birds that do not fly.
-

35. Mention any one form of reproduction in bacteria.

.....

The diagram below shows a method of making temporary magnets.

36. What will be the pole of the magnet marked X.

.....

37. Give any one way of destroying the strength of a magnet.

.....

38. Give a reason why sound cannot be transmitted through a vacuum.

.....

39. State any one way of controlling the spread of red eyes in the environment.

.....

40. State any one reason why roughages are essential component of one's diet.

.....

SECTION B: 60 MARKS

41. (a) Mention any one way natural changes can cause environmental degradation.

.....

(b) Give any two man made causes of environmental degradation.

(i)

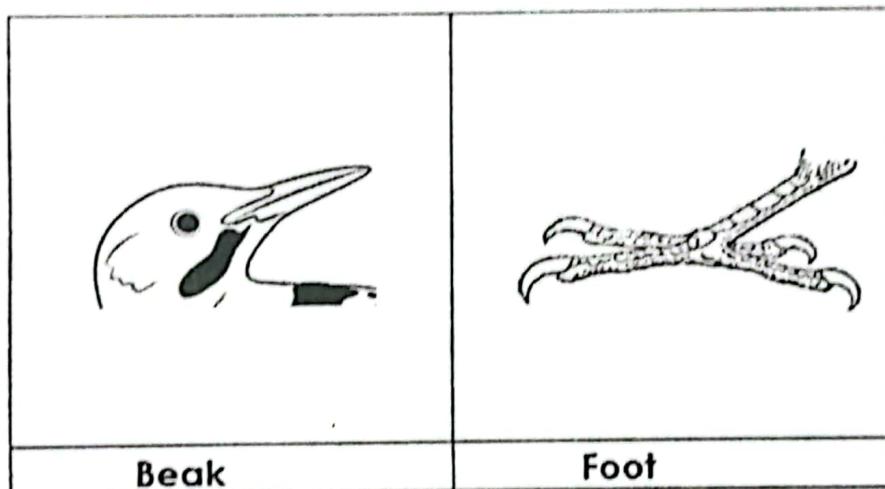

(ii)

(c) In what way does the use of hydroelectricity for cooking help to conserve the environment?

.....

.....

42. The diagrams below show the foot and beak of a bird.

(a) Give any one example with such beak and foot.

.....

.....

(b) Identify the group of birds with the type of foot and beak shown.

.....

(c) In what way do the parts of the bird shown help it have a proper life in its environment?

(i) Foot

.....

(ii) Beak

.....

43. a) Apart from sisal and banana fibres, mention any two other examples of plant fibres.

(i)

(ii)

(b) Mention any one source of animal fibres in the environment.

.....

(c) Give any one way people use fibres in the environment.

.....

44. a) State the reason why tsetse flies do not lay eggs.

.....

.....

(b) Mention any one danger of tsetse flies in the environment.

.....

.....

c) Name any one disease spread by tsetse flies in the environment.

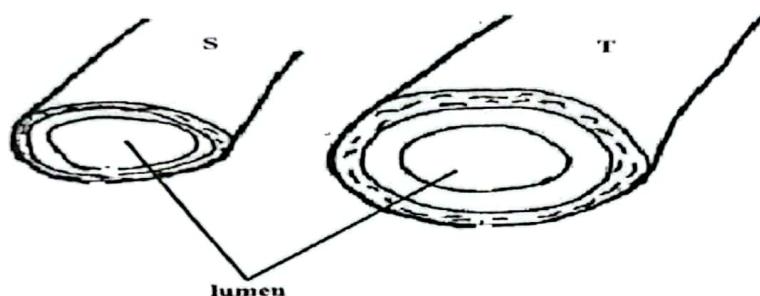

.....

d) Give any one way of controlling the breeding of tsetse flies in the environment.

.....

.....

45. The diagrams below show the different types of blood vessels. Study and use them to answer questions that follow.

a) Name the blood vessel marked S.

.....

b) State any two structural differences between blood vessel marked S and T as shown in the diagram.

(i)

.....

(ii)

.....

c) Name the blood vessel that transports digested food from the ileum to the liver.

.....

46. (a) Apart from air, mention two other agents of seed dispersal.

(i).....

(ii).....

b) State any one characteristic of seeds dispersed through air.

.....

.....

c) Mention any one danger of seed dispersal in the environment.

.....

.....

47. a) Name the fungus that helps in the formation of alcohol.

.....

b) Mention any two methods of making alcohol.

(i).....

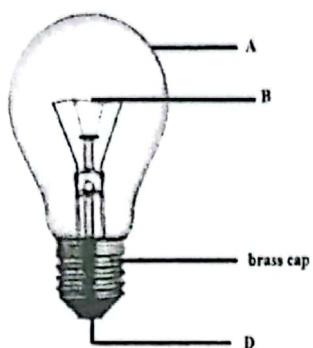

(ii).....

c) State any one law in Uganda governing the possession of alcohol.

.....

.....

48. The diagram below shows an electric bulb. Study it and answer questions that follow.

(a) Name the parts labeled A and D

(i) A.....

(ii) D.....

(b) Name the mineral used for making part B

.....

(c) Mention any one component of air used in electric bulbs.

.....

49. Mention the chemical process involved in soil formation.

.....

(b) Mention any two living components of soil.

(i)

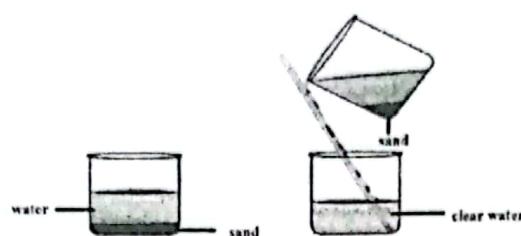

(ii)

(c) State any one harmful effect of polythene bags in the soil.

.....

.....

50. The diagram below illustrates a method of separating mixtures. Study and use it to answer the questions that follow.

(a) Name the method of separating mixtures drawn above.

.....

(b) Give any two examples of mixtures.

(i)

(ii)

c) Mention any one characteristic of good water for cleaning clothes.

.....

51. (a) Briefly explain what is meant by a zero point or neutral point in magnetism.

.....

.....

(b) Describe how a compass needle behaves when placed at a zero point.

.....

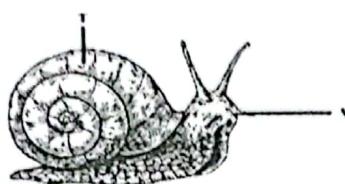

.....

(c) Give any two ways of making temporary magnets.

(i).....

(ii).....

52. The diagram below represents a snail. Study and use it to answer questions that follow.

(a) To what group of invertebrates does a snail belong?

.....

(b) Name the part marked V.

.....

(c) State the function of part marked T.

.....

d) Give any one danger of snail in the environment.

.....

53. a) State any two ways cattle farmers can improve the quality of their products.

(i).....

(ii).....

b) Apart from milk and hides, mention any one other product got from cattle farming.

.....

c) State any one way of preventing endo parasites in cattle farms.

.....

54. (a) Give any two ways in which plants benefit from animals.

(i).....

(ii).....

(b) State any two ways in which people can conserve plant life in the environment.

(i).....

(ii).....

55. The table below illustrates the composition of air we inhale and exhale. Complete it correctly.

| Type of air | Inhaled % | Exhaled % |
|----------------|-----------|-----------|
| Nitrogen | | 78% |
| Oxygen | 21% | |
| Water vapour | | More |
| Carbon dioxide | 0.03% | |

.....

49. The numbers were difficult. Very few pupils passed them.

(Re-write the sentence using:so.....that.....)

.....

50. My aunt bought a phone. My aunt bought a computer. (rewrite the

sentences using.....both.....)

.....

SECTION B: 50 MARKS

(Questions 51 to 55 carry 10 marks each)

51. Read the passage below and answer the questions that follow in full sentences.

The class academic day was set for 21st June, 2015. All parents and guardians of primary seven were expected to be at school before nine o'clock in the morning. They had been given letters the previous term. Those who did not get them were also informed through radio announcements. This was an annual function at Excel Primary School.

On this day, parents and guardians expected to look at their children's class work and their results of the previous exams. Pupil's conduct was also discussed with the teacher. On this day, the father to Bangi arrived early. He went straight to his daughter's teacher. He waited in a line of fellow parents until it was his turn to talk to Mrs. Karo. Mr. Kudu, then introduced himself. Mrs. Karo opened the class progress file. But Bangi's name did not have any marks for the three sets of exams. She had missed them. There was the word "absent" in all the subject columns.

Bangi was then called. Her father asked her why she did not have marks. She had no answer. Mr. Kudu couldn't remember any day when his daughter did not go to school. He was very annoyed with her. After a long silence, she broke into tears and begged for forgiveness. She told her father and the teacher that she used not to revise for exams. At some other times, she hid inside the toilets.

All the parents and pupils were sad to hear thing. They all blamed her for wasting her father's money. AS a punishment, Mr. Kudu decide not to pay the money for her to go on a class tour to the Owen falls dam.

Questions

(a) Which School held the academic day?

.....
.....

(b) How were the parents informed about the day?

.....
.....

(c) What did some parents discuss with the teachers?

.....
.....

(d) Why did the parents make a line?

.....
.....

(e) Which word was found on Bangi's progress file?

.....
.....

(f) Who was Mr. Kudu?

.....
.....

(g) Which punishment did Bangi get?

.....
.....

(h) Give a word or group of words which mean the same as each of the given words in the passage.

(i) annual.....

(ii) sad.....

(i) Suggest a suitable title to the story.

.....
.....

52. Re-arrange the following sentences to make a good composition about a visit to a grandmother.

1. My grandmother was so happy that she hugged me.
 2. She always taught us folk songs.
 3. Last holidays, I visited my grandmother.
 4. She stays with two cousins of mine.
 5. The grandmother stays far away from our home.
 6. They welcomed me to the house.
 7. Then she gave me food to eat.
 8. And also told us very interesting stories.
 9. My grandmother and cousins were happy when they saw me.
 10. These cousins of mine are Aunt Maria's daughters.

53. Read the poem below and then answer the questions in full sentences.

Here we are at the farmer's farm,
Happily sucking our calves,
On the warm fresh milk from our teats,
Some flowing to the farmer's heart,
Who takes some of the milk,
The famers takes care of us day by day,
As we feed on the rich pasture daily.

We stay with our friends,
The sheep bleat with their lambs,
The pigs grunt in the sty,
Piglets squeal nearby,
Nanny goats bleat with their kids,
Billy goats bleat with their kids,
As the goat-herd takes them to graze

Life is not always easy, you know,
For the farmer selects us one by one,
To the abattoir, the farmer herds us,
Slaughters us and cuts us into pieces,
For beef, mutton, or pork,
After which we are soon forgotten.

Anon.

Questions

1. Which animals suckle their calves?

.....
.....

2. What does the farmer get from the animals kept on the farm?

.....
.....

3. What is the meat from sheep called?

.....
.....

4. When is life hard for the animals on the farm?

.....
.....

5. What food nutrient is got from beef and mutton?

.....
.....

6. What is an abattoir?

.....
.....

7. Name the three farm animals on this farm.

- i).....
- ii).....
- iii).....

8. Which animal stays in a sty?

.....
.....

54. Below is a bank slip. Study it carefully and then answer questions in full sentences.
