

# MATHEMATICS PLE 2006

## CANDIDATE'S INFORMATION

Index number : 

--	--	--	--	--	--	--	--

Name : \_\_\_\_\_

Signature : \_\_\_\_\_

School name : \_\_\_\_\_

District name : \_\_\_\_\_

## SECTION A: 40 MARKS

1	Workout:  $\begin{array}{r} 5 & 6 \\ - 4 & 5 \\ \hline \end{array}$ _____	2	Write in figures: One thousand, one  <i>REVISE 2024</i>
3	Simplify: $m + 2m + 3m$  <i>M</i>  <i>K</i>	4	Workout: $\frac{2}{3} \times \frac{9}{10}$
5	Round off 23.47 to the nearest whole number.	6	Write 29 in Roman numerals.

7

Shade  $\frac{2}{5}$  of the following diagram.

8

Workout:

$$\begin{array}{r} 0_{\text{two}} \\ + 1_{\text{two}} \\ \hline \end{array}$$

9

Find the next number in the sequence:

21, 20, 18, 15, 11, \_\_\_\_\_

10

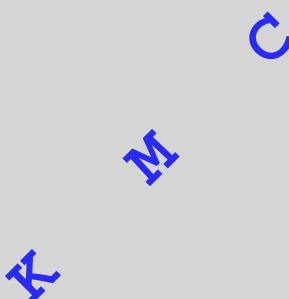

Workout:  $-8 - -3$

2024

REVISE

11

Change  $\frac{1}{5}$  kg to grams

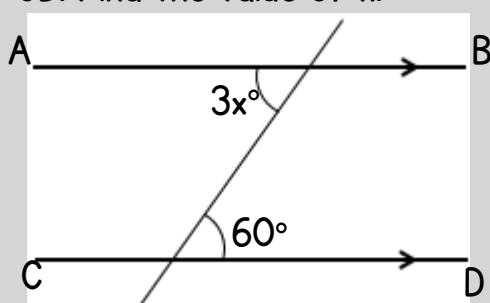

12

Solve:  $2x + 7 = 11$

13

In the figure below, AB is parallel to CD. Find the value of x.

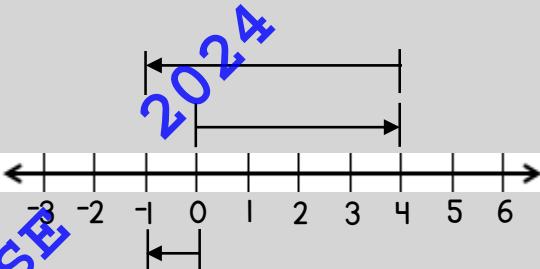

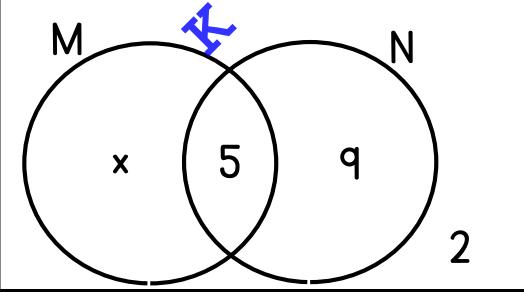

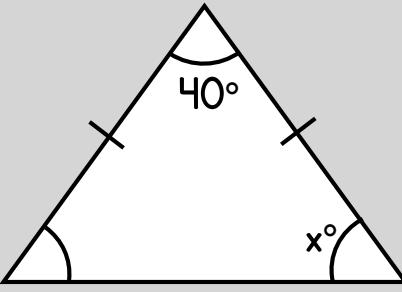

14

A pupil scored the following marks in Mathematics tests:

46, 71, 30, 65, 40, 50, 69.

Find the median mark.

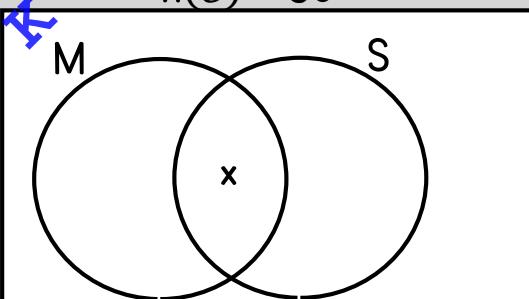

15	The area of a square room is $12\frac{1}{4}\text{ m}^2$ . Find the length of one of its sides.	16	A basket contains 3 bad eggs and 6 good ones. If the eggs in the basket are mixed, what is the probability of picking a bad egg from the basket?
17	A baby slept at 8:30am. If the baby slept for 2 hours and 45 minutes, at what time did the baby wake up?  C	18	Use the figure to write the Mathematical statement shown.  
19	Use the Venn diagram below to find the value of x. M $n(\varepsilon) = 20$ 	20	Find the perimeter of the figure below.

21	<p>Given that set A = {0, 1, 2, 3, 5, 7}      And set B = {0, 4, 6, 7, 9}, find  <math>n(A \cap B)</math></p>	22	<p>Abdul is <math>x</math> years old. He is 5 years younger than Madina. How old is Madina?</p>
23	<p>Given that <math>a = -6, b = 3, c = -2</math>      and <math>d = 1</math>. Find: <math>\frac{ad}{bc}</math></p>	24	<p>Using a ruler, a pencil and a pair of compasses only, construct an angle of <math>120^\circ</math> in the space provided below.</p> <p style="text-align: center;"><i>REVIEW</i></p>
25	<p>If 4 books cost sh. 36,000, how much will 6 books of the same type cost?</p>	26	<p>The figure below is an isosceles triangle. Find the size of angle <math>x</math>.</p> 

27	Find the difference between the value of 9 and the place value of 7 in the number 9473.	28	In a school of 600 pupils, the ratio of boys to girls is 1:2. What is the number of girls in the school?
29	Mary deposited sh. 60,000 in a bank which gives a simple interest rate of 7% per year. Find her interest after 6 months.	30	The price of a shirt was increased by 10%. If the new price is sh. 44,000, find the old price.

REVISE  
2024

## SECTION B: 60 MARKS

31	<p>In a Primary seven class of 50 pupils, 27 like mathematics (M), 22 like science (S), x pupils like both mathematics and science and 3 pupils do not like any of the two subjects.</p> <p>a. Represent the above information on a Venn diagram given below.</p> $n(\varepsilon) = 50$  <p>b. Find the number of pupils who like only one subject.</p>
----	--

32 Jane bought the following items from the market.

- 3kg of sugar at shs. 1,400 per kg.
- $1\frac{1}{2}$  kg of rice at shs. 1,200 per kg.
- $1\frac{1}{2}$  litres of paraffin at shs. 900 per litre.
- 8 oranges at shs. 50 per orange.

If Jane remained with only shs. 250, find the total amount of money she had at first.

2024

REVISE

C

- b. Express the number of boys in lower primary classes as a percentage of the whole school population.

K

34 A milk seller has 36 litres of milk. He sells milk using a container measuring 6cm by 10cm by 6cm at shs. 150 per full container. How much money does he get after selling all the milk?

35 John and his young daughter travelled from Kampala to Nairobi by bus. John paid K.shs. 1,500 and the daughter paid K.shs. 750.

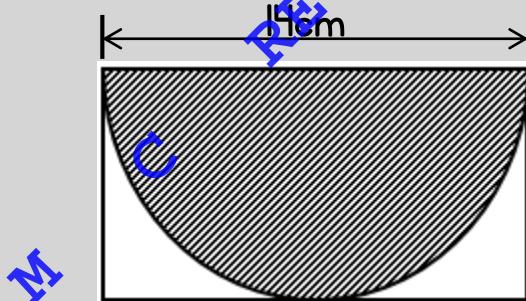

The exchange rate was: 1 Kenya shilling (K.shs.) = 24 Uganda shillings (U.shs.)

a. Workout the bus fare in Uganda shillings which each of them paid.

b. If John had Ug. Shs. 102,000 at the beginning of the journey, what was his balance in Kenya shillings after paying the bus fares for himself and the daughter?

2024

36 The figure below shows a semi-circle enclosed in a rectangle. Use it to answer the questions that follow.

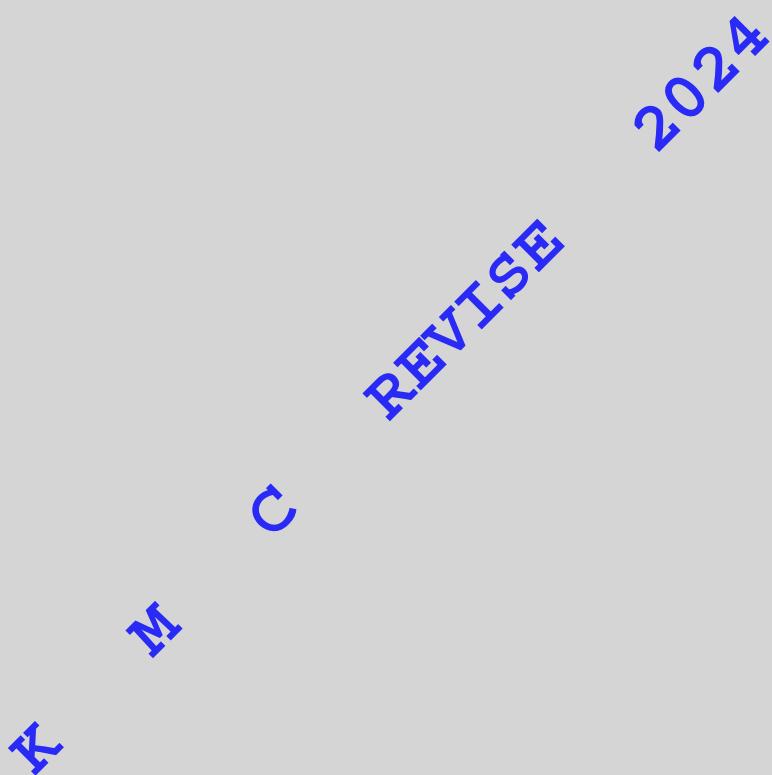

a. Find the area of the rectangle.

b. Workout the area of the un-shaded part. (*use  $\pi = \frac{22}{7}$* )

37	<p>The head teacher drove from school to town P for 3 hours at a steady speed of 60km per hour. He left town P at 11 a.m and drove back to school along the same road at a steady speed of 90km per hour.</p> <p>a. At what time did the head teacher arrive at the school?</p> <p>b. Workout the head teacher's average speed for the whole journey.</p>
38	<p>Three pupils are aged <math>(2x + 5)</math>, <math>(3x - 10)</math> and <math>(x + 3)</math> years. Their total age is 34 years.</p> <p>a. Find the value of <math>x</math>.</p> <p>b. How old is the youngest pupil?</p>
39	<p>a. Solve: <math>\frac{m+2}{2} = \frac{4m-4}{11}</math></p> <p>b. Solve: <math>\frac{2x+4}{5} - 6 = 0</math></p>

40 The bearing of town B from town A is  $120^\circ$  and town B is 4 km from A. The bearing of town C from B is  $60^\circ$  and town C is 5 km from B.

- a. Draw an accurate diagram showing the three towns. (Use a scale of: 1cm = 1km)

- b. Find the shortest distance between town A and C in kilometres.

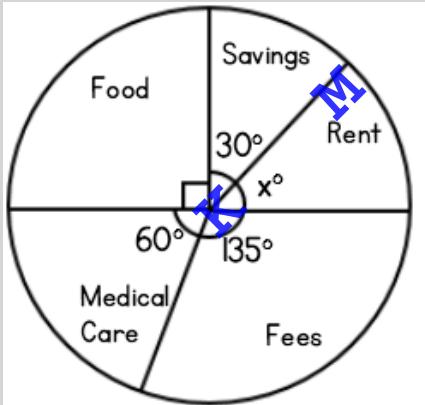

- 41 a. Using a ruler, a pencil and a pair of compasses only, construct a triangle KLM in which  $KM = 6.5\text{cm}$ , angle  $KML = 45^\circ$  and angle  $LKM = 60^\circ$ .

2024

- b. Measure  $ML$

- 42 The Pie chart below shows how Kalinda spends his monthly salary.

C If he spends shs. 15,000 on rent, find his salary.

- a. Workout the amount of money he spends on;
- Food
  - Medical care

# MATHEMATICS PLE 2007

## CANDIDATE'S INFORMATION

Index number : 

--	--	--	--	--	--	--	--

Name : \_\_\_\_\_

Signature : \_\_\_\_\_

School name : \_\_\_\_\_

District name : \_\_\_\_\_

## SECTION A: 40 MARKS

1 Workout:

$$\begin{array}{r} 4 \quad 3 \\ \times \quad 2 \\ \hline \end{array}$$

2 Write in figures:  
One thousand, thirteen.

3 Simplify:  $6x - 5m + 3m - 4x$

K  
M  
C

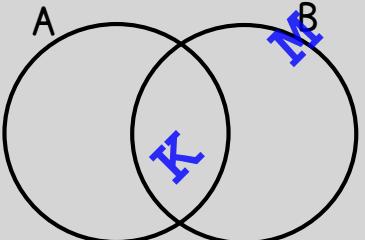

4 Workout:  $t^6 \div t^2$

5 Solve:  $3 - x = 2x$

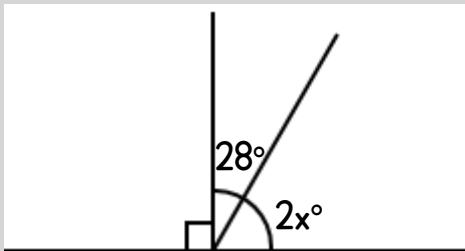

6 Simplify:  $-5 - +5$

REVISE  
2024

7	Write 99 in Roman numerals.	8	Find the value of $y$ in the figure below.
9	Find the next number in the sequence:  2 , 5 , 7 , 10 , 12 , -----	10	Using a ruler, a pencil and a pair of compasses only, construct an angle of $90^\circ$ in the space provided below.
II	Express 36 as a percentage of 80.  C  M  K	12	Find the median of the following numbers: 3 , 0 , 5 , 4 , 2
13	Given that $x = 3$ , $y = 4$ and $z = 6$ , find the value of $\frac{xy}{z}$	14	Change 12,400 metres to kilometres

15	<p>The radius of a wheel of a bicycle is 35cm. find the circumference of the wheel. (use <math>\pi = \frac{22}{7}</math>)</p>	16	<p>Change <math>11010_{\text{two}}</math> to base ten.</p>
17	<p>Find the sum of the values of the digits 3 and 5 in the number 3958.</p>	18	<p>The first half of a football match ended at 5:25p.m after being played for 45 minutes. At what time did the match start?</p>
19	<p>In the diagram below, shade the region that represents only the members of set B.</p> 	20	<p>Simplify: <math>\frac{0.12 - 0.06}{0.06}</math></p>
21	<p>Find the square root of <math>5 \frac{4}{9}</math></p>	22	<p>James sold a cow at sh. 320,000. If he made a profit of sh. 80,000, find the price at which he bought the cow.</p>

- 23 Find the value of  $x$  in the figure below.

Workout:  $1\frac{1}{12} - \frac{5}{6}$

- 25 The total number of black and blue pens in the bag is 12. If the probability of picking a blue pen from the bag is  $\frac{2}{3}$ , how many black pens are in the bag?

*REVISE*

C

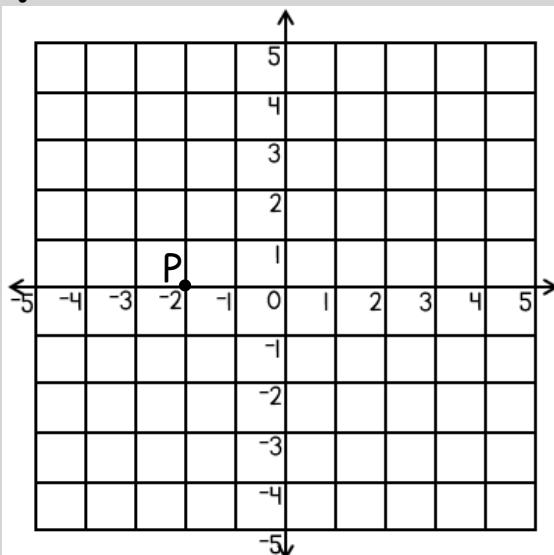

- 26 How many lines of symmetry does a rectangle given below have?

*2014*

- 27 Maria has a bundle of five thousand shilling notes numbered consecutively ~~from~~ from AP534201 to AP534300. How much money does she have?

- 28 Use the graph below to answer the question that follows.

Write the coordinates of point P.

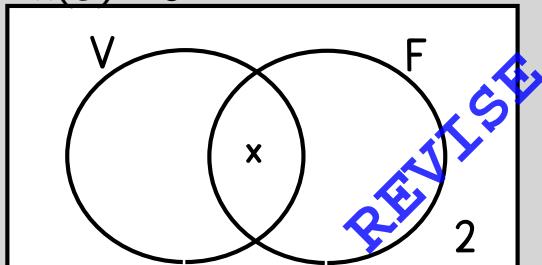

29 Solve the inequality:  $1 + \frac{1}{2}x > 2$

30 A bank gives a simple interest rate of 12% per annum. What will be the interest on sh. 400,000 banked for 9 months?

## SECTION B: 60 MARKS

31 In a class of 30 students, 20 play volleyball (V), 15 play football (F), (x) play both volleyball and football and 2 do not play any of the two games.

a. Use the information given above to complete the Venn diagram below.  
 $n(\mathcal{E}) = 30$

b. Find the value of x.

C

M

K

c. Find the number of students who play only one game.

32 Kaliso's poultry produces 3,000 eggs in a day. If the eggs are packed in trays of 30 eggs each, how many trays of eggs does he produce in a week?

- 33 a. Using a ruler, a pencil and a pair of compasses only, construct a parallelogram KLM in which  $\overline{KL} = 4\text{cm}$ ,  $\overline{LM} = 6\text{cm}$  and angle NKL =  $60^\circ$ .

2024

REVISE

- b. Measure the length of diagonal KM

- 34 Betty was given sh. 20,000 <sup>C</sup> to buy things to take to school and she bought the following;

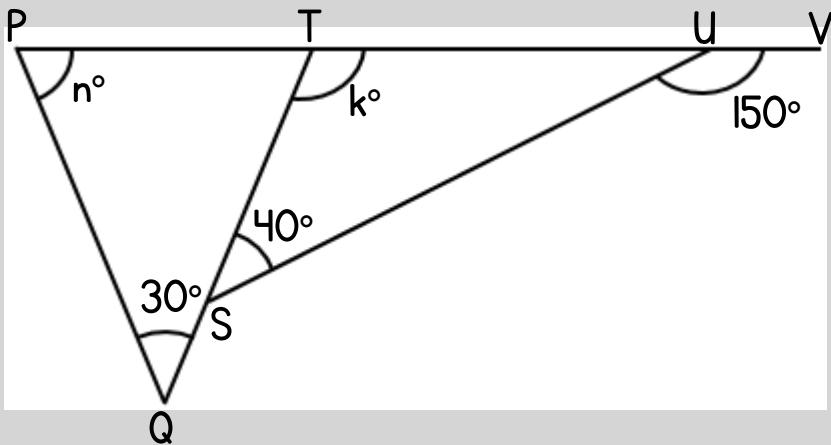

- 3 dozens of exercise books at sh. 2,800 per dozen.
- 4 bars of washing soap at sh. 900 per bar.
- 4 tablets of washing soap at sh. 1,200 per tablet.
- 2 tubes <sup>H</sup> of toothpaste at sh. 800 per tube.

- a. How much money did she spend altogether?

- b. How much money did she remain with?

35	<p>Kato wrote three digit numbers using the digits 1, 3 and 6.</p> <p>a. Write down all the possible three digit numbers greater than 300 that Kato wrote.</p> <p>b. What was the probability of Kato writing an even number?</p>
36	<p>Milk was mixed with water to make tea. If 14 litres of milk was used and this was 40% more than the amount of water in the tea, how much tea was prepared?</p> <p style="text-align: right; color: blue; font-size: 2em;">2024</p> <p style="text-align: center; color: blue; font-size: 1.5em; transform: rotate(-15deg);">REVISE</p> <p style="text-align: center; color: blue; font-size: 1.5em; transform: rotate(15deg);">C</p>
37	<p>a. Given that <math>\frac{2}{3}</math> of Peter's salary is equal to <math>\frac{3}{4}</math> of Mary's salary, find Peter's salary if Mary's salary is sh. 120,000.</p> <p style="color: blue; font-size: 2em;">K</p> <p>b. Express Mary's salary as a fraction of Peter's salary.</p>

- 38 In the diagram below, PTUV is a straight line, angle TSU =  $40^\circ$ , angle SUV =  $150^\circ$  and angle PQT =  $30^\circ$ . Use the given information to find the value of each of the angles marked k and n.

2024

39 a. Solve:  $\frac{1}{2}m + 7 = 2m - 2$

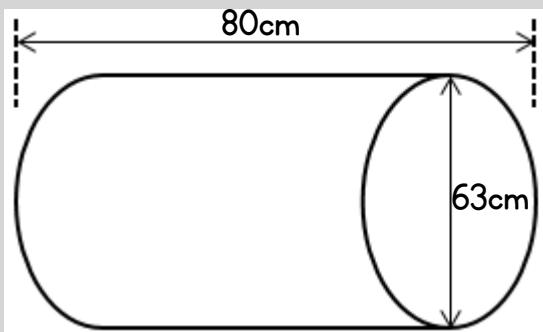

b. Solve:  $\frac{10}{n} + 4 = 24$

K  
M  
C

40 a. Workout:  $\frac{2.7 \times 4.8}{2.4 \times 3.6}$

b. Simplify:  $1\frac{1}{6} \times 1\frac{1}{7} \div 2\frac{1}{3}$

- 41 The diagram below shows a metallic drum which was cut open to form a door sheet. Use it to answer the questions that follow.

a. Find the length of the door, which was made out of the sheet. (*use  $\pi = \frac{22}{7}$* )

2024

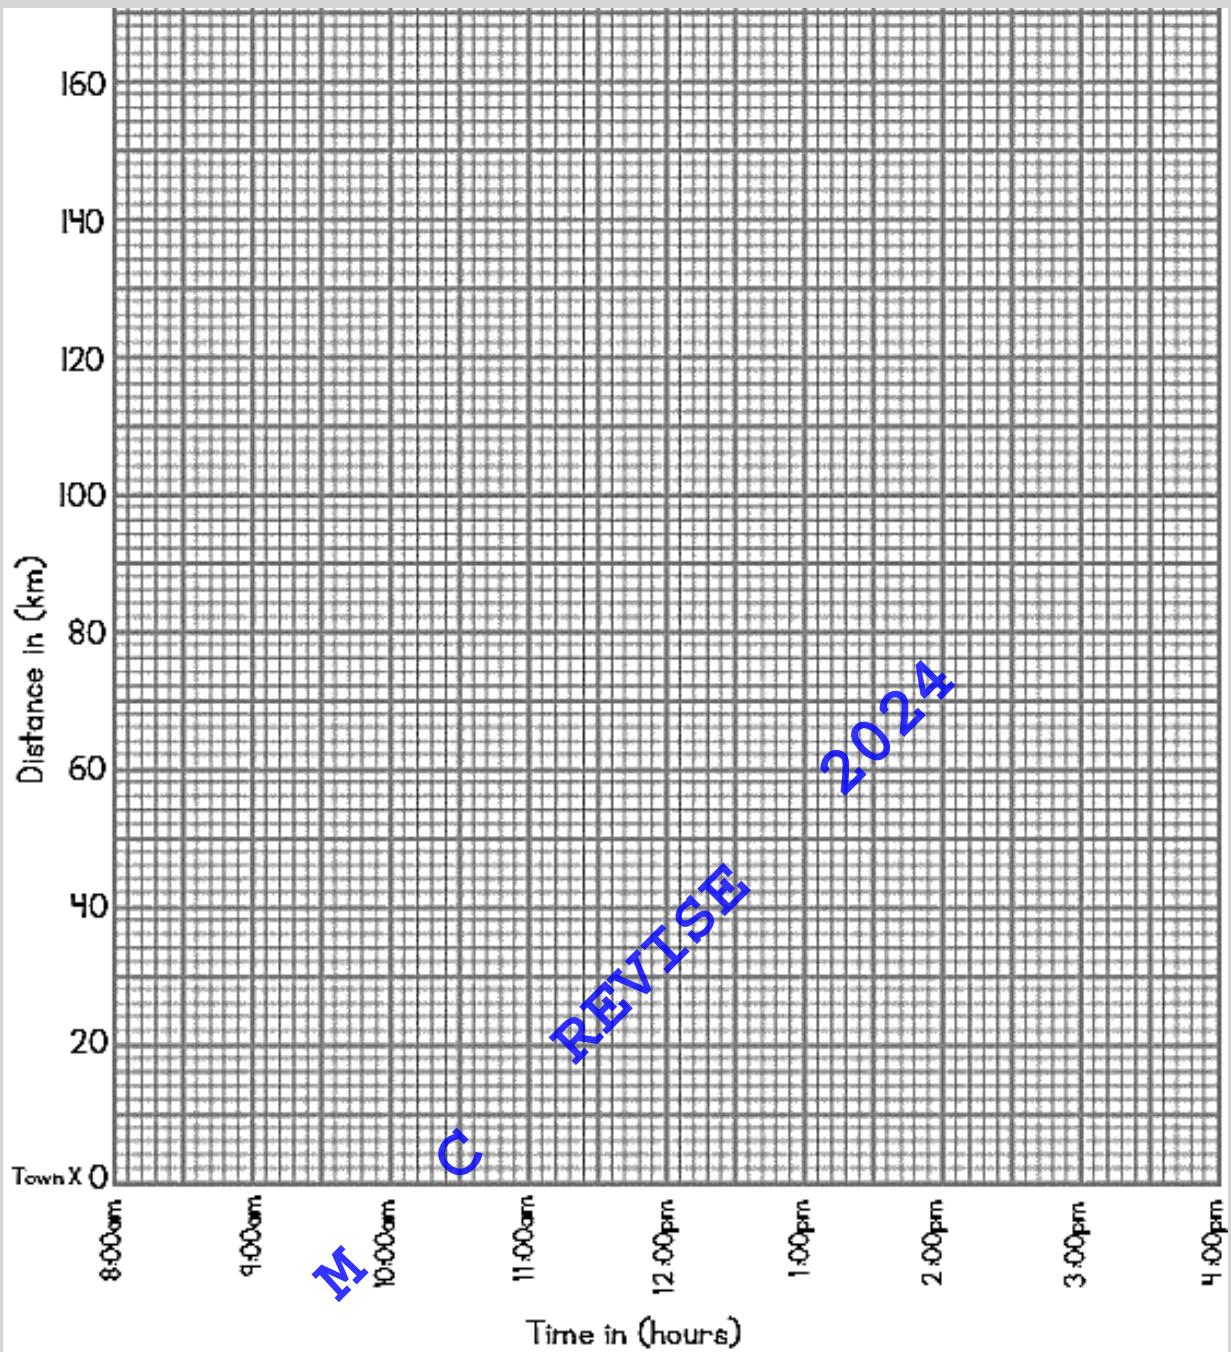

REVISE

C

M

- 42 Mutono left town X at 8:00a.m and drove at 90km per hour for one hour to town Y. He rested for half an hour at town Y. He left town Y and drove for one hour at 70km per hour to town Z. He rested for half an hour at town Z. He then left town Z and drove back to town X at a steady speed of 40km per hour.

a. Draw Mutono's journey on the graph provided below. (see next page)

- b. Workout  $\frac{K}{M}$  Mutono's average speed for the whole journey.

# **PRIMARY LEAVING EXAMMINATION**

Basic Mathematics Education - 2008

## **SECTION A**

### 1. Work out $60 \div 6 =$

2. Given that set K = {1, 2, 3, 4, 5} and Set L = {0, 5, 7}, find  $K \cap L$ .

$$3. \text{ Simplify: } 4k - 3k + k.$$

4. A meeting started at 9:30am and lasted 50 minutes. At what time did it end?

5. Express 0.3 as a fraction.

6. Arrange the following numbers beginning with the smallest.

3, 0, -1, 8, -6

.....

Day of the week	Mon.	Tue.	Wed.	Thur.	Fri.
Number of goats	3	2	5	7	8

Find the range.

.....

9. Write CXC in Hindu - Arabic numerals.

.....

10. If Nandi buys 4 text books for shs 240,000, how much will 9 similar books cost?

.....

11. Write in words: 3,602.

.....

12. The time on the 24 - hour clock is 13:42 hours. What time will it be on a 12 - hour clock?

.....

13. Find the next number in the sequence

$$\frac{1}{2}, \frac{1}{4}, \frac{1}{8}, \frac{1}{16}, \dots$$

REVISE

14. A trader got a simple interest of shs: 18,000 after depositing shs: 90,000 in a bank at an interest rate of 10% per annum. For how long was his money in the bank?

.....

K

15. A taxi carries 14 passengers while a bus carries 29 passengers. If the two vehicles make two journeys each, how many passengers will they carry altogether?

.....

16. Solve the equation:  $5t - 2(t+1) = 1$

.....

17. Change 9 base ten to base two.

.....

18. The base area of a cube is  $25\text{cm}^3$ . Calculate the volume of the cube.

---

19. Solve the inequality  $-2p+4>6$ .

---

20. The exterior angle of a regular polygon is  $45^\circ$ . Find the number of sides the polygon has.

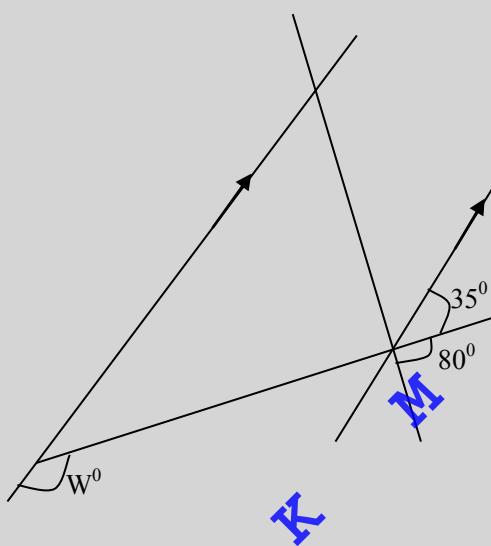

---

21. The difference between  $\frac{1}{5}$  and  $\frac{1}{6}$  of a number is 7. Find the number.

---

22. Find the value of  $W^\circ$  in the figure below.

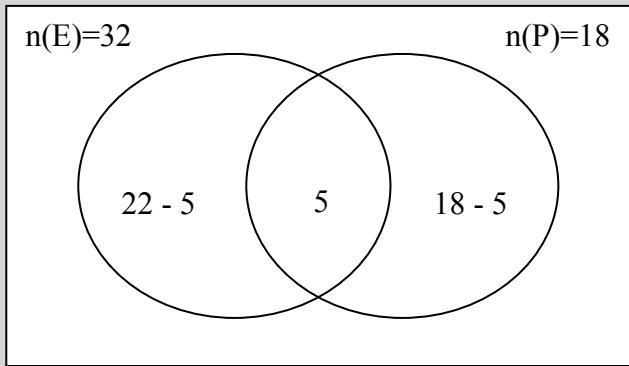

2024  
REVISE

23. A motorcyclist covered a distance of 24km in  $3\frac{1}{2}$  hour. Calculate the average speed of the journey.

---

24. Study the Venn diagram below carefully and answer the questions that follow.

Find  $n(E \cup P)$ <sup>1</sup>

---

25. Simplify:  $\frac{3}{9} - \frac{1}{18}$

2024

---

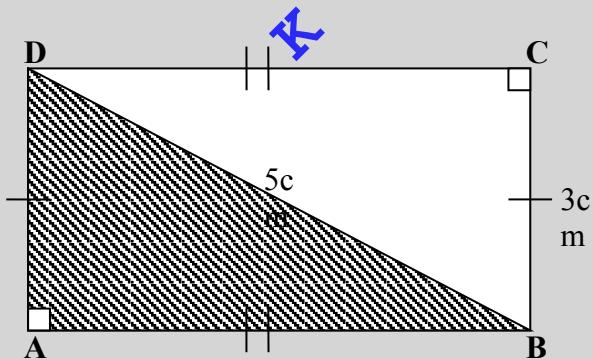

26. Work out  $\frac{0.25 \times 5.4}{0.045}$

REVISE

27. Find the square root of 1.96.

C

28. Find the area of the shaded part in the figure below.

29. Solve  $5+n=3$  (infinite 7)

30. Peter scored the following marks in a test 9, 8, 7, and 4. Find Peter's mean score in the test.

.....

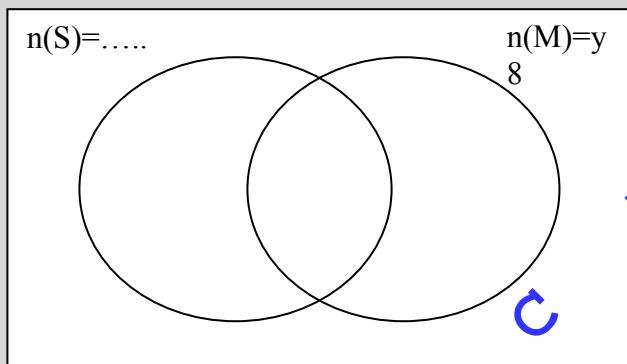

## SECTION B

31. At a birthday party, 72 guests were invited. 55 were served with sodas (S),  $y$  were served with mineral water (M) while 7 did not take any of the two drinks and 17 were served with both drinks.

(a) Represent the above information on the Venn diagram.

2024

$n(\Sigma)$ .....

REVISE

M

(b) Find the value of  $y$

K

(c) How many guests were served with one drink only?

.....

32. Given that  $m = 2$  and  $y = -3$

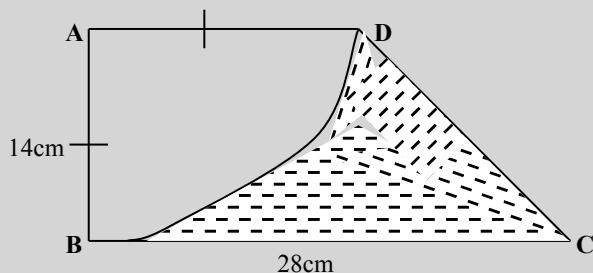

(a) Work out  $\frac{2(ym) + 2}{(m - y) - 6}$

.....

(b) Barbra is 4 times as old as Mukasa. In 10 years time, Barbra will be twice as old as Mukasa will be. How old is Barbra and Mukasa?

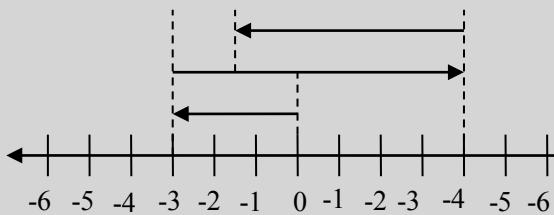

.....

33. The figure below is a trapezium where  $AB = AD = 14\text{cm}$ ,  $BC = 28\text{cm}$  and  $ABD$  forms a quarter of a circle. Calculate the area of the shaded part. (Use  $\pi = \frac{22}{7}$ )

.....

34. Write the mathematical statement shown on the number line below.

.....

35. The District Inspector of schools of a certain district registered 4,000 candidates for PLE 2007. Out of these, 30% were girls below 15 years and 25% were boys below 15 years of age. If there were 1,000 girls who were above 15 years of age.

(a) Find the number of girls who sat for PLE.

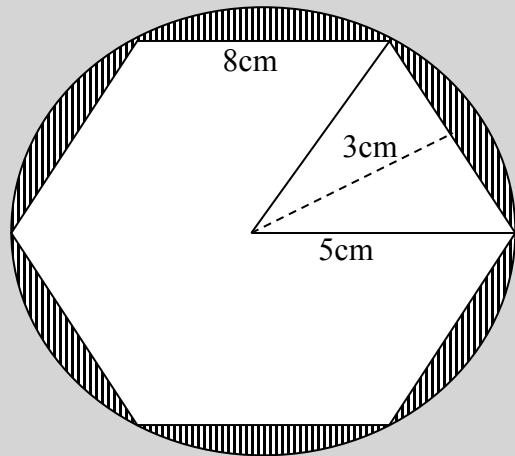

.....

(b) Find the number of boys who sat for PLE.

.....

(c) How many first grades did the district get if all the candidates below 15 years of age passed in division one?

36. The figure below shows a regular six-sided polygon of sides 8cm long and closed in a circle of radius 5cm. triangle OAB of height 3cm is part of the polygon.

2024

(b) Find the area of the shaded region. (Use  $\pi = \frac{22}{7}$ )

REVISE

37. A certain country in Uganda had a population of 300,000 people. Of these people  $\frac{3}{5}$  are females and  $\frac{5}{6}$  of the females are girls.

(a) If  $\frac{2}{3}$  of the males among the population are boys, find the ratio of boys to girls.

K

(b) What is the total number of boys and girls in the country?

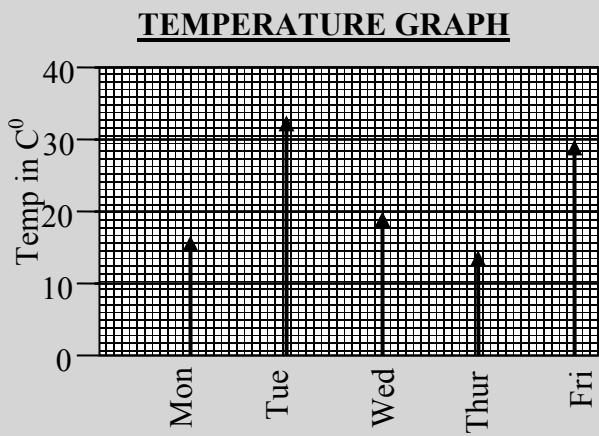

38. Using a pair of compasses, a pencil and ruler only.

(a) Construct a triangle EFG in which  $\overline{EF} = 8\text{cm}$ , angle  $GEF = 60^\circ$  and  $EFG = 45^\circ$ . From G, drop a perpendicular  $\overline{FG}$  to meet  $\overline{GH}$ .

(b) Measure  $\overline{GH}$ .

(c) Using  $\overline{GH}$  as the height, find the area of the EFG

39. The line graph below shows the temperature of a certain place recorded over a week. Study the graph and answer the questions that follow.

2024

REVISE

(a) On which day was the highest temperature recorded?

C

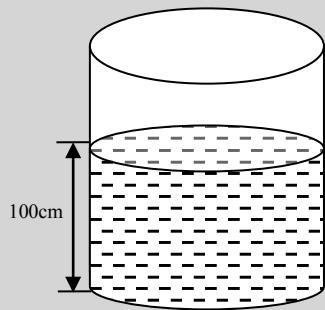

(b) What was the lowest temperature recorded?

M

(c) Find the mean temperature of the given days.

K

40. The figure below is a cylindrical tank containing 1540 liters of water.

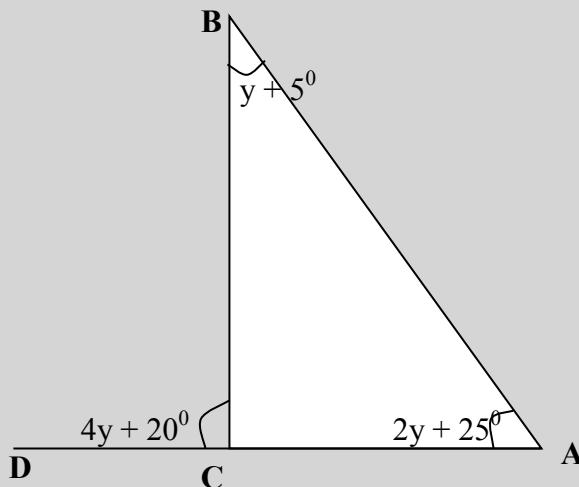

(a) Find the radius of a tank. Take ( $\text{Use } \pi = \frac{22}{7}$ )

---

(b) If the tank is  $\frac{4}{5}$  full, find its capacity.

---

41. In the diagram below,  $CAB$  is a triangle and  $DCA$  a straight line. Study it and answer the question below.

(a) What is the value of  $y$ ?

M

---

(b) What is the size of angle  $ACB$ ?

K

---

42. A ship left port bell for Kisumu on bearing  $090^{\circ}$ . It sailed for 120km then changed its course and sailed on bearing  $130^{\circ}$  for 90km before reaching Kisumu.

(a) Draw a sketch diagram of the journey.

---

(b) Using a scale of  $1\text{cm} = 20\text{ km}$ , draw an accurate diagram of the whole journey.

---

(c) What is the bearing of Kisumu from Portbell.

K M C REVISE 2024

## CANDIDATE'S INFORMATION

Index number : 

--	--	--	--	--	--	--	--

Name : \_\_\_\_\_

Signature : \_\_\_\_\_

School name : \_\_\_\_\_

District name : \_\_\_\_\_

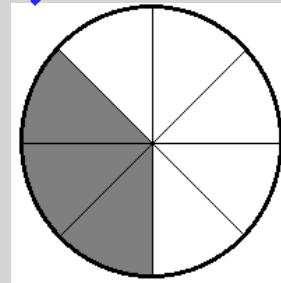

## SECTION A: 40 MARKS

1 Workout:

$$\begin{array}{r} 1 \quad 3 \\ + 4 \quad 3 \\ \hline \end{array}$$

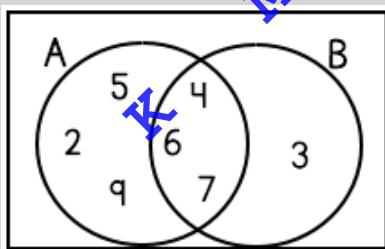

2 What fraction of the circle is shaded?

REVISE  
C

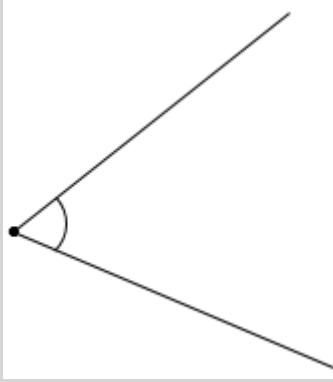

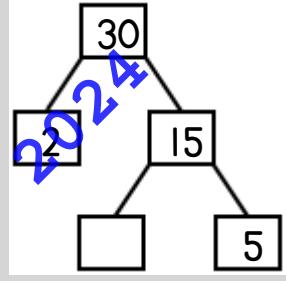

3 In the Venn diagram below, find  $n(A \cap B)$ .

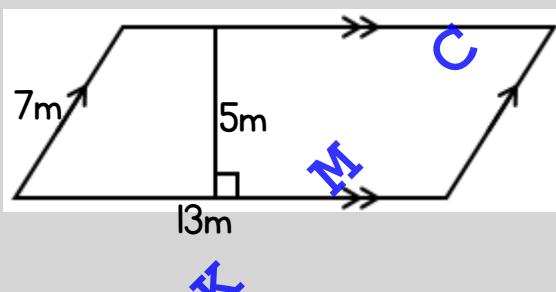

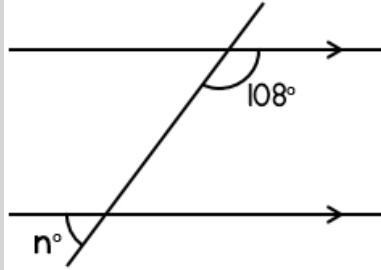

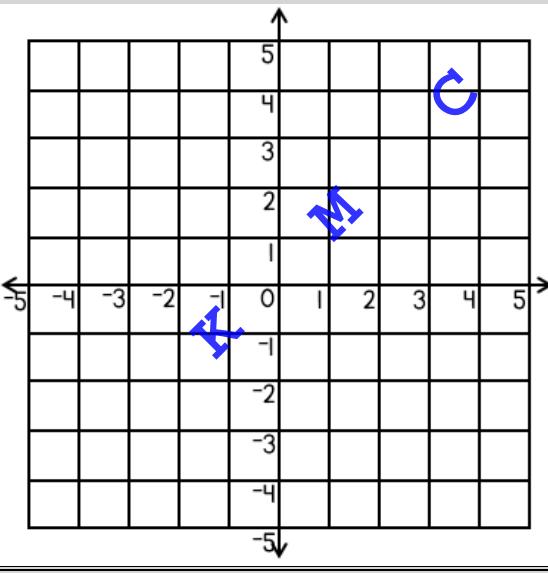

4 Write 24 in Roman numerals.

5 Simplify:  $6y + 4y - 5y$

6 Write in figures:  
Forty two thousand eight.

7	<p>Using a protractor, measure the angle below.</p> 	8	<p>Round off 9.46 to the nearest tenths.</p>
9	<p>Workout: <math>\frac{4}{7} + \frac{8}{21}</math></p>	10	<p>Find the missing number in the factor tree below.</p>
			
11	<p>Change <math>3\frac{1}{2}</math> Kg into grams.</p> <p style="text-align: center;">REVISE</p>	12	<p>Workout:</p>
	$  \begin{array}{r}  2 \quad 0 \quad 0 \\  - \quad   \quad   \quad 2 \\  \hline  \end{array}  $		
13	<p>A primary seven pupil got the following marks in daily mental work exercises for a week:</p>		<p>Arrange the following fractions in order beginning with the biggest:</p>
	$\frac{1}{4}, \frac{2}{3}, \frac{3}{5}$		
	<p>What was the pupil's modal mark?</p>		

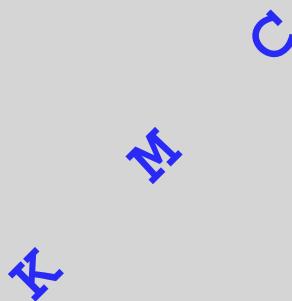

15	Given that set $M = \{1, 2, 4\}$ . How many subsets are in set $M$ ?	16	Workout: $+7 - -4$
17	Workout: $2\frac{1}{2} - \frac{1}{4}$	18	David got a loan of Shs. 500,000 from a bank at a simple interest rate of 20% per annum. What was the interest on the loan after a period of 9 months?  20% REVISE
19	Find the area of the figure below.  	20	Primary seven pupils will have a party next week. Find the probability that the party will take place on a day that starts with letter T.
21	Workout:  $  \begin{array}{r}  &   & 0 &  _{\text{two}} \\  + &   &   &  _{\text{two}} \\  & \hline  \end{array}  $	22	The cost of 5 bars of soap is Shs. 5,400. Find the cost of 3 similar bars of soap.

23	<p>Write the next number in the sequence:</p> <p>1, 4, 9, 16, _____</p>	24	<p>In the figure below, find the value of <math>n</math> in degrees.</p> 
25	<p>How many vertices does the figure below have?</p>	26	<p>A mathematics test was given to a class of 50 pupils and 45 of them passed the test. What percentage of the pupils failed the test?</p> <p style="color: blue; font-size: 2em; transform: rotate(-15deg);">2024</p>
27	On the graph below, mark point M(-1, 4)	28	Solve: $3x - (x + 3) = 3$
	 <p style="color: blue; font-size: 2em; transform: rotate(15deg);">REVERSE</p>		
29	<p>Solve for <math>x</math>: <math>3 + 4 = x</math> (finite 5)</p> <p>A fisherman saw a boat on water on a bearing of <math>060^\circ</math>. What was the bearing of the fisherman from the boat?</p>	30	

## SECTION B: 60 MARKS

- 31 A man sells mangoes in heaps of five and eight. A heap of five mangoes costs 500/= and a heap of eight mangoes costs 1,000=/. He had 12 heaps of five and 14 heaps of eight mangoes.
- How many mangoes did he have altogether?
  - How much money did he get after selling all the mangoes?

- 32 a. Using a ruler, a pencil and a pair of compasses only, construct a triangle PQR in which angle PQR =  $30^\circ$ , PRQ =  $45^\circ$  and line QR = 10cm, which is the base of the triangle.

b. Measure:

$$PQ =$$

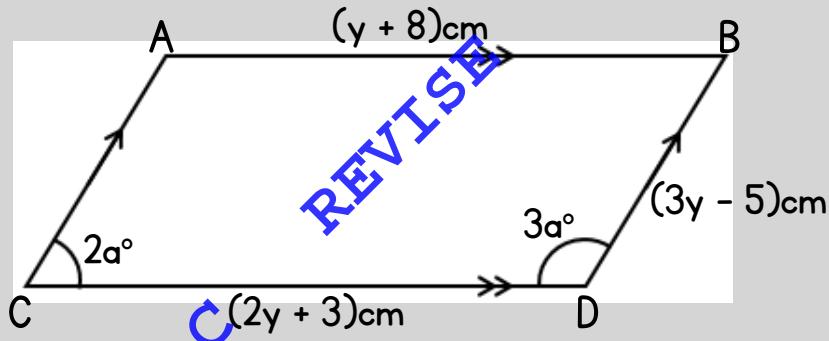

$$PR =$$

c. Find the perimeter of the triangle PQR.

33 a. Solve for  $x$ :  $2(x + 1) - 3(2x - 1) = -3$

b. Find the value of  $a^r \div a^x$ , given that  $a = 2, r = 5$  and  $x = 3$

34 Use the figure below to answer the questions that follow.

a. Find the value of  $a$ .

M

K

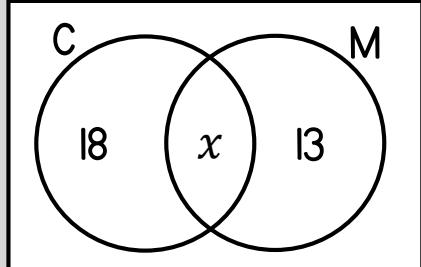

b. Find the size of angle BAC in degrees.

c. Work out the value of  $y$ .

- 35 At a birthday party attended by 40 guests, 18 ate chicken (C) only, 13 ate meat (M) only,  $x$  guests ate both chicken and meat and 4 did not eat any of the two dishes.

a. Use the information given above to complete the Venn diagram below.

$$n(\mathcal{E}) = \text{_____}$$

b. Find the value of  $x$ .

2024

REVISE

- 36 A businessman has 200 bags ~~C~~ of maize flour each weighing 50kg.

a. Find the total weight of the bags in tonnes.

M

K

b. If a pickup carries 2 tonnes per trip, workout the number of bags the pick-up will carry in one trip.

c. Find the number of trips the pickup will make to transport the whole flour from the milling machine to his shop.

37

On a mixed farm,  $\frac{1}{3}$  of the land is used for growing food crops while  $\frac{1}{4}$  of the remaining land is for cash crops. The rest of the land is for cattle grazing.

a. What fraction of the land is for cattle grazing?

b. If 15 hectares are used for cash crops, what is the total area of the farm?

2024

38

In a primary school, each pupil [lays only one game. The pupils who play each game are given below:

Use the information to answer the questions that follow.

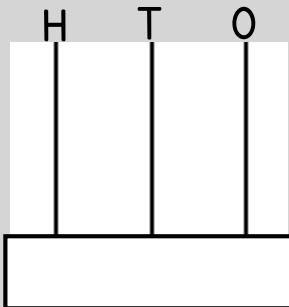

Game	No. of pupils
Football	55
Basketball	40
Volleyball	45
Tennis	20
Netball	40

a. What percentage of the pupils play netball?

b. If a pupil is picked at random, what is the probability that a pupil plays volleyball?

c. Find the mean number of pupils who play games in the school.

- 39 a. Draw beads to show the number 302 on the abacus below.

- b. Write 3409 in standard form.

- c. What is the place value of 4 in the number 240?

2024

- 40 Square tiles of side 20cm each were laid on the floor of a room measuring 600cm by 400cm.

- a. Find the number of tiles needed to cover the floor.

REVISE

C

- b. If a box containing 25 tiles costs shs. 30,000, find the total cost of the tiles needed to cover the whole floor.

K

- 41 a. Solve the inequality:

$$3(x + 4) < 5x - 2$$

- b. Solve the equation:

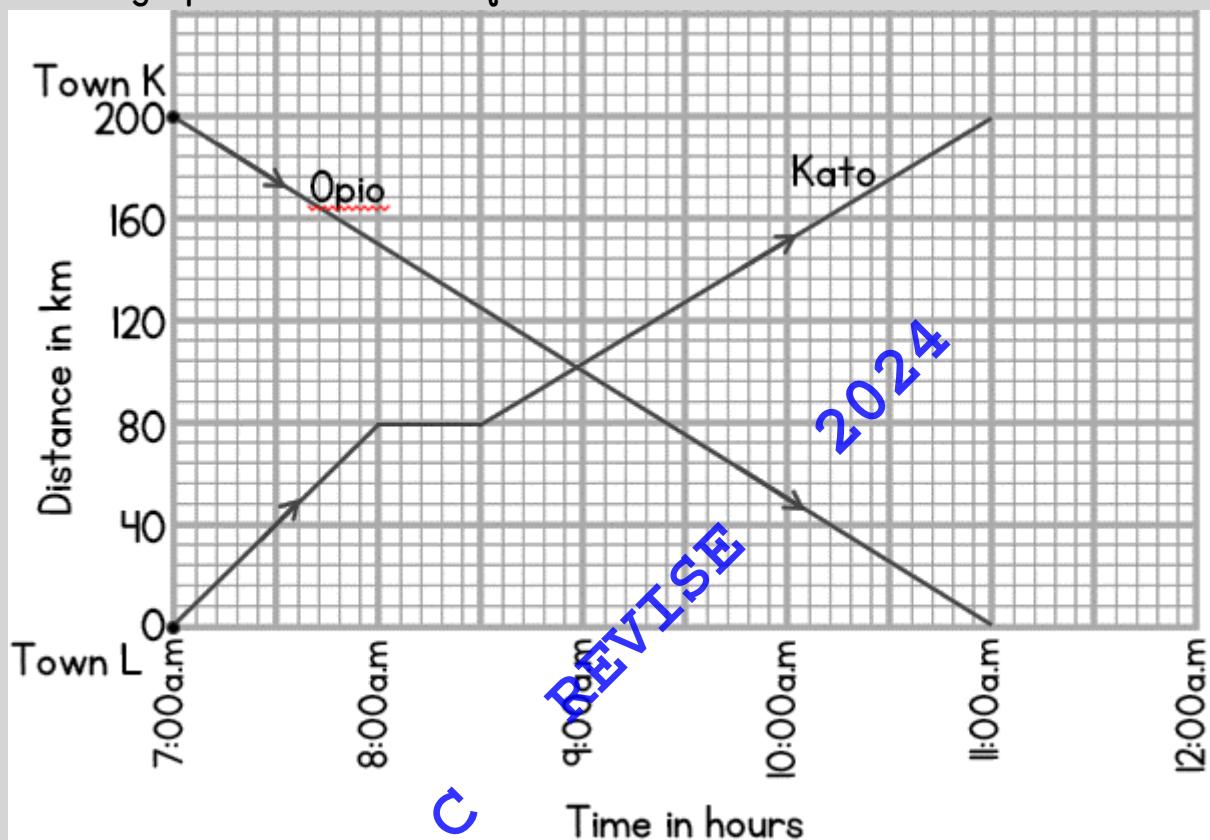

$$2x - 2 = \frac{1}{4}x + 5$$

42

The graph below shows the journeys made by Opio and Kato between towns K and L which are 200km apart.

Opio left town K at 7:00am and drove at a steady speed of 50km/hr to town L. Kato left town L at the same time and covered a distance of 60km at a steady speed in an hour. He then rested for  $\frac{1}{2}$  an hour after which he drove for  $2\frac{1}{2}$  hours to town K.

Use the graph to answer the questions that follow.

a. At what time did Opio and Kato meet?

M

b. What distance had Opio covered by 9:00am?

K

c. How far from town L was Opio at 10:00am?

d. Work out Kato's average speed for the journey he covered after resting.

e. Find Kato's average speed for his whole journey.

## CANDIDATE'S INFORMATION

Index number : 

--	--	--	--	--	--	--	--

Name : \_\_\_\_\_

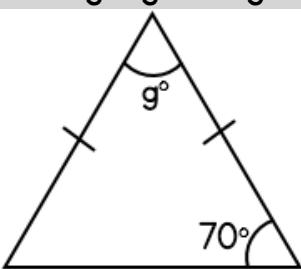

Signature : \_\_\_\_\_

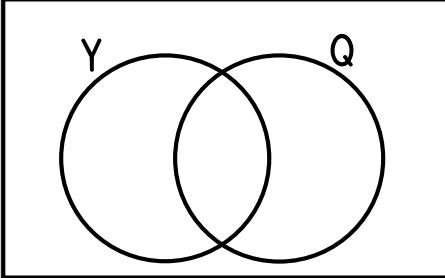

School name : \_\_\_\_\_

District name : \_\_\_\_\_

## SECTION A: 40 MARKS

1	Workout: $10 \div 2$	2	Simplify: $2x + 3x$
3	Write in figures: Sixty one thousand.	4	Given set $A = \{a, b, f, k\}$ and set $B = \{a, c, k\}$ , find $n(A \cup B)$
5	Simplify: $-5 + -2$	6	Write 49 in Roman numerals.

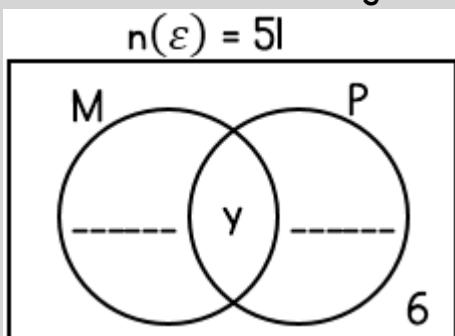

7	<p>Shade <math>\frac{1}{2}</math> of the drawing below.</p> 	8	<p>Using a pair of compasses, a ruler and a pencil only, bisect the line below.</p> 									
9	<p>What is the value of 5 in the figure 65011?</p>	10	<p>Change 2.5 metres to centimetres.</p>									
11	<p>Cards labelled 1 to 5 are folded, put in a bucket and mixed up. What is the probability of picking a card having a prime number?</p>	12	<p>Seven children had the following ages: 7, 3, 6, 2, 5, 1 and 4. Find the mean age.</p>									
13	<p>In the triangle below, find the size of angle g in degrees.</p> 	14	<p>Workout:</p> <table style="margin-left: auto; margin-right: auto;"> <tr> <td style="text-align: center;">1</td> <td style="text-align: center;">6</td> <td style="text-align: center;">5</td> </tr> <tr> <td style="text-align: center;">x</td> <td></td> <td style="text-align: center;">4</td> </tr> <tr> <td colspan="3" style="height: 20px;"></td> </tr> </table>	1	6	5	x		4			
1	6	5										
x		4										

15	Given that $a = -3$ and $b = 4$ , find the value of $2a + 2b$	16	Find the next number in the sequence:  23, 19, 16, 14, _____
17	A fifty minute test started at 9:50a.m. At what time did it end?	18	Solve: $4p - 4 = 20$
19	In a line of vehicles, a bus was the 7 <sup>th</sup> from each end of the line. How many vehicles were in the line?  <i>REVISE</i>	20	In the Venn diagram below, shade the area (YUQ)  
21	Workout: $\frac{5}{12} - \frac{5}{9}$	22	Change $11_{\text{ten}}$ to base two.

23 In the diagram below, find the co-ordinates of point K.	24 A boy ran a distance of 6km in 45 minutes. What was his speed in kilometres per hour?
	<p>How many edges does the figure below have? <span style="color: blue;">20</span></p>
<p>25 Arrange the following decimals in order beginning from the smallest: 0.11 , 0.5 and 0.03</p> <p style="color: blue; transform: rotate(-15deg); position: absolute; left: 480px; top: 420px;">REVISE</p>	<p>26</p>
<p>27 Workout: <math>6702 - 4865</math> <span style="color: blue;">C</span></p> <p style="color: blue; transform: rotate(-15deg); position: absolute; left: 250px; top: 550px;">K</p> <p style="color: blue; transform: rotate(-15deg); position: absolute; left: 400px; top: 550px;">M</p>	<p>28 Four packets of mango juice cost sh. 2,000. What is the cost of seven similar packets?</p>
<p>29 In a P.7 class, <math>\frac{2}{5}</math> of the pupils are girls. If there are 150 pupils in class, find the number of boys.</p>	<p>30 In the diagram below, find the bearing of town Z from town W.</p>

## SECTION B: 60 MARKS

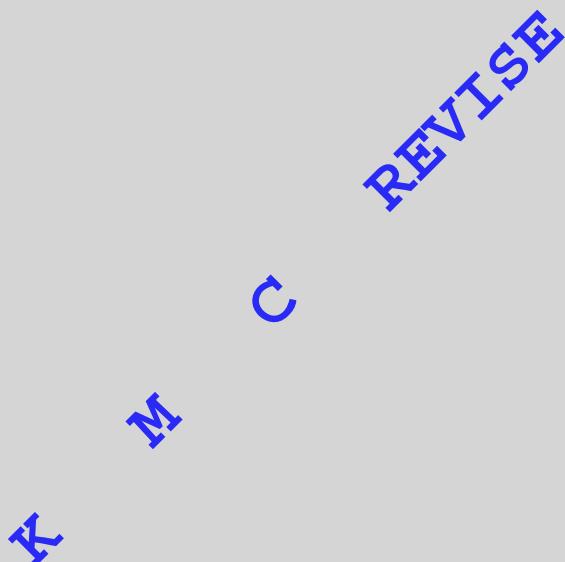

- 31 In a class party of 51 pupils, 28 drank mirinda (M), 29 drank pepsi (P), y drank both mirinda and pepsi while 6 did not drink any of the two sodas.
- a. Use the information given above to complete the Venn diagram below.

b. Find the value of y.

c. Find the number of pupils who drank one type of soda only.

- 32 a. Using a ruler, a pencil and a pair of compasses only, construct a rectangle ABCD in which AB = 8cm and BC = 7cm.

b. Measure the length of diagonal AC.

c. Measure the angle BAC.

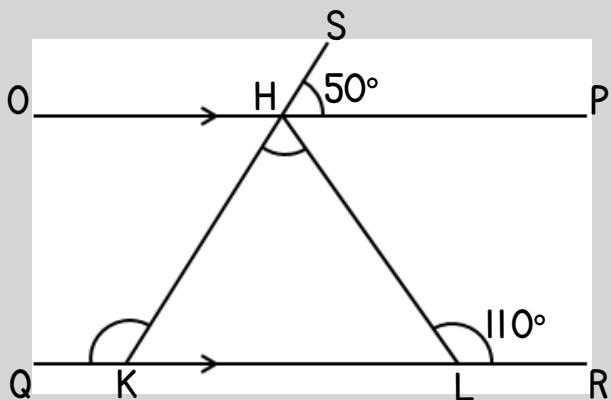

- 33 The table below shows the arrival and departure time of a bus that travels from Kampala to Hoima daily.

Town	Arrival time	Departure time
Kampala		7:30 a.m
Busunju	8:10 a.m	8:30 a.m
Bukomero	9:30 a.m	9:45 a.m
Kiboga	10:15 a.m	10:40 a.m
Hoima	11:40 a.m	

- a. At what time does the bus leave Kampala?
- b. How long does the bus stay at Bukomero?
- c. How long does the bus take to travel from Bukomero to Kiboga?
- d. Find the total time taken by the bus to travel from Kampala to Hoima?

- 34 a. Solve:  $2m + 3 = 18 - m$
- b. Solve:  $2(3x - 1) - 4(x - 1) = 4$

- 35 In the diagram below, OP is parallel to QR. HKL is a triangle, angle HLR =  $110^\circ$  and angle SHP =  $50^\circ$ . Study it and answer questions that follow.

Find the size of;

- a. angle y.  
b. angle m.

2024

REVISE

- 36 a. Find the number which has been expanded below.

$$(1 \times 10^4) + (3 \times 10^2) + (6 \times 10^0)$$

C

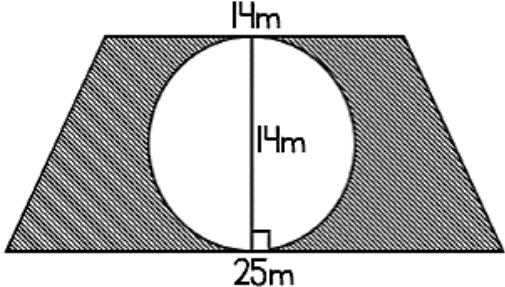

M

- b. Change  $1011_{\text{two}}$  to base ten.

K

- c. Find the value of  $x$ :  $3 + 3 = x$  (finite 4)

- 37 Find the area of the shaded part in the diagram below. (use  $\pi = \frac{22}{7}$ )

- 38 The mean of the scores 8, 9, 6, 4 and x is 6.

a. Find the value of x.

b. What is the median score?

c. Find the probability that a score picked at random is below the mean.

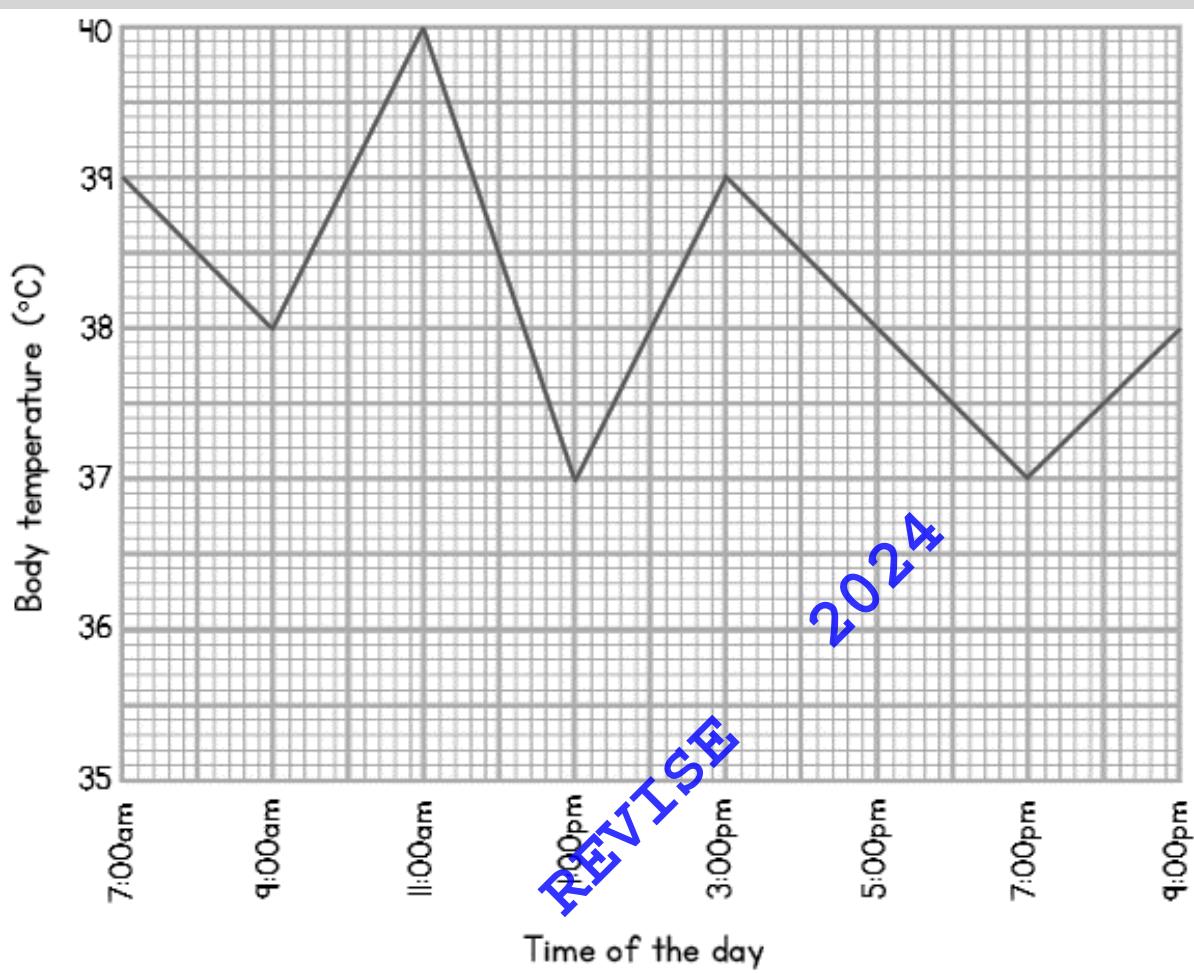

- 39 Makeba's car uses 8 litres of petrol for every 50km.

a. How much ~~petrol~~ does it need for a journey of 325km?

b. If one litre of petrol costs sh. 2,900, how much money will he spend on petrol needed to run the car for  $1\frac{1}{2}$  hours at a speed of 50km per hour?

40

The graph below shows the changes in body temperature of a patient in a hospital recorded after every two hours in a day. Use it to answer questions that follow.

a. What was the highest temperature recorded?

M

b. Find the range in the recorded body temperature.

K

c. Work out the average body temperature of the patient from 3:00pm to 9:00pm.

41

A man spends  $\frac{1}{3}$  of his salary on food,  $\frac{1}{9}$  on clothing,  $\frac{1}{6}$  on medical,  $\frac{1}{18}$  on house rent and banks the rest which is shs.35,000.

a. What fraction of his salary does he bank?

b. How much money does he earn as salary?

2024

REVISE

42

Simplify:

a.  $n^2 \times n$

C

M

b.  $m^6 \div m^3$

K

c. 
$$\frac{a^2 \times a^5}{a^3}$$

School name : \_\_\_\_\_

District name : \_\_\_\_\_

## SECTION A: 40 MARKS

1 Work out:

$$\begin{array}{r} 3 \quad 2 \\ \times \quad 3 \\ \hline \end{array}$$

2 Write in figures: thirty eight thousand, fifty.

3 Simplify:  $6a - 4a + a$

M  
K

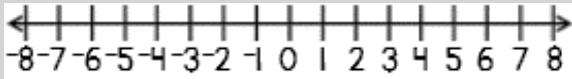

4 Write 54 in Roman numerals.

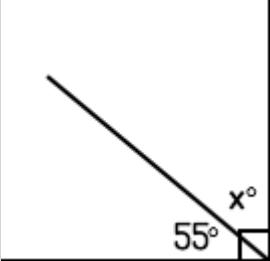

5 Simplify:  ${}^+8 - {}^-2$

6 Write down the fraction of the shaded part of the drawing below.

7	Change 750 centimetres into metres.	8	Using a pair of compasses, a ruler and a pencil only, draw an angle of $60^\circ$ in the space provided below.
9	Given set $C = \{2, 7, 10, 17\}$ and set $D = \{5, 6, 7, 11, 15\}$ , find $C \cap D$	10	In a basket, 4 bad eggs are mixed up with 3 good eggs. If an egg is picked at random from the basket, what is the probability of picking a good egg? 20% REVISE
11	Workout: $2.0 + 0.5$	12	Simplify: $\frac{5}{9} - \frac{2}{9}$
13	On the number line below, show $4 \times 2$ .	14	Five pupils scored the following marks in a mathematics test: 55, 72, 61, 93 and 60. Find the median mark.

15	<p>In the diagram below, find the value of <math>x</math>.</p> 	16	<p>It started raining at 9:45a.m and stopped at 1:25p.m. For how long was it raining?</p>
17	<p>How many lines of folding symmetry does the figure below have?</p> 	18	<p>Find the next number in the following sequence.</p> <p style="text-align: center;"><del>1, 8, 27, 64, _____</del> <del>2024</del></p>
19	<p>Given that <math>p = -4</math>, <math>q = 3</math> and <math>c = -2</math>, find the value of <math>\frac{pq}{c}</math></p> <p style="text-align: center;"><del>M</del></p>	20	<p>Solve: <math>2(3x - 6) = 24</math></p>
21	<p>The circumference of a circle is 88cm. Find its radius. (use <math>\pi = \frac{22}{7}</math>)</p>	22	<p>Change <math>11011_{\text{two}}</math> to base ten.</p>

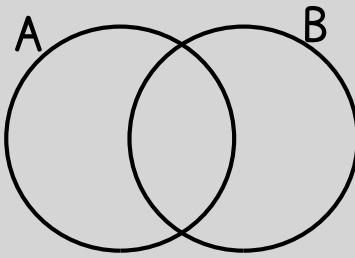

23

Workout:

$$\begin{array}{r}
 6 \quad 8 \quad 8 \quad 5 \\
 + \quad 8 \quad 4 \quad 3 \quad 7 \\
 \hline
 \end{array}$$

--

24

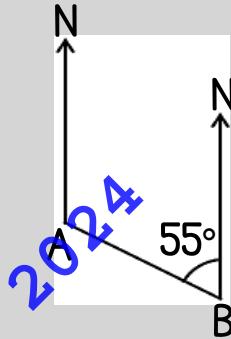

In the Venn diagram below, shade the area  $(A \cap B)$ 

25

In a market, one buys 5 mangoes at sh. 1,500. How many similar mangoes does one buy with sh. 1,200?

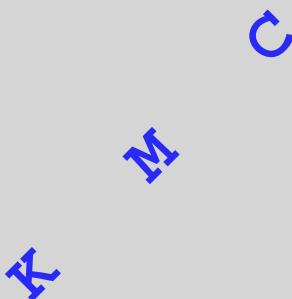

26

In the figure below, find the bearing of town B from town A.

27

A man drove a car steadily at a speed of 25 metres per second. Change this speed into kilometres per hour.

REVISE  
2024

28

Arrange the following fractions in order beginning with the smallest:

$$\frac{2}{7}, \frac{2}{9} \text{ and } \frac{1}{3}$$

29

If  represents 1500 pupils in a school, find the number of pupils represented by 

30

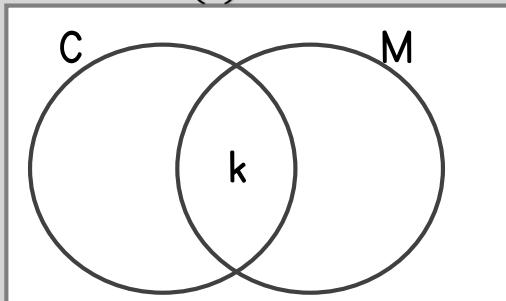

A farmer banked sh. 126,000 for 4 months at a simple interest rate of 8% per year. Find his interest.

## SECTION B: 60 MARKS

- 31 At a party attended by 60 pupils, 42 ate chicken (C),  $(k + 8)$  ate meat (M) only,  $k$  pupils ate both chicken and meat while 6 did not eat any of the two items.

a. Use the information given above to complete the Venn diagram below.

$$\cap (\varepsilon) = 60$$

b. Find the value of  $k$ .

2024

c. If a pupil is picked at random, what is the probability that a pupil ate meat?

REVISE

- 32 Fatuma went to the market and bought the items shown in the table below.

a. Complete the table. C

Item	Quantity	Price	Amount
Eggs	M 15	Sh. 500 per egg	Sh. _____
Meat	K ----- kg	Sh. 6,000 per kg	Sh. 15,000
Cooking oil	$\frac{1}{2}$ litre	Sh. ----- per liter	Sh. 2,000
Sugar	$1\frac{1}{2}$ kg	Sh. 3,000 per kg	Sh. -----
TOTAL EXPENDITURE			Sh. -----

b. If Fatuma went to the market with sh. 30,000, how much did she remain with?

- 33 a. Using a pair of compasses, a ruler and a pencil only, construct a triangle PQR in which  $PQ = 6\text{cm}$ , angle  $RPQ = 60^\circ$  and angle  $PQR = 45^\circ$ . Construct a perpendicular from R to meet PQ at Y.

2024

- b. Measure RY

- 34 A teacher recorded marks of P.7 pupils in a mathematics test as shown in the table below. Study it carefully and use it to answer questions that follow.

Marks	72	85	90	95	96
No. of pupils	4	12	1	4	5

- a. Find the range of marks.

K

- b. What is the modal mark?

- c. Work out the mean mark of the pupils who scored above 85.

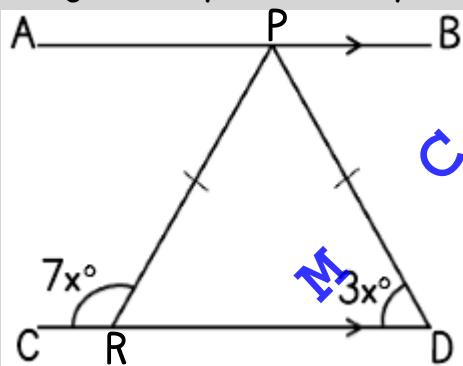

- 35 The rates at which the bank buys and sells United States dollars and Kenya shillings are given in the table below.

Currency	Rate at which a bank buys	Rate at which a bank sells
One U.S dollar	Ug. Sh. 2,800	Ug. Sh. 2,900
One Kenya shilling	Ug. Sh. 28	Ug. Sh. 30

- a. If a trader has 300 dollars and 500 Kenya shillings, how much money in Uganda shillings can he get from the bank?
- b. Peter has Ug. Sh. 160,000, how many U.S dollars can he get from the bank?

2024

- 36 In the diagram below, line AB is parallel to the CD and PRD is an isosceles triangle. Study it carefully and use it to answer questions that follow.

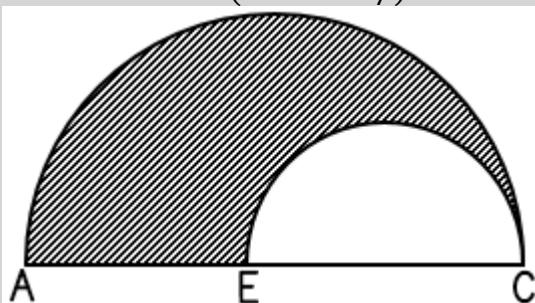

RETIREE

a. Find the value of x.

- b. Work out the size of angle CRP.

- 37 In the diagram below, AC = 56cm and EC is half of AC. Find the area of the shaded part. ( $\text{use } \pi = \frac{22}{7}$ )

38	<p>a. Solve: <math>6x - 9(x - 2) = 3</math></p>	<p>b. Solve: <math>3 + 4m &gt; 12 + 3m</math></p>
39	<p>a. Workout: <math>\frac{0.28 \times 0.08}{1.4 \times 0.4}</math></p>	<p>b. Workout: <math>1\frac{2}{5} \times 1\frac{1}{2} \div 3\frac{1}{2}</math></p> <p style="text-align: right;"><i>REVISE</i></p> <p style="text-align: right;"><i>2024</i></p>
40	<p>The pie chart below shows how Matata spends his monthly salary. Study it carefully and answer questions that follow.</p>  <p>a. Find the value of <math>y</math>.</p> <p>b. If he spends sh. 36,000 on clothing, how much does he earn per month?</p> <p>c. How much more money does he spend on food than he saves?</p>	

41 a. What is the place value of the digit 4 in the number 340017?

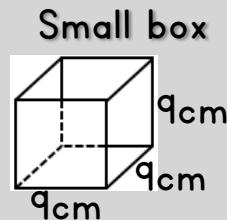

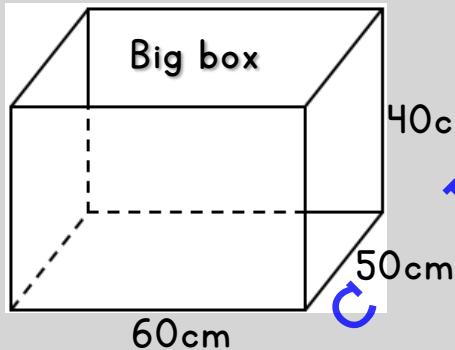

b. Simplify:  $\frac{b^3 \times b^5}{b^2 \times b^4}$

c. Expand 789 using powers of 10.

42 The diagram below shows a big box 60cm long, 50cm wide 40cm high and a small box 9cm long, 9cm wide and 9cm high. Study it carefully and answer the questions that follow.

2024

REVISE

If such small boxes are to be packed into the big box,

a. find the number of small boxes that will be packed in the first layer of the big box.

K

b. how many layers will fill the big box?

c. how many small boxes will fill the big box?

--	--	--	--	--	--	--	--

Name : \_\_\_\_\_

Signature : \_\_\_\_\_

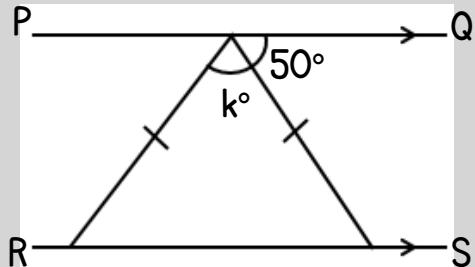

School name : \_\_\_\_\_

District name : \_\_\_\_\_

## SECTION A: 40 MARKS

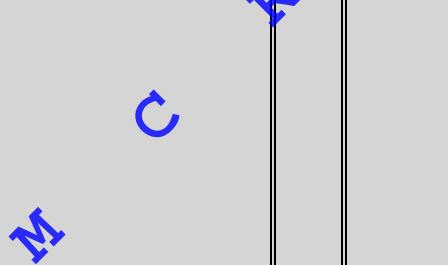

1	Workout: $87 - 65$	2	Write in words: 55,001 <i>2024</i>
3	Simplify: $-6 - -4$ <i>K</i> <i>M</i> <i>C</i>	4	Solve: $\frac{2}{5} m = 4$
5	Given that set Q = {all prime numbers less than 10}. Find n(Q).	6	Workout: $3\frac{3}{4} \div 1\frac{1}{2}$

7 In the diagram below, find the value of  $k$ .

8 Find the value of:  $2^4 + 3^0$

9 A debate which took  $1\frac{1}{4}$  hours ended at 4:10 p.m. At what time did it start?

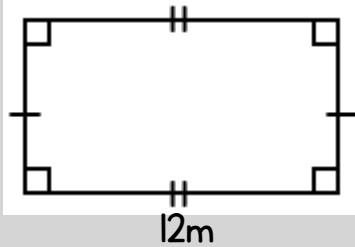

10 Find the Greatest Common Factor (GCF) of 18 and 24.  
2014

II Using a pair of compasses, a ruler and a pencil only, construct an angle of  $120^\circ$  in the space provided below.

12 Write 0.08 as a fraction in its simplest form.

- I3 The perimeter of the rectangle below is 36m. Find its width if its length is 12m.

- I5 Given that  $k = 2$  and  $p = -3$ , find the value of  $3k + 2p$

I4 Workout:

$$\begin{array}{r} 2 \quad 6 \quad 8 \\ \times \quad 2 \quad 5 \\ \hline \end{array}$$

- I7 The table below shows the goals scored by some teams in the netball competition. Use it to answer question I7.

Goals	25	20	15	12	30	10
Teams	2	4	3	4	3	5

How many teams scored less than 20 goals?

REVISE

- I6 A gate keeper's salary was increased from sh. 50,000 to sh. 60,000. Find the percentage increase.

20%

- I9 The number of subsets in set A is 16. How many elements are in set A?

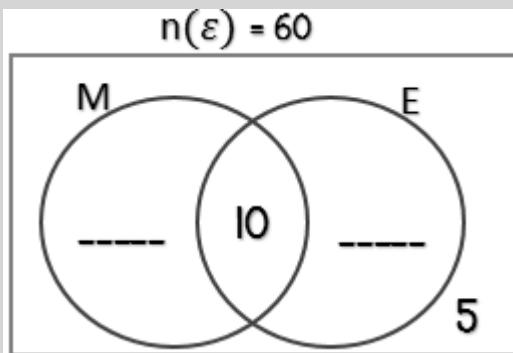

- I8 Find the square root of  $3\frac{1}{16}$

- I20 A bus covered a distance of 280km in 3 hours and 30 minutes. What was its average speed?

## SECTION B: 60 MARKS

- 21 In a class of 60 pupils, 30 like English (E),  $y$  like mathematics (M) only, 10 like both subjects and 5 do not like any of the two subjects.

a. Use the information given above to complete the Venn diagram below.

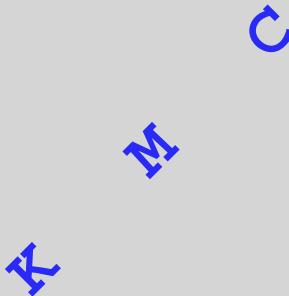

b. Find the value of  $y$ .

a. How many pupils like Mathematics altogether?

2024

- 22 a. Using a ruler, a pair of compasses and a pencil only, construct a triangle ABC where line AB = 6.4cm, angle CAB =  $60^\circ$  and angle ABC =  $75^\circ$ .

b. Measure the length BC.

23 Asiimwe bought the following items from a shop.

3 bars of soap at sh. 1,200 per bar.

$1\frac{1}{2}$  kg of sugar at sh. 3,000 per kg.

$\frac{1}{2}$  kg of salt at sh. 1,000 per kg.

a. What was his total expenditure?

b. If he had sh. 10,000, how much money did he remain with?

2024

REVISE

C

M

b. Joan poured the remaining cooking oil into a rectangular tin with base area ~~71~~ cm<sup>2</sup>. What was the height of the oil in the tin?

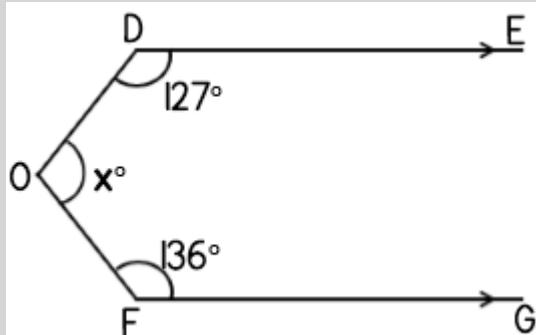

25 a. Solve:  $14p + 4 = 11$

b. Solve the inequality:

$$3x + 4 > x + 8$$

- 26 a. The interior angle of a regular polygon is  $36^\circ$  more than its exterior angle. What is the size of each exterior angle?

- b. In the figure below, DE is parallel to FG, angle ODE =  $127^\circ$  and angle OFG =  $136^\circ$ . Calculate the size of angle x.

2024

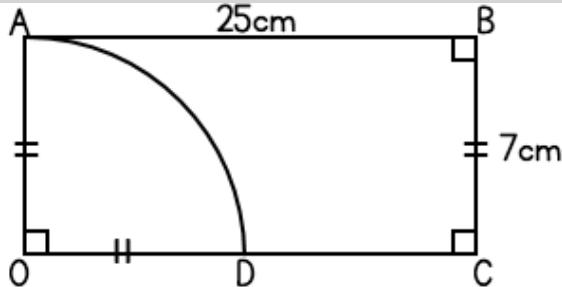

- 27 In Jumbo primary school,  $\frac{1}{4}$  of the pupils in P.7 like science,  $\frac{2}{3}$  of the remainder like Mathematics. The rest of the pupils like English. If those who like English are 33, find the total number of pupils in P.7.

C  
M  
K

- 28 a. Change  $13_{\text{ten}}$  to base two.

- b. Find the number which has been expanded below.  
 $(5 \times 10^5) + (4 \times 10^3) + (9 \times 10^0)$

- 29 Carefully study the diagram below and use it to answer the questions that follow. Line AB = OC and AO = OD.

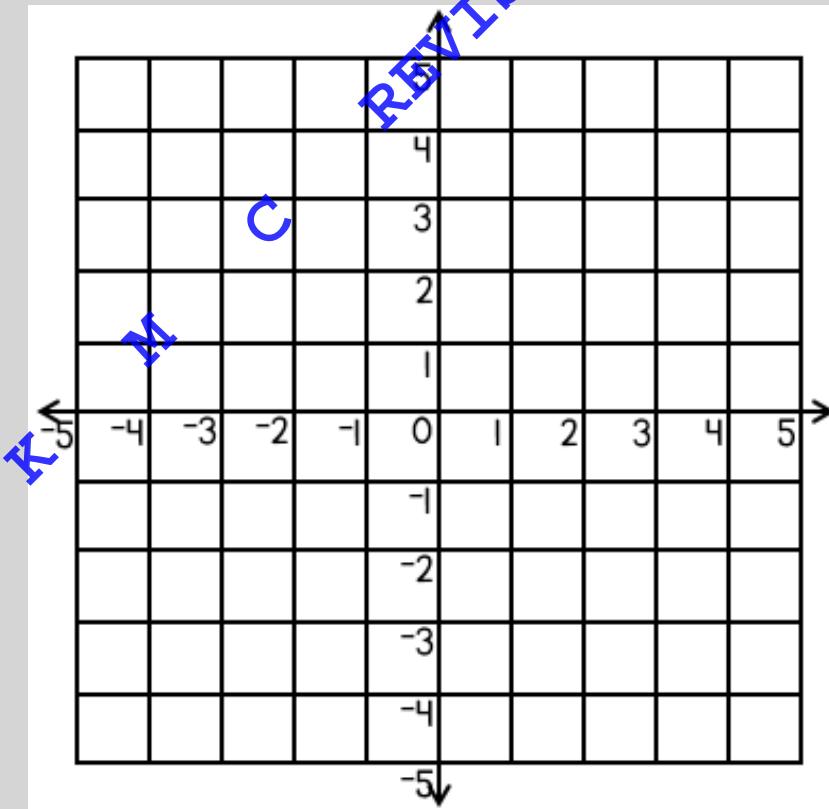

a. Find the length of arc AD? (use  $\pi = \frac{22}{7}$ )

b. Workout the perimeter of ABCDA

2024

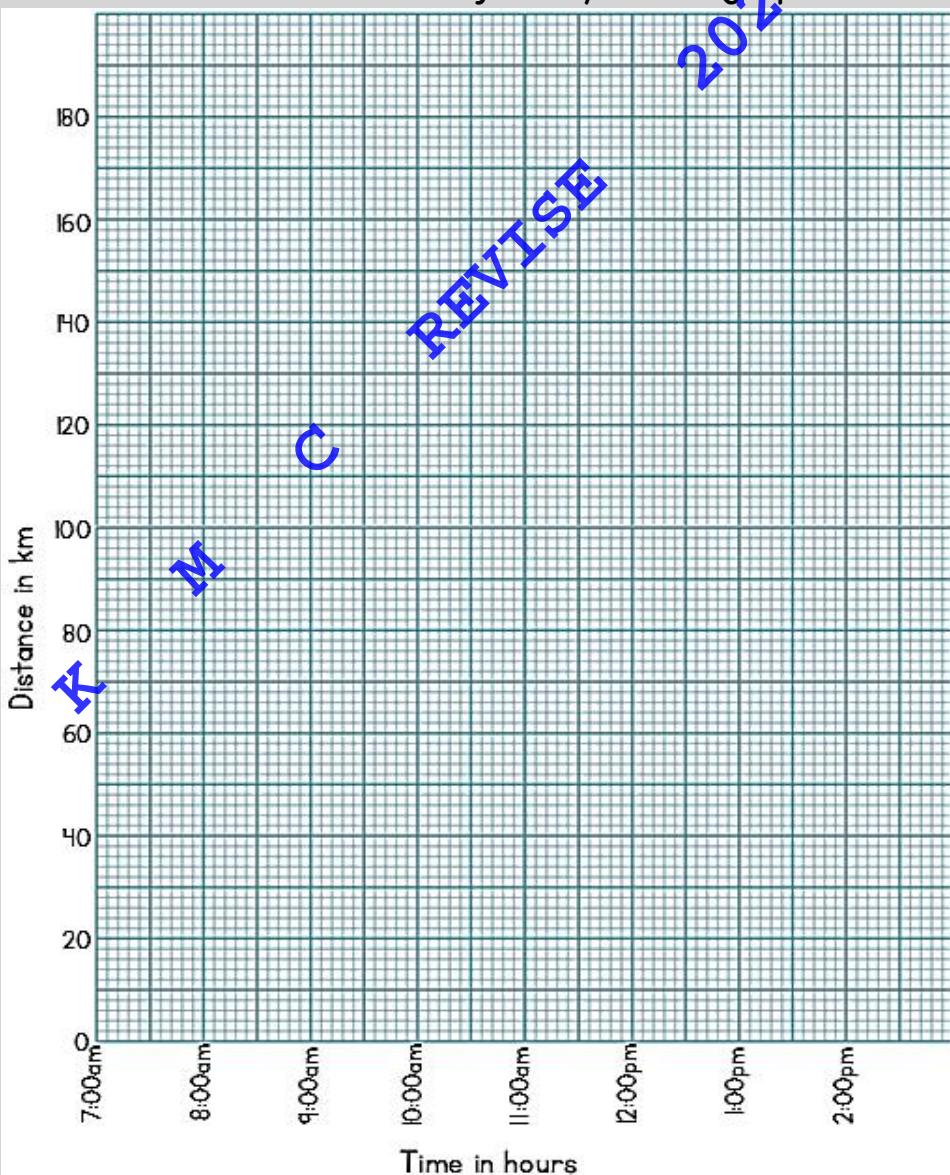

- 30 a. On the graph below, plot the points A(-2, +3), B(+5, +3), C(-2, -1) and D(+1, -1).

- b. Join A to B, B to D, D to C and C to A.  
c. Name the quadrilateral formed after joining the points.

- 31 A man's salary was increased by 30% to sh. 312,000 per month.
- What was the man's monthly salary before the increment?
  - If 5% of his new salary is subtracted as tax, what was his final salary?

- 32 Okidi left Kampala at 7:00am driving a lorry at average speed of 40km/hr for 2 hours to Jinja. He rested for one hour at Jinja then continued to Tororo at an average speed of 50km/hr for another 2 hours.
- Use the information to show Okidi's journey on the graph below.

- Calculate Okidi's average speed for the whole journey.

M

- 23 In a village of 49 farmers, 20 grow millet (M), 25 grow beans (B) and  $y$  grow both millet and beans. 3y farmers grow neither of the two food crops.

a. Use the information given above to complete.

b. Find the value of  $y$ .

a. How many farmers grow neither millet nor beans?

24 Pupils did a test and scored marks as shown in the table below.

Marks	50	k	45	80
Number of pupils	2	6	3	4

- How many pupils did the test?
- Find the value of k if the mean mark was 61.
- What was the range of the marks?

2024

25 a. Solve the inequality:  $9 \leq -3(y - 1)$

REVISE

b. State the first two values of the solution set for the inequality.

M

K

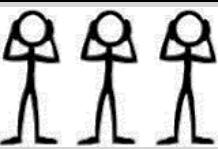

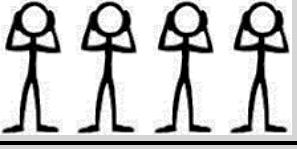

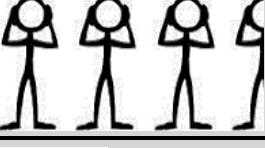

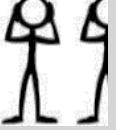

C

26 a. A watch loses 5 seconds every one hour. How many minutes will it lose in two days?

b. Express 5m/sec in km/hr

27

The pictograph represents the number of patients who were admitted in a hospital on a certain day. Study and use it to answer questions that follow.

Men's ward	
Children's ward	
Women's ward	
Maternity ward	

Note:  rep. 10 patients.

a. How many patients were admitted in the hospital on that day?

2024

b. Find the ratio of patients in the women's ward to those in the children's ward in its simplest form.

REVISE

C

c. Express the number of patients in the men's ward as a percentage of the total number of patients.

K

28

A tank was  $\frac{2}{3}$  full of water. When  $\frac{1}{4}$  of the water in the tank was drawn, 2,500 litres remained. Find the capacity of the tank when full.

29 Opoka rides a distance of 2.97km from his home to school on a bicycle.  
The wheel of the bicycle has a diameter of 63cm.

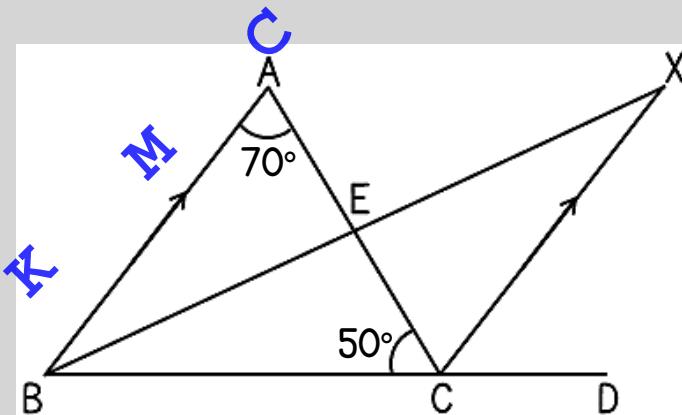

- a. How many revolutions does the wheel make to cover the distance?  
(use  $\pi = \frac{22}{7}$ )

- b. If Opoka makes 50 revolutions in one minute, how long does he take to reach the school?

2024

REVISE

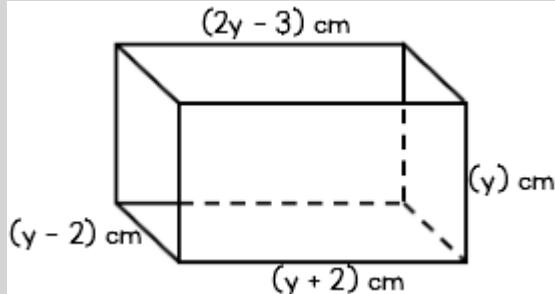

30 In the figure below,  $BCD$  is a straight line. Line  $BX$  bisects angle  $ABC$ . Line  $AB$  is parallel to line  $XC$ . Angle  $BCE = 50^\circ$  and angle  $BAC = 70^\circ$ .

Find the sizes of angles;

- a.  $CEX$       b.  $DCX$

- 31 The figure below is a cuboid. Study and use it to answer the questions that follow.

a. Find the value of  $y$ .

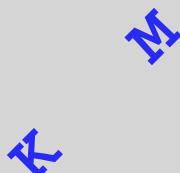

b. Find the volume of the cuboid.

- 32 A tourist left town A and travelled 55km westwards to town B. He then turned on a bearing of  $215^\circ$  and travelled to town C which is a distance of 65km.

a. Draw a sketch diagram to show the tourist's journey.

REVISE 2024

b. Using a scale of 1cm to represent 10km, draw an accurate diagram to show the tourist's journey.

c. Find the shortest distance from town C to A in km.

K

- 19 The pie chart below shows how a farmer uses her land. Use it to answer questions that follow.

Calculate the size of her land if she uses 72 acres for cultivation.

- 20 The graph below shows the temperature of a patient in a hospital taken from 7:00a.m to 12:00 noon in a day. Use it to answer questions that follow

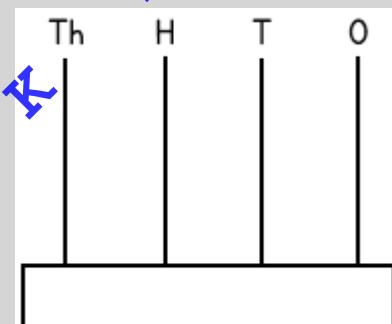

What times of the day was the temperature of the patient the same?

REVISE  
C

## SECTION B: 60 MARKS

- 21 a. Draw beads to show the number 4,502 on the abacus below.

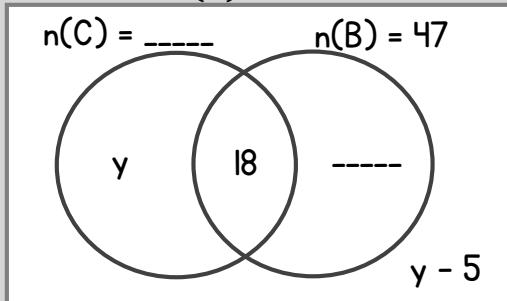

- b. Find the sum of the values of 3 and 7 in the number 3,678.

- 22 A birthday party attended by 76 guests, 47 were served with beef (B) and 18 were served with both beef and chicken (C).  $y$  guests were served with chicken only while  $(y - 5)$  were not served with any of the two dishes.

a. Use the information above to complete the Venn diagram below.

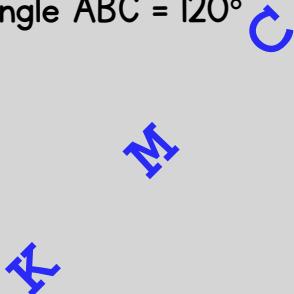

$$n(\emptyset) = 76$$

b. Find the value of  $y$

c. Find the number of guests who were served with chicken.

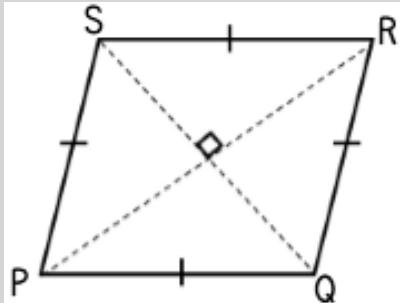

- 23 a. Using a ruler, pencil and a pair of compasses only;
- i. Construct a parallelogram ABCD such that line AB = 7cm, BC = 5cm and angle ABC =  $120^\circ$

ii. Drop a perpendicular from D to meet AB at M.

b. Measure the line DM in cm.

- 24 The diagram below shows a rhombus PQRS. The diagonals  $PR = 24\text{cm}$  and  $QS = 10\text{cm}$ .

a. Calculate the area of the rhombus.

b. Find the perimeter of the rhombus.

25 a. Workout:  $\frac{3.9 + 3.6}{0.06 \times 0.6}$

b. Simplify:  $3\frac{1}{2} \div 2\frac{1}{2} \times 2\frac{2}{5}$

*REVISE 2024*

M C

- 26 Apio bought the following items from a market.

2 kg of rice at shs. 3,200 per kg.

$1\frac{1}{2}$  kg of meat at shs. 8,000 per kg.

500g of salt at shs. 1,400 per kg.

A packet of cooking oil at shs. 1,750.

How much money did she spend altogether?

- 27 The timetable below shows how a pupil spent one Saturday. Use it to answer questions that follow.

Time	Activity
7:00am - 10:30am	digging
10:45am - 12:45pm	washing
1:00pm - 2:45pm	lunch and resting
3:00pm - 4:30pm	playing
5:00pm - 7:30pm	reading

- a. How long did he take playing?
- b. If he dug his maize garden at a rate of 2 rows in every 30 minutes, find the number of rows he dug that day.

REVISE  
2024

- 28 The exchange rate for Kenya shillings (Ksh.) to Uganda shillings (Ush.) and the United States Dollars (US\$) to Uganda shillings are shown below.

Ksh 1 = Ug.sh 30

US\$ 1 = Ug.sh 2,580

- a. How many United States dollars will one get from 21,500 Kenya shillings?

K  
M

- b. If the cost of a new bicycle is 90 United States dollars, How much would this be in Uganda Shillings?

29	<p>At a Kampala bus park, buses traveling to Arua and Mbarara leave after every 40 minutes and 50 minutes respectively. The first buses to the two towns leave together at 6:00am. At what time will the two buses leave Kampala together again?</p>
30	<p>a. The mean of the numbers 7 , 9 , 5 , <math>x + 2</math> and 6 is 8. Find the value of <math>x</math>.</p> <p>b. In a bag there are 15 pens. Out of these, 4 are red and the rest are blue. What is the probability that a pen picked at random from the bag is blue?</p>
31	<p>Nanziri has two children, a son and a daughter. If the son is half her age, the daughter a third her age and the total age of the two children is 30 years.</p> <p>a. Find Nanziri's age.</p> <p>b. How old is the daughter?</p>

32 A school wants to fence a circular flower garden of diameter 14cm using poles placed at intervals of 80cm.

a. How many poles are needed to fence the flower garden? (use  $\pi = \frac{22}{7}$ )

b. If each pole costs shs. 3,000, how much money will the school spend on the poles?

26

In the diagram below, line  $DH$  is parallel to  $FE$ . Angle  $ACB = 75^\circ$  and angle  $CBE = 135^\circ$ . Angle  $FAN$  is twice angle  $DAC$ . Study the diagram and use it to answer the questions that follow.

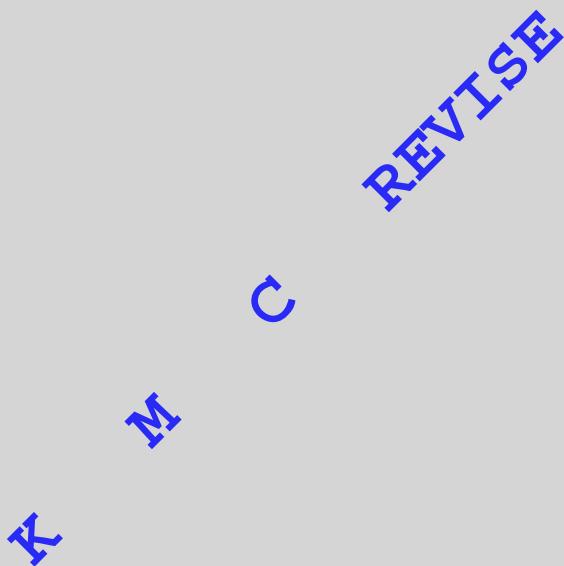

a. Calculate the size of angle  $DAC$

b. Find the size of angle  $ADC$ .

27 Arafat deposited money in a bank which offers a simple interest rate of  $2\frac{1}{2}\%$  per year. After 9 months, his account had an amount of sh. 163,000. Calculate the money Arafat deposited in the bank.

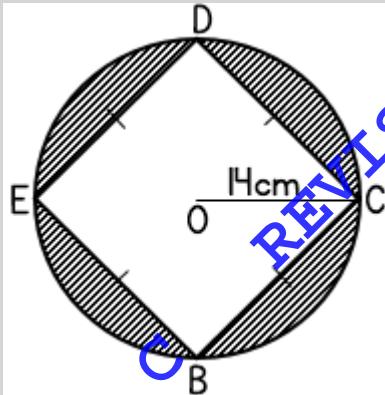

28 a. Using a ruler, a pencil and a pair of compasses only, construct a quadrilateral ABCD where line AB = 7cm, angle ABC = BAD =  $60^\circ$  and AD = BC = 3.5cm.

b. Measure the length DC. \_\_\_\_\_ cm

- 29 The total mass of tins of honey in a box is 3.25kg. The mass of each tin is 250g. Find the number of tins in the box.

- 30 The diagram below shows a square BCDE enclosed in a circle with centre O and radius 14cm. Parts of the circle are shaded as shown. Study the diagram and use it to answer the questions that follow.

a. Calculate the area of the circle. (Use  $\pi = \frac{22}{7}$ )

b. Find the area of the shaded part.

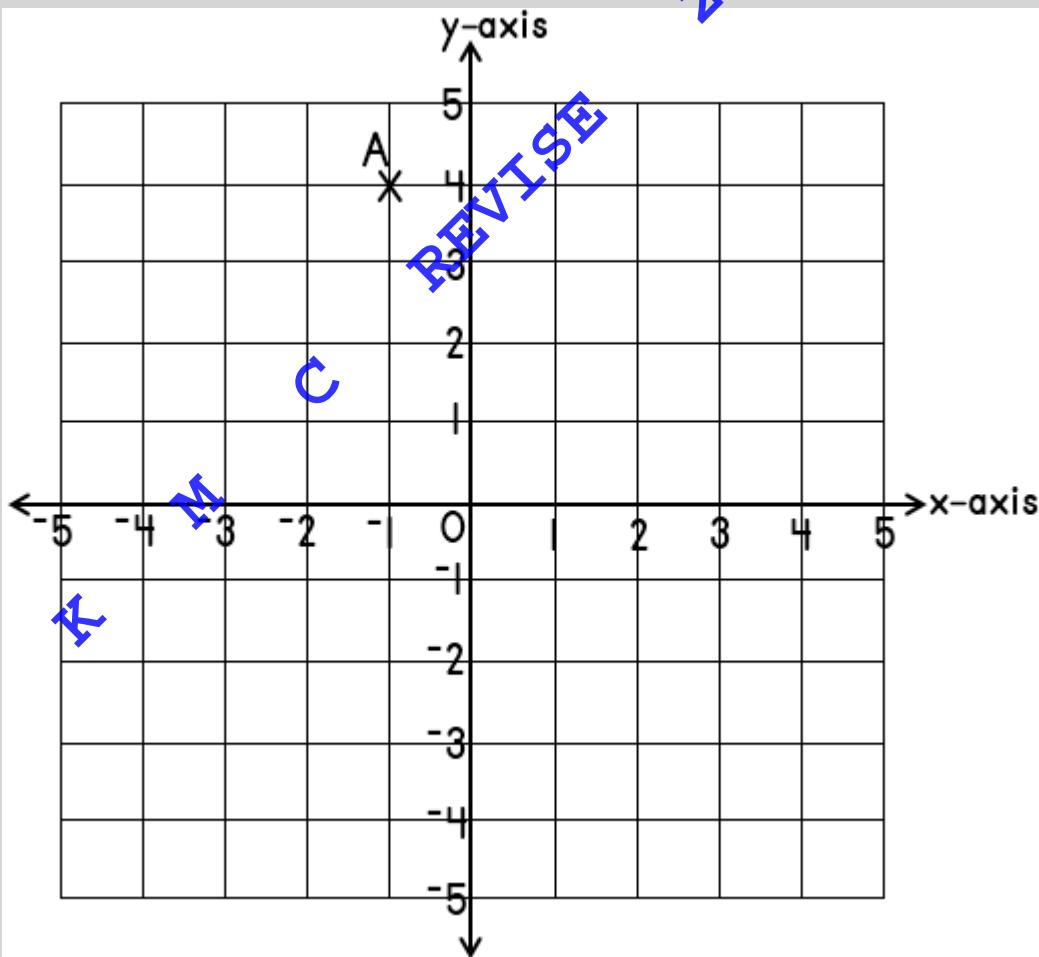

31 In a class,  $\frac{1}{5}$  of the girls are borders while  $\frac{1}{3}$  of the boys are day scholars.

The percentage of the girls in the class is 60%. The class has 10 boys who are day scholars.

a. How many pupils are in the class?

b. Find the number of girls who are borders.

32 Study the coordinate graph below and use it to answer the questions that follow.

a. Write the coordinates of point A.

b. Plot the points B(+2, +2) and C(-1, -4) on the graph.

c. Join points A to B and B to C.

d. Locate a point D on the graph, join it to A and C such that ABCD is a kite.

# MATHEMATICS PLE 2018

## CANDIDATE'S INFORMATION

Index number :

Name : \_\_\_\_\_

Signature : \_\_\_\_\_

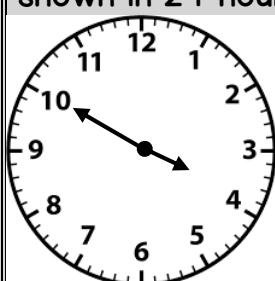

School name : \_\_\_\_\_

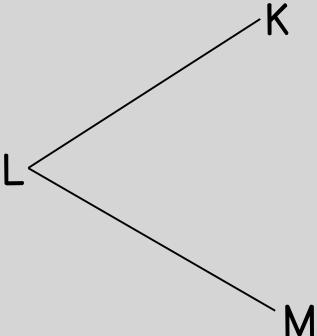

District name : \_\_\_\_\_

## SECTION A: 40 MARKS

Questions 1 to 20 carry 2 marks each

1	Workout: $36 \div 3$	2	Write in figures: Nine thousand, thirty six
3	Given that $P = \{a, b, c, d, e, f, g\}$ and $Q = \{b, a, f, e, h\}$ . Find $n(P \cup Q)$	4	A teacher counted pupils without school uniform in a class and tallied them as follows:   How many pupils were without school uniform?
5	The clock face below shows time in the afternoon. Write the time shown in 24-hour clock.	6	Simplify: $5k - 2(3 - k)$

7	<p>A car uses 7 litres of petrol to cover 28 kilometres. How many litres of petrol can it use to cover 64 kilometres?</p>	8	<p>Okia bought 4 packets of washing powder each weighing 750 grams. Find the weight of the washing powder Okia bought in Kilograms.</p>
9	<p>Use a protractor to measure the size of angle KLM below.</p>  <p>Angle KLM = _____</p>	10	<p>Find the next number in the sequence:</p>
II	<p>Workout: <math>(49 \times 39) + (61 \times 49)</math></p>	I2	<p>Round off 796 to the nearest tens.</p>
I3	<p>Workout: <math>-5 + ^2</math> on the number line below.</p> 	I4	<p>Martha drove from town A to town B at a speed of 72km per hour. Town A is 90km away from town B. Calculate the time she took to reach town B.</p>

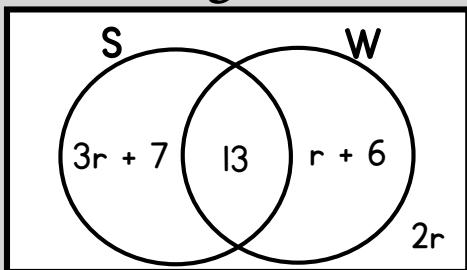

15	The following heights of six children were recorded at a health centre: 53cm, 64cm, 59cm, 51cm, 63cm and 61cm. Find the median height of the children.	16	Given that 1 US dollar (\$) costs Uganda shillings (Ug.sh) 3,672 and 1 Kenya shilling (K.sh) costs Ug.sh 36, find the cost of 1 US dollar in Kenya shillings.
17	Find the value of $p$ in degrees in the diagram below.	18	The taxi fare from Kampala to Mukono was raised by $16\frac{2}{3}\%$ . The old fare was sh.3,000. Find the new fare taxi fare.
19	Solve the inequality: $3 - 2m < 15$	20	Bottles of 300 millilitres (ml) were used to fill a nine litre bucket with water. Find the number of full 300ml bottles that were used.

## SECTION B: 60 MARKS

- 21 At a party, guests were served with soda (S) and mineral water (W) as shown in the Venn diagram below. Study and use it to answer the questions that follow.

- a. If 32 guests were served with soda,  
 (i). find the value of  $r$

- (ii). find the total number of guests who attended the party.

b. Find the probability that a guest picked at random did not take any drink.

22

a. Express  $\frac{4}{15}$  as a recurring decimal.

b. Simplify:  $\frac{4}{5} \times \frac{3}{7} \div \frac{9}{14} + 2\frac{7}{15}$

2024

REVISE

a. Write the place value of 2 and 1 in  $201_{\text{three}}$

b. Workout:  $42_{\text{five}} \times 21_{\text{five}}$

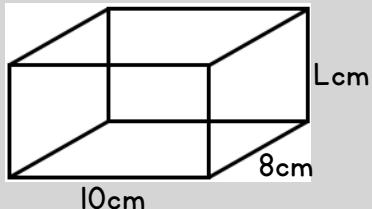

C

M

K

24 The sum of the lengths of all the edges of the prism below is 96cm.

a. Find the length of edge L

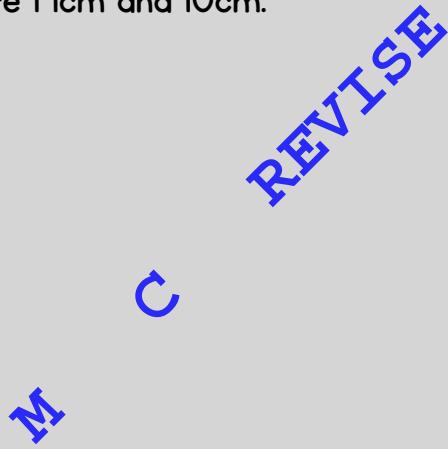

b. Calculate the volume of the prism.

25 Study and complete Mukasa's shopping table below:

Item	Quantity	Unit cost	Amount
Sugar	3kg	sh. ----- per kg	sh. 14,400
Rice	----- kg	sh. 5,000 per kg	sh. 2,500
Milk	250 ml	sh. 3,000 per litre	sh. -----
Biscuits	2 packets	sh. ----- per packet	sh. -----
Total expenditure			sh. 29,650

2024

26 a. Using a pair of compasses and a ruler only, construct a rhombus UVXY whose diagonals are 14cm and 10cm.

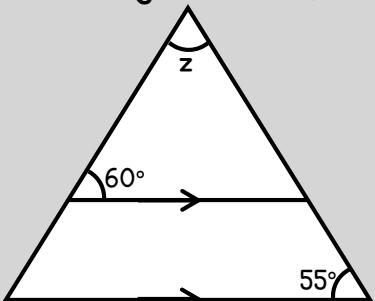

b. Measure the length  $\overline{VX}$ . ----- cm

27 The average weight of four boys is 56kg. When two other boys join the group, the average weight becomes 52kg. The sixth boy is 8kg heavier than the fifth boy. Find the weight of the sixth boy.

- 28 a. The interior angle of a regular polygon is  $108^\circ$  more than the exterior angle. How many sides has the polygon?

- b. In the figure below, find the size of angle  $z$ .

- 29 Joyce, Peter and Hannah shared pencils in the ratio 3:5:~~7~~ respectively.

- a. If Hannah got 12 more pencils than Joyce, how many pencils did they share altogether? 20/24

REVISE

- b. Find the number of pencils Peter got. C

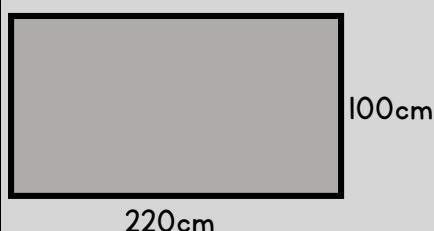

M

- 30 Kizito is 38 ~~years~~ old and his sister is 24 years old.

- a. How many years ago was Kizito three times as old as his sister?

- b. How old was Kizito's sister then?

- 31 The figure below shows a rectangular sheet of metal. The sheet is curved to form the wall of a cylindrical tank whose height is 100cm.

a. Find the diameter of the tank formed. ( $\pi = \frac{22}{7}$ )

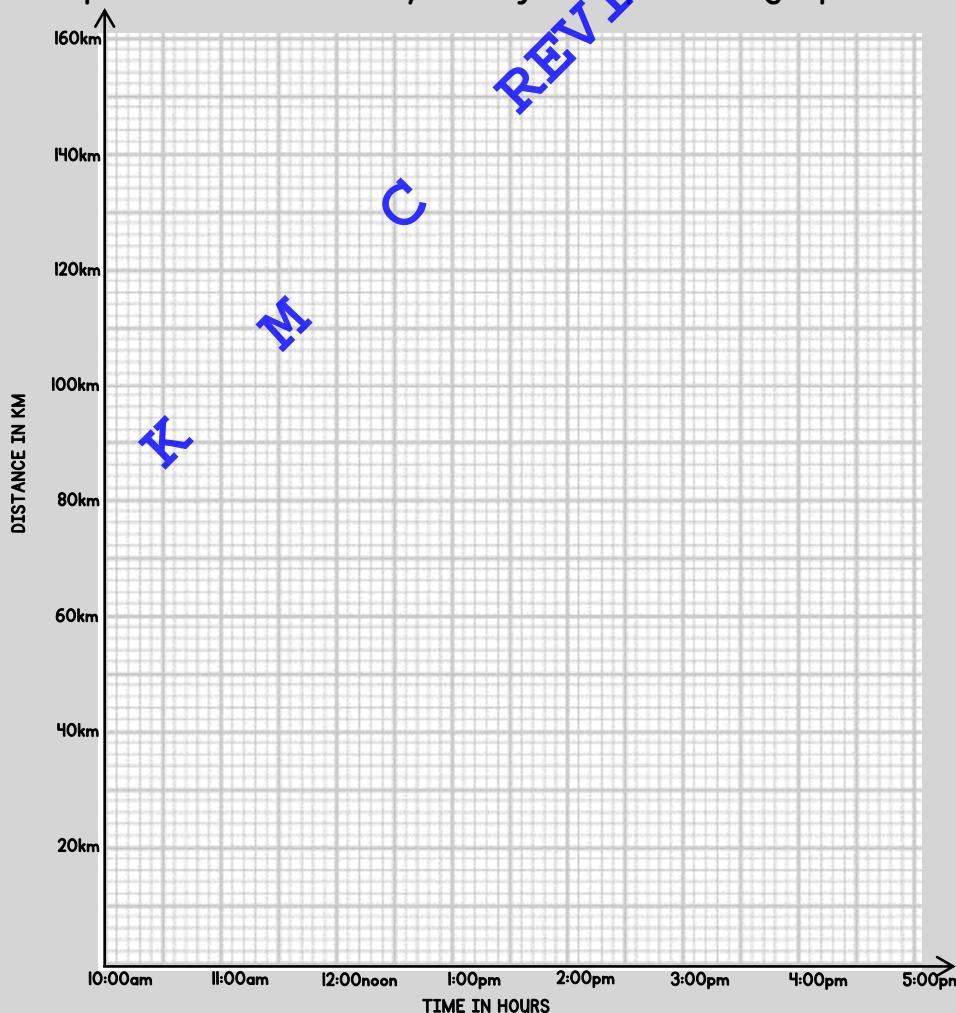

b. Calculate the;

(i). area of the sheet needed to cover the base of the tank.

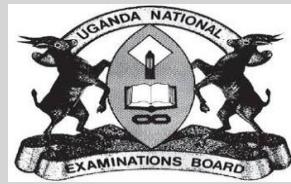

(ii). Capacity of the tank.

- 32 Town M is 150km from town G. A motorcyclist started a journey from town M at 10:30am. He was travelling at a speed of 25km/hr for 2 hours. He rested for 30 minutes and then continued at a speed of 50km/hr for the rest of the journey to town G.

a. Represent the motorcyclist's journey on the graph below.

b. At what time did the motorcyclist reach town G?

REVISE  
C  
M

15. At Jerox Forex Bureau, the exchange rates are as shown in the table below.

Currency	Buying rate	Selling rate
US dollar 1	Ug. shs.3630	Ug. shs.3710

If a tourist comes to Entebbe with US dollars 810, how much money in Uganda shillings will the tourist get from Jerox Forex Bureau?

16. Write 0.0673 in scientific notation.

17. Solve for the value of  $y$ :  $4(y - 3) - (2 - y) = 1$

2024

REVISE

C

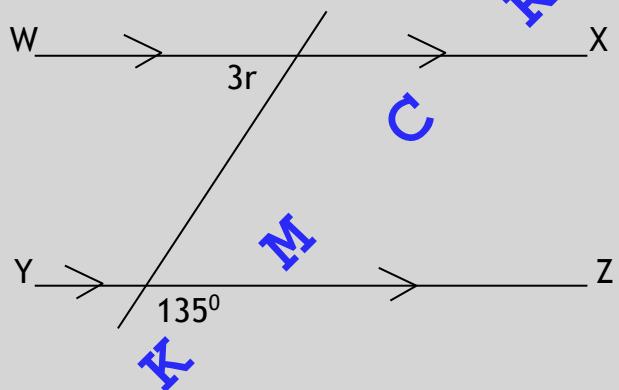

M

18. Using a ruler, a pencil and a pair of compasses only, construct an angle of  $75^{\circ}$  in the space below.

19. It started raining at 10:40pm and stopped at 11:20am. For how many hours did it rain?

2024

20. In the figure below, WX is parallel to YZ. Calculate the value of  $r$  in degrees.

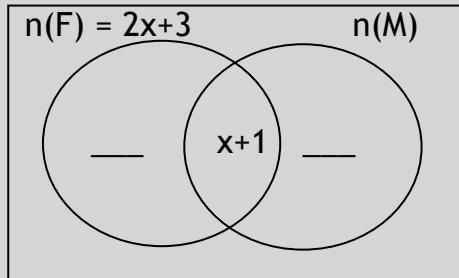

## SECTION B: (60 MARKS)

*Answer all questions in this section*

Marks for each question are indicated in the brackets.

21. In a primary seven class of a certain school,  $2x+3$  candidates like Fanta (F),  $3x-1$  candidates like Mirinda (M) and  $x+1$  candidates like both soda brands.

- (a) Represent the information on the Venn diagram below.

(2 marks)

- (b) Find the total number of candidates in the class if 12 candidates like Mirinda.

(2 marks)

2024  
REVISE

C

- (c) If a candidate is picked randomly, what is the probability that the one picked does not like Mirinda? (1 mark)

K

22. Primary seven class takes 6 days to weed a school garden and primary six class takes 1 week and 5 days to weed the same garden.  
(a) How many days will both classes take to weed the garden altogether?

(2 marks)

2024

- (b) If the school garden has perimeter of 60m. How many square metres ( $m^2$ ) do both classes weed per day?

(2 marks)

REVISE

C

M

K

23. A mother is thrice as old as her son who is  $K$  years old. In 2 years' time, the product of their age will be  $8(K + 38)$ .

(a) Find the mother's actual age now.

(3 marks)

(b) Work out their total age now.

(2 marks)

REVISE  
2024

1. Work out:  $\frac{3}{5} + \frac{1}{5}$

2. Write 546 in Roman numerals.

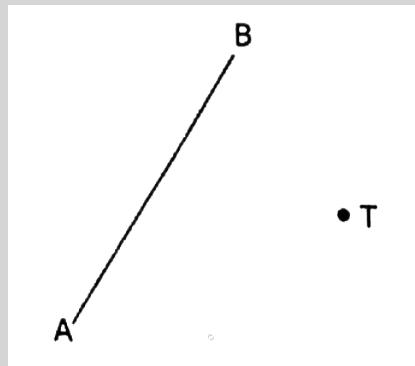

3. Work out: 
$$\begin{array}{r} 1 & 2 & 7 \\ \times & & 3 \\ \hline \end{array}$$

4. Given that  $P \cup Q = \{1, 2, 3, 4, 5, 6, 7, 8\}$ ,  $P \cap Q = \{1, 4, 7\}$  and  $P' = \{5, 6, 8\}$ , list the elements of set P.

5. Find the next number in the sequence.

1, 3, 7, 13, 21, .....

6. Using a ruler and a pair of compasses only, construct a line through point T parallel to line AB.

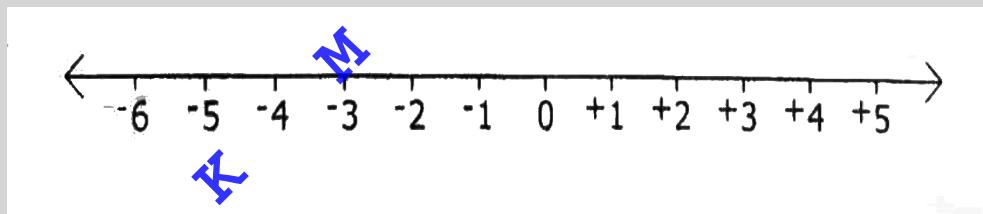

7. Write the number whose standard form is  $7.43 \times 10^2$ .

2024

8. Represent the number operation  $-5 + 12$  on the number line below.

REVISE

9. Solve.  $2a - 6 = 10$ .

10. A packet of biscuits weighs 200 grammes. Calculate the total weight in kilogrammes of 30 packets of biscuits.

11. The drawings below show cards with numbers written on them.

4

5

## SECTION B: 60 MARKS

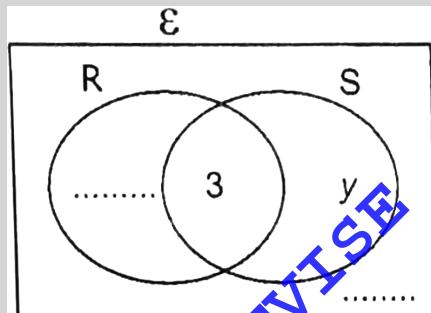

Answer *all* questions in this section.

Marks for each question are indicated in brackets.

21. In a village farmers grow both rice (R) and sunflower (S). 24 farmers grow rice and  $y$  farmers grow sunflowers only.  $2y + 9$  farmers grow none of the two crops.

- (a) Use the given information to complete the Venn diagram below.

(02 marks)

2024

REVISE

- (b) Given that the number of farmers who grow rice only is equal to the number of farmers who grow none of the crops. Find the value of  $y$

(02 marks)

M

K

- (c) How many farmers grow sunflower?

(01 mark)

22. A trader bought 500 mangoes at sh. 250 each. The trader then sold 100 of

the mangoes at sh. 350 each and then the rest at sh. 300 each. Calculate the profit the trader made.

(05 marks)

2024

23. Workout: 
$$\frac{0.75 + 0.25}{0.65 - 0.4}$$
 (04 marks).

REVISE

C

24. A motorist left his home at 7.40 a.m. and travelled to town for 3 hours at an average speed of 64 km/h. He stayed in town for 30 minutes and then travelled back home.

- (a) Calculate the distance from the motorist's home to town.

(02 marks)

(b) At what time did the motorist leave the town? *(01 mark)*

(c) Calculate the speed at which the motorist travelled back if he reached home at 3:10 p.m. *(03 marks)*

2024

25. The sum of three consecutive counting numbers is 78. Find the largest number. *(04 marks)*

26. (a) Using a ruler and a pair of compasses only, construct triangle ABC in

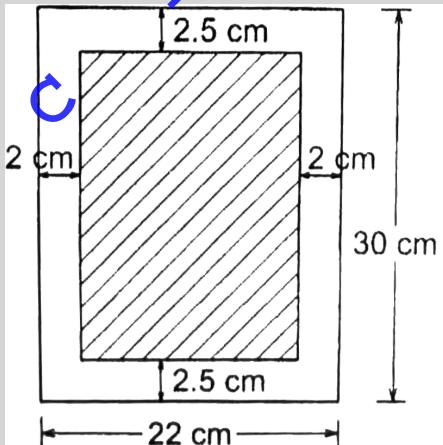

which line  $AB = 7\text{cm}$ ,  $AC = 6\text{cm}$ , and angle  $CAB = 45^0$ .

(04 marks)

(b) Measure angle  $ACB$ .

(01 mark).

27. The figure below represents a photograph enclosed in a photo frame. The length of the photo frame is 30cm and width is 22cm. The area covered by the photograph is shaded. Study the figure and use it to answer the questions that follow.

(a) Find the length of the photograph.

(02 marks).

(b) Calculate the area of the frame **not** covered by the photograph.  
*(04 marks)*

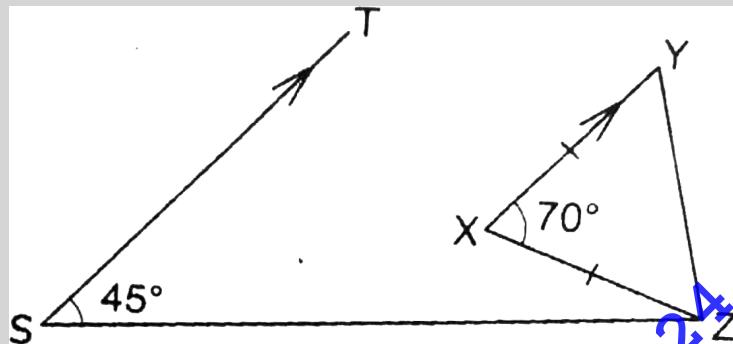

28. A Mathematical set costs sh. 2,000 more than an exercise book. The cost of two exercise books is the same as  $\frac{2}{5}$  of the cost of a mathematical set. Find the cost of an exercise book.

*(04 marks)*
