TOTAL		

SECTION A: (40 marks)

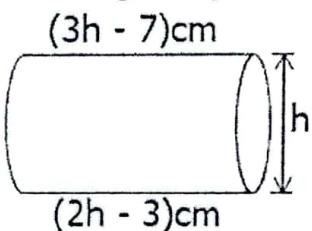

1. Workout: $40 \div 4$
 2. Given that $Q = \{2, x, 7, d, 3\}$ and $P = \{5, a, 4, x, 6, c, d\}$. Find $n(P \cap Q)$
 3. Write in figures; '**Two thousand twenty-four**'
 4. Find the missing two numbers in the sequence below:
4, 6, 8, , 10,
 5. Workout: $6 - 4$
 6. A school has a total of 600 pupils. If there are 360 boys, find the ratio of girls to boys

7. The time shown on the clock face in a classroom is 10:15a.m. What time will it be after 2hours 30minutes?

8. Solve for p: $p + \frac{1}{5}p = 6$

9. A trader sold a bag of coffee at sh. 600,000 making a loss of sh. 120,000. What was the price of the bag of coffee?

10. The diagram given below is a cylinder. Find the value of h in cm

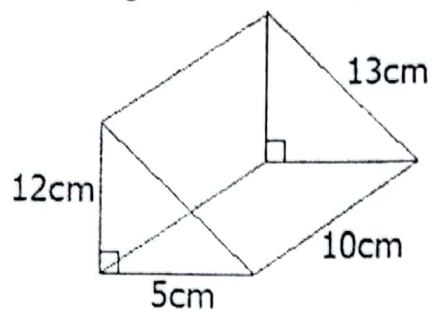

11. The bearing of town K from town L is 234° . Find the direction of town L from town K.

12. Find the mean of 5 , $7x$, 6 and $x - 3$.

13. Given that 8 books cost sh. 4,000. Find the number of books one can buy with sh. 10,000.

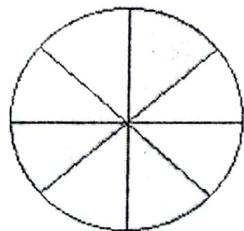

14. A box weighs 36kg when full of curry powder and it weighs 6000g when empty. Find the weight of curry powder in grams

15. The diagram below is a triangular prism. Find its base area.

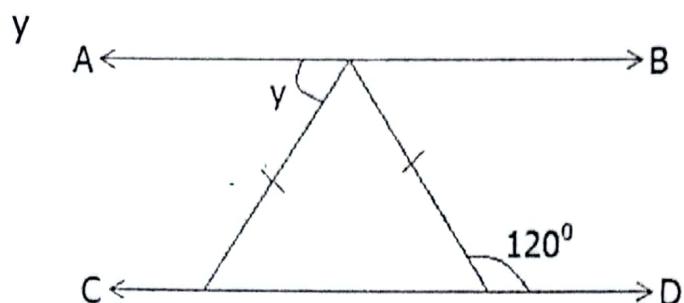

16. Express 45 seconds as a percentage of 3 minutes

17. The diagram below is divided into equal parts. Find the fraction of the diagram not shaded

18. In the diagram below AB is parallel to DC. Find the value of angle marked γ

19. Workout: $111_{\text{three}} + 121_{\text{three}}$

20. Musa had $\frac{2}{3}$ of sugarcane. He gave $\frac{1}{2}$ of it to his friend, what fraction did he remain with?

SECTION B: (60 marks)

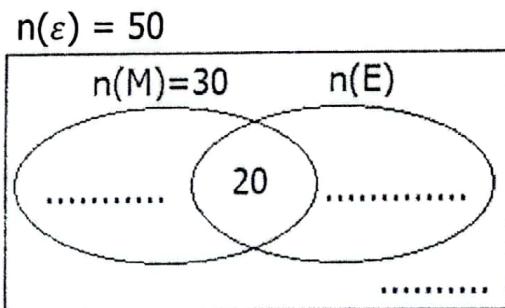

21. Anita sold a dress at sh. 60,000 to Grace. She realized a loss of sh. 20,000.

a) Calculate Anita's percentage loss. (3 marks)

b) If Grace sold the same dress to Nandutu at a profit of 15%. How much did Nandutu pay for the dress? (3 marks)

22. In a class of 50 pupils, 30 pupils like Mathematics (M), 20 pupils like both Mathematics and English(E), 3k like English only whereas k like none of the two subjects.

a) Use the information to complete the Venn diagram below. (3 marks)

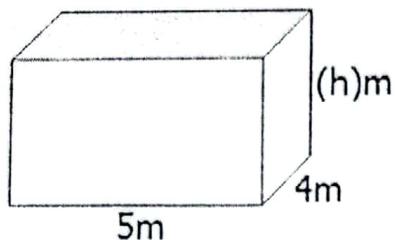

b) Given that the number of pupils who do not like Mathematics at all is 20. Find the value of k. (2 marks)

23.a) Construct a parallelogram NARO in which $NA=8\text{cm}$, angle $NAR = 120^0$ and line $AR=5\text{cm}$. (4 marks)

b) Measure diagonal NR. (1 mark)

24. A wire of total length 60m was used to make the edges of the cuboid below.

a) Find the value of h . (3 marks)

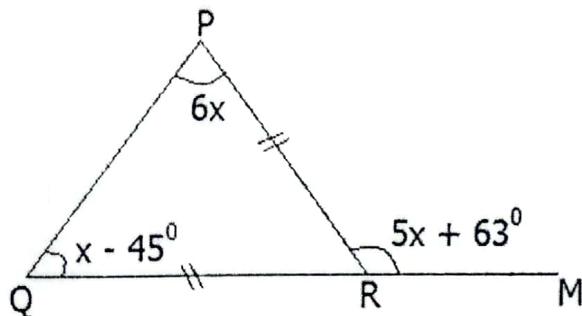

b) Calculate the area of the shaded face. (2 marks)

25. The sum of five consecutive odd numbers is 35. If the middle number is p , find the middle number. (4 marks)

26. Tom takes 6 days top clear a piece of garden. Stephen takes 12 days to clear the same piece of garden.
- a) If both are employed to work together at the same rate, how many days will they take to clear the same piece of garden? (3 marks)

- b) What fraction of the garden will remain if both work for 3 days? (2 marks)

27. Study the figure below and use it to answer the questions about it.

- a) Find the value of x . (2 marks)

b) Calculate the size of angle PRQ. (3 marks)

28. Mpuuga travelled from Kampala to Masaka at a speed of 60km/hr in 3hours. He then rested at Masaka for an hour and continued to Mbarara 130km away in 4hours.

a) Calculate his average speed for the whole journey. (3 marks)

b) If his car used 5litres of petrol for every 10km, how many litres of petrol did he use from Masaka to Mbarara? (2 marks)

29. Given that 1245 is a number.

a) Write the number in words.

(1 mark)

b) Expand the number using place values.

(2 marks)

c) Express the number in standard form.

(2 marks)

30. a) Given that $p = 2$, $q = 4$ and $r = 3$. Find the value of $pq - r$ (2 marks)

b) Solve for a : $4(3 - a) - (8 - a) = 7$

(3 marks)

31. The table below shows the number of mangoes collected by pupils of Ssenyange Educational Centre from the garden.

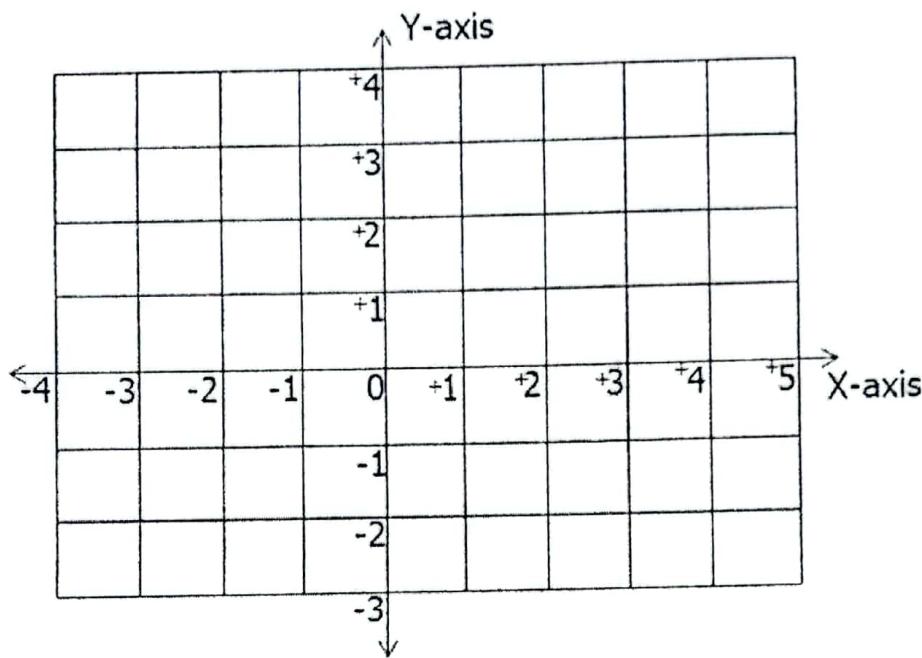

Mangoes per collection	35	50	70	80	90
Number of pupils	2	2	3	1	2

a) How many pupils collected mangoes from the garden? (1 mark)

b) Find the range of the mangoes collected. (1 mark)

c) Calculate the average number of mangoes collected. (3 marks)

32. a) Below is the co-ordinate graph. Use it to plot the points; P(-2, 2), M(2, 2), R(2, -3) and Q(-4, -3) (4 marks)

b) Join P to M, M to R, R to Q and Q to P. (1 mark)

c) Name the figure formed. (1 mark)

(Re-write sentence using:look forward.....)

.....
.....

50. They asked me a lot of questions.

(Re-write the sentence beginning: I.....)

.....
.....

SECTION B: 50 MARKS

(Questions 51 to 55 carry 10 marks each.)

51. Read the passage below and answer in full sentences the questions that follow.

MY FATHER BUYS A NEW TV

Last week, my father told my brother and I to go and graze his cattle. We felt unhappy because the day was rainy. We could not refuse to do what we were told because that would be an indicator of indiscipline. When our father looked at how we felt, he understood our feelings as a parent but had nothing to do since he doesn't have a herdsman.

As an old person who knows what amuses children, he called us and whispered to us that he was going to Kasese town to buy a new TV.

When we heard of buying a new TV, we immediately got sticks and forced the cattle out of kraal. "Safe journey, daddy," we happily said. We kept on the farm until lunch time when we returned home to have lunch. We ate lunch within thirty minutes and quickly ran back to the farm so that the cattle could not stray and destroy other people's crops.

At exactly 7:00pm, we returned home. We were eager to see a new TV in our sitting room because we had spent two months without a TV since our old one became faulty. On reaching home, our father and mother were already watching "Twag" on TV West. We were so happy and thanked our father for that.

- a. Who told the writer and his brother to go and graze cattle?

.....

.....

b. How did the writer feel after being told to go and graze cattle?

.....
.....

c. Why did the writer's father send them to go and graze cattle?

.....
.....

d. What was the writer's father going to buy from Kasese town?

.....
.....

e. How long did the writer and his brother spend taking lunch?

.....
.....

f. Why was the writer and his brother eager to see a new TV?

.....
.....

g. What had happened to the old TV according to the passage?

.....
.....

h. Give a word or group of words with the same meaning as the underlined words in the passage.

- i. unhappy
- ii. buy
.....

j. What is the title of the passage?

.....
.....

52. A) The table below shows a sweeping rota of Primary Seven. Study it carefully and use it to answer, in full sentences, the questions that follow.

NAME	DAY	TIME
PAUL	MON.	7:00 a.m.
RACHEAL	WED.	1:40 a.m.
MARTHA	THUR.	3:00 p.m.
MUCO	MON.	1:45 p.m.
MACKARINA	TUE.	7:00 p.m.
PAUL	FRI.	1:40 p.m.

a) What does the table above show?

.....
.....

b) How many pupils do the sweeping?

.....
.....

c) According to the table, who sweeps the class at sunset?

.....
.....

d) When is the class swept twice a day?

.....
.....

e) Write the full form of "p.m."

.....

B) Read the information below and in full sentences, answer the questions about it.

Mr. & Mrs. Birimpa Alfred of Sheema cordially invite the company of
Mr. & Mrs. Burahi Wills of Bucuro Kashari to the baptism ceremony of
their first only newly born baby, Tusiime Phionah.

The baptism will be held at **St. Paul's Masheruka Church on Sunday,**
14th July, 2018 at 10:00 a.m., and thereafter, to a reception at
Sheema Town Hall, Kabwohe at 2:00pm.

RSVP (Regrets only)

Mr. Bariyo Martin
P.O. Box 44
Kabwohe
Tel. 0752-014499

Mrs. Byendegye Alice
P.O. Box 107
Mbarara
Tel. 0772901482

Questions

a) What is the formation above called?

.....
.....

b) Who was being invited?

.....
.....

c) Without a phone, what can one do to communicate to Alice?

.....
.....

d) On which day of the week did the baptism take place?

.....
.....

e) How many children have Mr. & Mrs. Birimpa?

.....
.....

53. Read the poem below carefully and answer in full sentences the questions that follow.

I need to visit the library very soon
To narrate to Molly, the librarian
About my wish to borrow that big book
That always lies on the table
I have heard its functions.

Who wrote it?
A teacher didn't
A doctor didn't
But the great thinkers did
By arranging words alphabetically.

Whoever finds any difficulty runs to it
For correct spellings and meanings
Of the given language vocabulary
I have to stay with it for the next fortnight
And I will never be the same.

No more language worries
Regarding pronunciations and plurals
Opposites and homophones
School children and teachers
Please, get a copy of it.
Redio Goze

a) When does the writer need to visit the library?

.....
.....

b) According to the poem, who is the librarian?

.....
.....

c) Which big book is the writer talking about in the poem?

.....
.....

d) Who wrote the book according to the poem?

.....
.....

e) What does one run for in the book?

.....
.....

f) How long will the writer stay with the book after borrowing it?

.....
.....

g) Who should get a copy of the book?

.....
.....

h) Give a word or group of words to mean the underlined words in the poem.

i) correct

j) fortnight

k) How many stanzas has the poem?

.....
.....

54. Write a composition of 100-150 words about your plans after the Primary Leaving Examinations. Use these points to guide you; thanking your head teacher and teachers, what results you expect, helping your parents / guardians and celebrating your results.

55. The Uganda National Examinations Board has released the results for the Primary Leaving Examinations where you scored aggregate seven. Write a letter to the Headteacher of Ndejje Senior Secondary school asking for a vacancy in senior one.

SECTION A

1. State any one characteristic that enables incisor teeth to bite or cut food.

.....

2. Apart from health issues, and smell, why isn't faeces preferred as a material used to make biogas.

.....

3. State one way how carbon dioxide stops fire from burning.

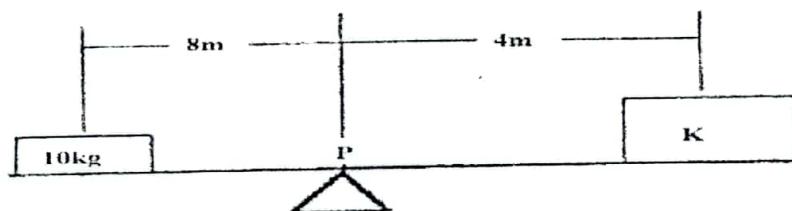

.....
Give any one use of asbestos in the environment.

4. Give any one use of echoes in the environment.

-
.....

5. State any one problem that can affect food production in villages.

The diagram below shows a lever, which is balanced at point P. Study and answer questions 6 and 7.

6. Name the point labeled P.

.....

7. If the lever is balancing well at point P, work out the value of weight K.

.....

8. State any one way how regular washing of hands with soap is helpful in the control of diseases in people.

.....

9. State anyone way in which paddocking cattle controls ticks on the farm.

.....

10. Mention the physical process that changes water vapour into liquid water.

.....

11. Give one way in which the stomach walls are protected from being destroyed by hydrochloric acid.

.....

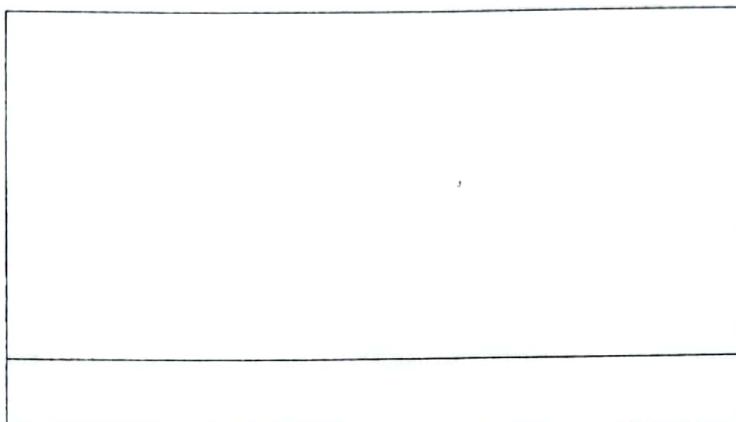

12. State any one way in which the measurement of temperature is different from that of heat energy.

.....

13. Give one reason why a cockroach dies when it walks across a pool of water.

.....

14. In the space provided below, draw and name the garden tool used by farmers for transport on the farm.

15. State the reason why farmers carry out hardening off.

.....
.....

16. Name any one bone that forms the vertebra.

.....

17. State any one harmful effect of contaminated air to our health.

.....
.....

18. Mention any one breed of goats kept for mohair.

.....

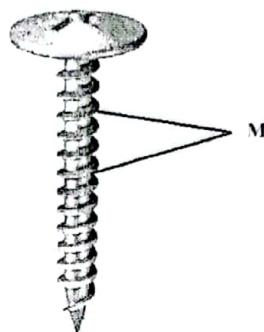

19. Give anyone way in which timely weeding of crops helps to improve the quality of crop yields.

.....

20. Mention any one part of the human body where blood cells are made.

.....

The diagram below shows a simple machine. Study it and answer questions 21 and 23.

21. Name the group of simple machines shown above.

.....

22. State the function of part marked M when the machine is being used.

.....

23. Give any one way earth worms are important to the farmer.

.....

.....

24. State the importance of rinsing clothes during the washing process.

.....

.....

25. Give any one sign of ringworm infection in children.

.....

26. Explain briefly, why magnetism is strongest at the poles of a magnet.

.....

27. State any one-way myriapods protect themselves from their enemies.

.....

28. Mention any one vaccine given to children through the mouth apart from the oral polio vaccine.

.....

29. State any one property of matter.

.....

30. State any one structural similarity between arachnids and insects.

.....

31. Give any one reason why a person suffering from HIV/AIDS is easily attacked by opportunistic infections.

.....

32. Name the type of electricity generated from insulators.

.....

33. State anyone danger of bush burning as a method of clearing land to the environment.

.....
.....

34. Which type of soil has rough and large particles?

.....

35. Mention any one activity that the wild life club can do to promote a green planet.

.....

36. Name the state of matter where heat travels fastest.

.....

37. Give a reason why cuts are covered with plasters during first aid.

.....
.....

38. Mention any one process in the environment that is similar to sweating in humans.

.....

39. State any one advantage of putting oil on bicycle chains.

.....
.....

40. Mention any one method of harvesting trees.

.....

SECTION B

41.a) Apart from blood cells, mention any two materials transported by blood.

i.

ii.

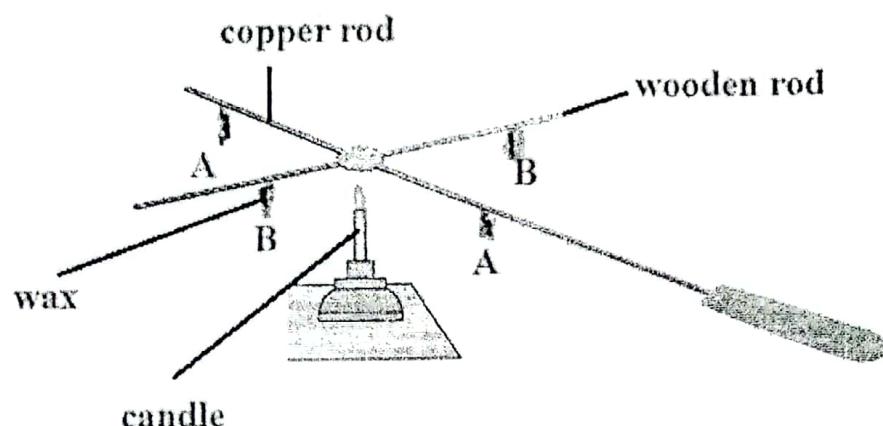

b) Mention the blood cells that transport oxygen in the body.

.....

c) Name any one disease that affects blood cells.

.....

42. The diagram below shows heat transfer in solid state of matter. Study and use it to answer questions that follow.

a) State what happens to pin A and B after sometime of heating.

i. A

ii. B

b) Give a reason to support your observation in (a) above.

i. A

ii. B

43.a) State the difference between child spacing and family planning.

.....
.....
.....

b) Mention any two advantages of child spacing.

i.

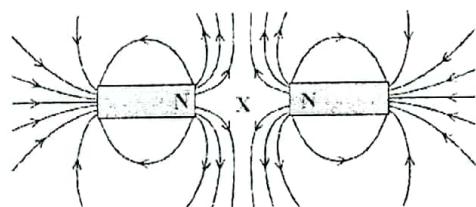

ii.

c) Give anyone reason why some parents have many children.

.....

44. The diagram below shows one of the properties of magnets.

Study it and answer questions that follow.

a) State the property of magnets drawn above.

.....

b) Name the part labeled X.

.....

c) Give any **two** uses of magnets in our daily lives.

i.....

ii.....

45.a) State any one characteristic of objects that sink in water.

.....
.....

b) Give any **two** examples of objects that sink in water.

i.

ii.

c) State the reason why a small space is left in bottles of drinks during packaging.

.....

46.Moses has the following signs, loss of body weight, chronic cough and sweating at night.

a) Mention any **two** diseases he is likely to be suffering from.

i.

ii.

b) State any **two** ways or preventing diseases without using medical drugs.

i.

ii.

47. The table below shows lists of animals A and B. study and use it to answer the questions that follow.

List A	List B
Lung fish	Bat
Toad	Pig
Komodo dragon	Tiger
Pigeon	Dolphins

a) Give any one reason why animals I list A and list B may be grouped together.

.....

b) Name the class of animals from list B.

.....

c) State any one reason why a pigeon is different from the rest of the animals in list A.

.....

d) Mention the type of fertilization that animals in list B undergo.

.....

48.a) Give any two ways in which crop pests destroy crops.

i.

ii.

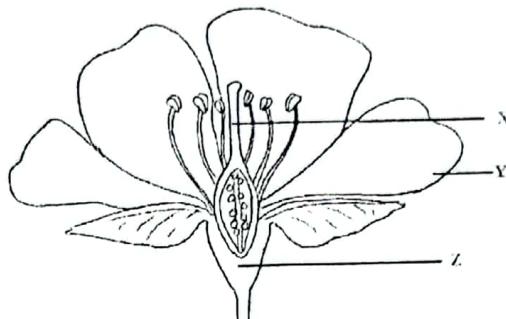

b) Name any one example of a common crop pest in the garden.

.....

c) State any one biological way of controlling crop pests in the garden.

.....

49. The diagram below shows a flower. Study it and answer questions that follow.

a) Name the parts labeled Y and Z

Y Z

b) State what happens to part labeled X after maturity of the flower.

.....

c) Give any one use of flowers to people.

.....

50.a) State any one way in which a child health card is important to a parent.

.....

b) Mention any **two** items found in a child health card.

i.

ii.

c) Give a reason why the government of Uganda carries out immunization free of charge.

.....
.....

51.a) Give any **two** reasons why domestic animals should be given appropriate housing.

i.....
.....

ii.....
.....

b) State any **two** disadvantages of sharing the same house with domestic animals.

i.....
.....

ii.....
.....

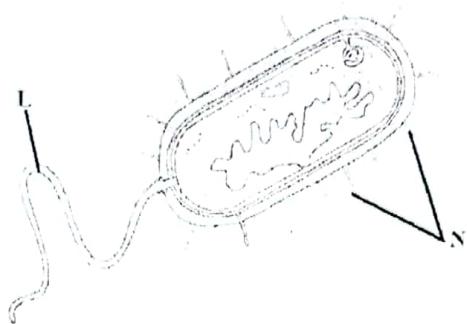

52.a) Identify any one change in girls during adolescence.

.....
b) Give any **two** ways school girls can safeguard themselves from teenage pregnancies.

i.
ii.

c) State any one bacterial disease of the reproductive system.

53. The diagram below shows a bacterium cell. Study and use it to answer questions that follow

a) Name the parts marked L.

.....

b) State the function of part marked N.

.....
.....

c) Give any two ways in which bacteria reproduce.

i.

ii.

54.a) Mention any **one** natural process that takes place with the help of the gases below.

i) Oxygen

.....

ii) Carbon dioxide

.....

b) Give any **two** examples of inert gases in the air.

i.

ii.

55.a) State the way charcoal is made.

.....
.....

b) Give one reason why a charcoal kiln is covered with soil before firing starts.

.....
.....

c) State the energy change that takes place when charcoal is burning.

.....
.....

d) Suggest any one danger of burning charcoal to the environment.

.....
