Read the following instructions carefully:

1. The paper has two sections: A and B.
Section A has 20 questions and Section B has 12 questions
2. Answer all questions. All answers to both sections A and B must be written in the spaces provided.
3. All working must be done using a blue or black ball-point pen or fountain pen. Any work written in pencil other than graphs and diagrams will not be marked
4. No calculators are allowed in the examination room.
5. Unnecessary changes in work may lead to loss of marks. Any handwriting that cannot easily be read may lead to loss of marks.
6. Do not fill anything in boxes indicated: "For Examiners' Use Only" and those inside the paper.

FOR EXAMINERS' USE ONLY		
Qn. No.	MARKS	EXRS' NO
1- 5		
6- 10		
11- 15		
16- 20		
21- 22		
23- 24		
25- 26		
27- 28		
29- 30		
31- 32		
TOTAL		

SECTION A: (40 marks)

1. Workout: $15 \div 3$
 2. Write "**eighty thousand sixty-one**" in figures.
 3. Find the **sum** of the next two numbers in the sequence below
6, 8, 11, 16, 23,,
 4. Given that $R=\{1, 2, 3, 4, 6\}$ and $S =\{0, 5, 7, 9\}$. Draw a Venn diagram showing the two sets above.
 5. Express 0.242424... as a common fraction

6. Solve for y : $3 - 2(y - 1) = 7$

7. Study the coordinate graph and use it to answer the questions that follow.

- i) Write the coordinates of point B
 - ii) Plot the point A(0, -2) on the coordinate graph above.
8. Round off 92634 to the nearest thousands.

9. Rwampara district has 1030 wheelbarrows to give to its 8 sub-counties.
What is the least number of wheelbarrows that must be added if each sub-county is to get an equal number of wheelbarrows?
10. Find the number that has been expanded to give;
 $(3 \times 10^2) + (6 \times 10^1) + (2 \times 10^0)$
11. Simplify ${}^+4 - {}^-3$
12. Find the solution set for: $y < 4$ (y is a whole number)

13. A circular flower garden was fenced using 55 poles fixed at intervals of 0.7 metres. Find the distance around the flower garden in metres.

14. A forty-five minute training ended at 2:20p.m. At what time did the training begin?

15. What name is given to a regular polygon whose interior angle is 144^0 ?

16. Workout: $2.4 \div 3.0$

17. Omara bought 6kg of meat. Calculate the weight of his meat in grams.

18. Find the mean of the following: $2y + 4$, $3y$, 0 and 16

19. Given that $k = r = 4$ and $m = -2$. Evaluate; $\frac{kl-m}{m+5}$

20. Using a ruler, a well sharpened pencil and a pair of compasses only, copy angle KBC onto point G

SECTION B: (60 marks)

21. At a wedding function, $2e + 7$ guests ate Matooke (M) only, 32 guests ate Rice (R) and 13 guests ate both types of food while $3d$ guests ate other types of food.

a) Complete the Venn diagram below.

(3 marks)

b) If 27 guests did not eat Rice, find the value of e.

(2 marks)

c) How many guests attended the function altogether?

(1 mark)

22. a) Workout: $\frac{0.24}{1.2} - \frac{0.09}{0.5}$

(2 marks)

b) Abdul used sh. 12,000 to buy food and this was $\frac{2}{3}$ of his pocket money. How much was his pocket money? (2 marks)

23. Nelissa went shopping and bought the following items

- 3kg of meat at sh. 12,000 per kg
- 500g of sugar at sh. 6,000 each kg
- (p) mangoes at sh. 4,000 for every 2 mangoes.
- 2 kg of maizeflour at sh. 1,200 each kg

If Nelissa spent sh. 65,400 on all items bought, find the value of p.
(5 marks)

24. A taxi charges sh. 12,000 for an adult and sh. 8,000 for a child from Masaka to Kampala.
- a) Mr. Othieno travelled with his wife and his 7 year daughter. How much did they pay altogether? (2 marks)
- b) If another taxi carried 14 adults without a child and they all paid using two thousand shilling notes. How many bank notes did the conductor collect? (2 marks)
25. Given the number; 123.64
- a) Write the place value of 6 in the given number above. (2 marks)
- b) Find the sum of the value of 2 and place value of 4. (3 marks)

26. Using a ruler and a pair of compasses only. Construct a triangle PQR where PQ = 6cm, angle PQR = 120° and QR = 5cm. Drop a perpendicular line from R to meet PQ at point O. (5 marks)

27. Mukwaya drove at 64km/hr for 3hours from town T to town R. If he returned at a steady speed of 96km/hr.

a) How far from town T is town R? (2 marks)

b) Calculate the average speed for the whole journey. (3 marks)

28.a) Solve for k: $3 - \frac{k}{2} = 1$ (2 marks)

- b) In a shop, the cost of a mathematical set is sh. $(3h + 300)$, the cost of a rubber is sh. $(1200 - h)$ and the cost of a book is sh. $(2h - 600)$. If the cost of a mathematical set is three times the cost of a book. Find the value of h. (3 marks)

29. The circle below represents 60 different books in Mr. Nano's home library. Use it to answer the questions that follow.

- a) Given that 20 books are for English. Find the value of y in degrees.
(3 marks)
- b) How many more science books than mathematics books are there?
(2 marks)

30. A piece of land of length 210 metres is divided into square plots and a semi-circular plot as shown in the figure below. (use π as $\frac{22}{7}$)

a) Find the width of the land. (2 marks)

b) Find the area of the whole piece of land. (3 marks)

31. In the diagram below NR and KM are parallel lines. Angle $NLQ = 60^\circ$, angle NPR is twice angle NLQ . Use it to answer the questions that follow.

- a) Find the size of angle w . (3 marks)
- b) Calculate the size of angle QLM (2 marks)

32. A motorist left home at 8:30am moving at a speed of 45km/hr to school for 2hours. After spending 30minutes at school, he moved to the market at a speed of 40km/hr where he reached at a half past midday. He left the market at 1:00pm and went back home at a speed of 100km/hr.

a) Represent the motorist's journey on graph below. (5 marks)

b) At what time did he return home? (1 mark)

.....

Subsection II

In questions 31 to 50, re-write the sentences as instructed in the brackets.

31. Mwijuka will visit her grandparents next holiday. (Rewrite the using **going to**)

.....
.....

32. I shall go to the village next week,.....?

(Re-write the sentence and supply a suitable **question tag**)

.....
.....

33. I may forget to write the addresser's name. (Rewrite using:

.....**likely**.....)

.....
.....

34. I didn't see him in holidays. He didn't give me money. (Join sentences beginning: **If**.....)

.....
.....

35. The letter she wrote was not legible (rewrite the sentences using:

.....**barely**.....)

.....
.....

35. Both a cow and a pig are wild animals. (Begin: **Neither**.....)

.....
.....

37. Martha said, "I will prepare delicious food tomorrow."

(Rewrite the sentence beginning: **Martha said that**.....)

.....
.....

38. If you don' revise your notes, you will fail the examinations. (Re-write the sentence using:**or else**

.....
.....

37. we are eager to sit our final examinations in November (Rewrite the sentence using:**look forward**.....)

.....
.....

38. you must respect the elderly, if not, you will be cursed. (Re-write using:**or else**.....)

.....
.....

39. Okwach failed the examinations. Many candidates passed them
(Join the sentences beginning **Whereas**.....)

.....
.....

40. Cheating is likely to lead to closure of the examination centre.
(Rewrite the sentence using:**could**.....)

.....
.....

41. The teacher can write well using both the left and the right hands.
(Rewrite the sentence using:**either**.....)

.....
.....

42. Somebody stole my dictionary. (Begin: **My dictionary**.....)

.....
.....

43. Aboke came for the examination. She was sick.
(Rewrite as one sentence beginning **In spite**.....)

.....
.....

44. Kiriyamu likes roast chicken. He doesn't like fried chicken (Join as one sentence using:**interested**.....)

.....
.....

45. Richelle is a good radio presenter. Logose is also a good radio prenter (Rewrite the sentence using:**and so**)

.....
.....

46. It was not necessary for you to switch off the TV. (Re-write as one sentence using:**need not**.....)

.....
.....

47. If he doesn't wake up early. He will miss the plane to Dubai.

(Rewrite the sentence beginning: **Unless**)

.....
.....

48. All children should go to school. (Rewrite using:**ought**.....)

.....
.....

49. our well was polluted. We didn't have clean water

(Re-write as one sentence using:**so**)

.....
.....

50. Bush burning causes environmental degradation. Over grazing also cause environmental degradation. (Rewrite using:**as well as**)

.....
.....

SECTION B

(Questions 51 to 55 carry ten marks each)

51. Read the passage below carefully and in full sentences answer the questions about it.

My name is Opinding James. I am a pupil at St. Peter's primary school in Iteme village, Arua District. My father passed on in 2016 after I had done Primary three promotional examination. I stay with my widowed mother and three siblings, a brother and two sisters, all of whom no longer go to school because the mother doesn't have any money to pay fees for their secondary education.

I also do not go to school every Friday because I have to go to Akwerder market to sell chickens and goats that are looked after at home. It is from sales here I get money to my fees and look after the family. Akwerder market is twenty kilometres away from my villages but we manage to reach it on a bicycle.

One day, I sold the animals as I had always done. Instead of going back home as usual, I was convinced by a friend to go to the nearby centre. At the centre, he asked me to go with him to a bar. I accepted and we ordered for drinks. There was really plenty to drink because money was not a problem but how to spend it.

I believe I drank off my head. This was because I was in another place the next day. I only came to realise that I was in the police cell. The police officers on patrol the previous night came to our rescue. From the four hundred thousand shillings I had got from my sales, there was only two hundred eighty thousand shillings left.

My mother took trouble to look for me until she found me in the police station. She talked to the police officers and I was released. This was the very day I stopped drinking because my mother taught me a lesson at home. I advise all the children to obey their parents and avoid bad habits such as drinking alcohol, smoking, going for discos among others.

Questions

- a) Who wrote this passage?

.....
.....

b) Where does he go to school?

.....
.....

c) How many siblings does Opinding have?

.....
.....

d) Why doesn't Opinding's brother and sisters go to school?

.....
.....

e) On which day of the week does the boy go to the market?

.....
.....

f) Where does he sell his chickens and goats?

.....
.....

g) How far is the market from the boy's home?

.....
.....

h) How much did the boys spend in the bar?

.....
.....

i) What do you think made the police officers to arrest these boys?

.....
.....

j) Which advice does the writer give to children?

.....
.....

52. Study the given advertisement that appeared in the **Daily Monitor** newspaper of Wednesday, **12th March, 2023**.

EGGS ON SALE! EGGS ON SALE!

THE MANAGEMENT OF MR. LUWANGA STEPHEN'S POULTRY FARM LOCATED AT KANONI IN MASAKA INFORMS INTERESTED CUSTOMERS TO BUY EGGS AT THE ABOVE FARM SUPPLY SHOP IN MASAKA TOWN ON ELGIN STREET PLOT 12.

EACH TRAY IS 7000/-. EVERY TEN EGG TRAYS BOUGHT, YOU ARE GIVEN ONE TRAY OF EGGS FREE OF PAYMENT.

N.B: FIRST MAKE AN ORDER BEFORE YOU COME TO PICK YOUR EGGS

MANAGEMENT

Questions.

1. What is the advertisement about?

.....
.....

2. Where is the farm located?

.....
.....

3. How much is a tray of eggs?

.....
.....

4. Where did this information appear?

.....
.....

5. If one did not go to Mr. Luwaga's farm, where else would one get the eggs from?

.....
.....

6. What is the advantage of buying more than ten trays from this farm?

.....
.....

7. Why do you think one has to make order before picking the eggs?

.....
.....

8. If you bought one hundred trays, how many trays would you take for free?

.....
.....

9. Write advertisement in short

.....
.....

10. Who wrote the above advertisement?

.....
.....

53. **Sandra** is a candidate in **Akwaput Primary school**. She is not happy with the way her friend behaves in school. It made her to discuss her friend's behavior with **Majuma**. What Sandra said is given below. In each line, **write what you think Majuma said**.

Sandra: I am not pleased with our friend's behaviour.

Majuma:

Sandra: I am not happy because she dodges class work every day.

Majuma:

Sandra: Yes, she dodged Mr. Okenke's homework as well.

Majuma:

Sandra: I also feel that we should talk to her first.

Majuma:

Sandra: Yes: we can talk to her this evening.

Majuma:

Sandra: If she fails to change, we shall report her to the class teacher.

Majuma:

Sandra: Yes, Mr. Ocekede is a very good counsellor.

Majuma:

Sandra: I will report her to the head teacher if she does not take Mr. Ocekede's pieces of advice.

Majuma:

Sandra: I think so; the head teacher will be of great help:

Majuma:

Sandra: No, she does not stay with her parents. She stays at her aunt's place.

Majuma:

Sandra: Okay. We can go and get our food. It is already lunch time

54. Read the poem below carefully and answer the questions about in full sentences

Alcohol! Alcohol!
How bad and merciless you are
Fathers waste money on you
Fathers waste time

Alcohol you make me suffer
No salt, no sugar
And you eat all the money
I wish you could die

I wish I were strong
One blow would kill you
But lucky you are
Because I am small

Dante Neves

Questions:

- a) What is the poem about?

.....
.....

b) Who wastes money on alcohol?

.....
.....

c) How many stanzas does the poem have?

.....
.....

d) Why do you think alcohol is bad?

.....
.....

e) What is the writers wish in the second stanza?

.....
.....

f) Why do you think the writer suffers?

.....
.....

g) Why is alcohol lucky in the third stanza?

.....
.....

h) Do you think the writer is happy with alcohol?

.....
.....

i) Who wrote the above poem?

.....
.....

j) Suggest a suitable title for the poem.

.....
.....

54. Pictures A-F tell a story. Study them carefully and in one sentence, describe what is happening in each picture. You may use any of these words to help you.

woman, wash, cook, cassava, hoe, uproot, basket, eat, carry

A

B

C

D

E

F

1. Picture A :.....

.....

2. Picture B :.....

.....

3. Picture C :.....

.....

4. Picture D :.....

.....

5. Picture E :.....

.....

6. Picture D:.....

.....

7. Why do you think the woman washed the cassava in picture D?

.....
.....

8. What did the woman use to peel the cassava?

.....
.....

9. With whom is the woman dining?

.....
.....

10. Suggest a suitable title for the picture composition

SECTION A

1. State any one similarity between the images formed in the human eye and lens camera.

.....
.....

2. Why do some farmers prefer keeping angora goats to other breeds of goats?

.....
.....

3. How are the organisms found in the root nodules of leguminous plants important in the soil?

.....
.....

4. To which type of bones do we group the carpals?

.....
.....

5. How are pepsin enzymes found in gastric juice important during food digestion?

.....
.....

6. Apart from being used in production of biogas, how is cow dung important to people?

.....
.....

7. How are trees important to people besides providing timber?

.....
.....

8. Identify the force that is involved in the production of static electricity.

.....

The diagram below shows a student reading her books. Use it to answer questions 9 and 10.

9. What bad habit is shown in the above diagram?

.....

10. State one health problem that can result from the above habit.

.....
.....

11. Why does blood from the heart go to the lungs?

.....
.....

12. Mention any one effect of over blowing the nose? .

.....

13. State any one importance of sand soil to people.

.....

.....

14. In the space below, draw a compound trifoliate leaf.

15. What will happen to a liquid like water when poured on a slanting ground?

.....

.....

16. How is soap important in promoting personal hygiene?

.....

.....

17. Identify any one part of air which is commonly used in electric bulbs.

.....

18. Why are school children advised not to read books in dim light?

.....

19. Mr. Muwanguzi is a poultry farmer in Mpigi district. How can he identify birds which are sick on his farm?
-
.....

20. What advice can you give to an adolescent boy who has started the habit of smoking?
-

Why does the government of Uganda provide free mosquito nets to all people in the country?

.....
.....

21. How can a tomato farmer prevent the tomato fruits from rotting in the garden?
-
.....

The diagram below shows a farm structure. Study it and use it to answer questions 22 and 23.

22. Name the farm structure shown above.
-

23. How are the barbed wires important on the farm structure shown above?

.....

24. State any one role of bacteria in a food chain.

.....

25. What is the importance of feeding an "in calf" on highly nutritious feeds?

.....

26. Give one way a person can increase the amount of calcium in his body.

.....

27. Point out any one health concern that is likely to arise in an area with many industries?

.....

The diagram below shows a device commonly used in rural areas. Use it to answer questions 28 and 29.

28. Name the device shown above.

.....

29. How does the device above simplify the work of splitting firewood?

.....
.....

30. Give the function of the reflector in a torch.

.....
.....

31. Mention any one industrial use of feathers.

.....
.....

32. What do you understand by the term fertilization?

.....
.....

33. Why are people discouraged from burning rubbish and other wastes?

.....
.....

34. When a magnet is dipped in iron filings, more iron filings are attracted to the poles of the magnet. Why is this so?

.....
.....

35. Why do health workers like doctors ask for the age of the patient?

.....
.....

36. State any one sign of crops damaged by caterpillars.

.....

37. Name the part of the skeleton that protects the brain.

.....

38. Why is it a bad practice to store cooked food in a room where domestic animals are kept?

.....

.....

39. State any one sign of COVID-19.

.....

.....

SECTION B

41. Match the following organisms with their respiratory organs.

A

- a) Ticks
- b) Fish
- c) Earthworms
- d) Amoeba

B

- Skin
- Lung books
- Gills
- Spiracles
- Cell membrane

a) Ticks

b) Fish

c) Earthworms

d) Amoeba

42.a) Under what body system do the ears belong?

.....

b) How does sound travel from one place to another?

.....

.....

c) State the function of the semicircular canals in the inner ear.

.....

.....

d) Why is it not recommended for one to use sharp objects to clean one's ears?

.....

.....

43. The diagram below is part of the skeletal system. Use it to answer the questions that follow.

a) Name the bone marked A.

.....

b) How important is the part marked **C**?

.....
.....

c) State any one disorder that can happen to bone marked **B**.

.....
.....

d) Mention one any of maintaining the above system in proper working order.

.....
.....

44. The diagram below shows a simple device commonly used in schools.

a) Name the device shown above.

.....

- b) Identify the parts marked **A** and **B**.
- i) **A**
- ii) **B**
- c) Under what principle does the above device work?
.....
.....

45. a) How does the skin help to regulate body temperature?

.....
.....

- b) State any one reason why we should always wear well-fitting
shoes.
- i) **A**
- ii) **B**
- c) Mention any one fungal disease that affects the skin.
.....
- d) State any one way of keeping our skin healthy.

45. a) How does the skin help to regulate body temperature?

.....
.....

46. a) State one economic importance of houseflies in our
communities.
- b) State any one reason why we should always wear well-fitting
shoes.
- i) **A**
- ii) **B**
- iii) **C**
- c) Mention any one fungal disease that affects the skin.

- d) State any one way of keeping our skin healthy.

.....
.....

b) How are houseflies able to balance their bodies during flight?

.....
.....

c) What name is given to the larvae of?

- i) Butterflies
- ii) Mosquitoes

47. During the cooking process, firewood is arranged in such a way that some gaps are left between the pieces of wood.

a) Why is such a practice important during the cooking process?

.....
.....

b) What form of energy is stored in wood?

c) Apart from firewood, mention two other forms fuel obtained from trees.

- i)
- ii)

48. Arthropods are invertebrates with jointed legs and segmented bodies. Mention the group of arthropods where the following belong.

- a) Scorpion
- b) Millipede
- c) Housefly
- d) Earthworms

49. a) What are air pollutants?

.....
.....

b) State any one effect of water pollution.

.....
.....

c) Mention any two ways of preventing water pollution.

- i)
- ii)

50. a) Identify the type of beam shown below.

- i) A
- ii) B

b) How can one see an object placed around corners?

.....
.....

c) State any one effect of refraction of light.

.....
.....
