SECTION A: 40 MARKS

Answer all questions in this section

Questions 1 to 20 carry 2 marks each

1. Work out: $46 + 54$

2. If set $D = \{x, y, z\}$, list all the subsets that can be formed from set D.

3. Find the next number in the sequence.

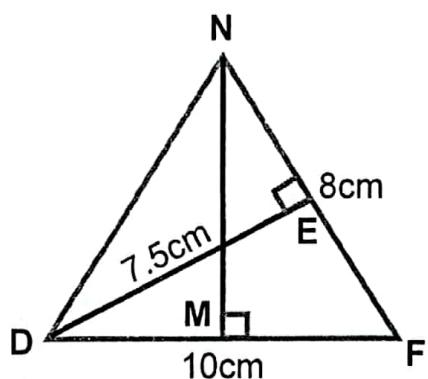

2, 13, 28, 47, 70, _____

4. Subtract: $4y - 5$ from $9y - 3$

5. How many 160ml cups of milk can you obtain from 8 litres

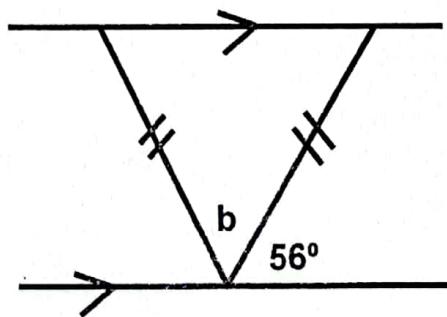

6. Change 0.8333..... to a vulgar fraction.

7. Study the figure and find the length NM

8. If 5 oranges cost sh. 3500, find the cost of $\frac{1}{4}$ dozen oranges.

9. The PIN (Personal Identification Number) for Nina's account is 240_{ten} but saved it in base six. Help her to retrieve it.
10. The conference started on Tuesday and lasted 22 days. On which day did it end?
11. A car travels at an average speed of 110km/hr. for 1 hour 24 minutes. Find the distance covered.
12. In the figure below, find the size of angle b.

13. Damba paid an interest of sh. 32,000 after borrowing a certain amount of money at 4% p.a. interest for 24 months. How much money did he borrow?

14. Name a polygon whose right angles are 8.

15. Find the number represented by the tallies below.

|||| |||| || |

16. A ruler costs sh. $(2000 + y)$. If it costs twice as much as a set write an expression for the cost of a set.

17. Express 96.7 in scientific notation

18. Find the square of 3.6

19. A meeting that lasted 3 hours 25 minutes started at 12:50 p.m. At what time did it end?

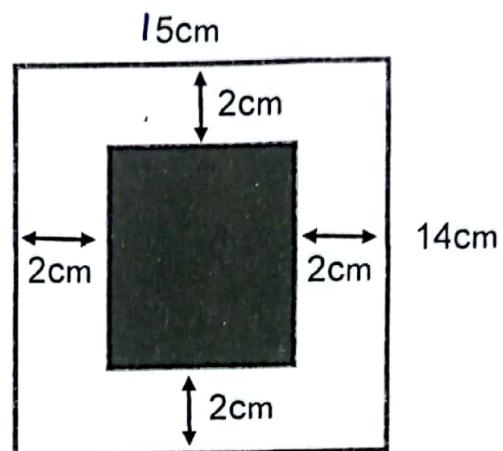

20. The direction of town P from town T is N45°E. What is the direction of T from P?

SECTION B: 60 MARKS

Answer all questions in this section

Marks for each question are indicated in the brackets

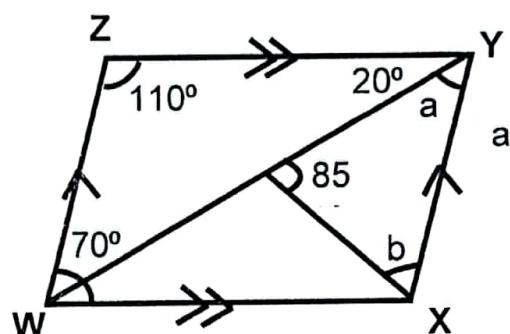

21. a) The figure below shows a photo on a photo frame. Find the area of the frame that is not covered by the photo. **(06 marks)**

22. The sum of four consecutive odd numbers is 88. If the third number is $n - 3$. Find the numbers. **(06 marks)**

23. a) Two supplementary angles care $4p + 5^\circ$ and $p + 15^\circ$. Find the size of each angle. **(02 marks)**

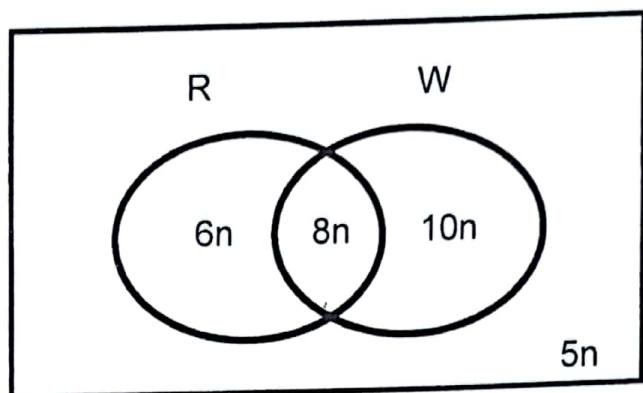

b) Find the size of angle a and b in the figure below.

I) a **(02 marks)**

II) b **(02 marks)**

24. Study the Venn diagram below and answer the questions that follow

a) Find the value of n given that $n(W - R)' = 19$. **(03 marks)**

b) Find the probability that a member of $R \cup W$ is picked at random. **(02 marks)**

25. Musa purchased the following items:

3 kg of fish at sh. 18,000 per kg

500ml of milk at sh. 3,000 per litre.

4 bars of soap at sh. 16000.

$\frac{1}{4}$ dozen sachets of tea at sh. 600 each.

a) Calculate his total expenditure.

(04 marks)

b) If Musa got a discount of 10%, how much did he pay? (02 marks)

26. Kisha divided his money as follows: $\frac{1}{2}$ was given to wife, $\frac{1}{4}$ of the remainder was given to daughter and the rest was given to a friend. If the friend got sh. 300,000, how much money had Kisha? **(04 marks)**

27. a) Solve for x: $4(y + 2) - 3(y + 4) = 0$ **(02 marks)**

b) Solve and write the solution set for $2(1 - 3x) > 14$ **(02 marks)**

28. a) Using a ruler a pencil and a pair of compasses only construct a equilateral triangle XYZ of side 6cm. **(04 marks)**

c) Drop a perpendicular from X to meet YZ at P. Measure XP **(01 mark)**

29. a) Find the product of the value of 8 and the value of 5 in 4896.53
(02 marks)

b) What number has been expanded to give: **(02 marks)**

$$(7 \times 10^2) + (6 \times 10^1) + (3 \times 10^0) + (8 \times 10^{-1})$$

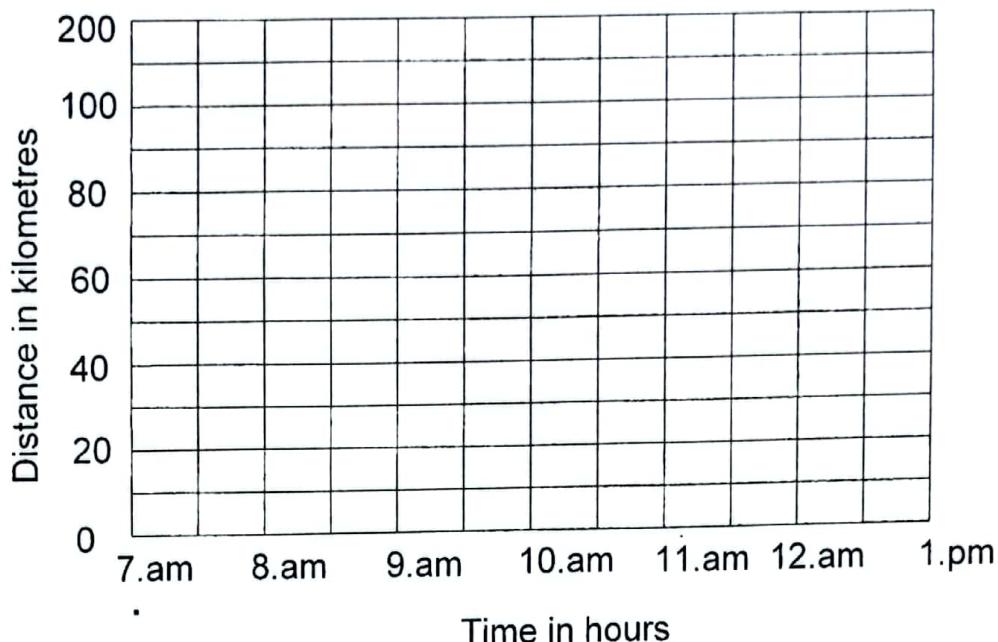

30. A fish factory produces 256 tins of fish in a minute. If the tins are packed in boxes, each containing 24 tins, how many boxes will be packed in 2 hours? **(04 marks)**

31. The average of $3r + 1$, 12 , $4 + r$, $2r + 5$ and is 19 .

a) Find the value of r . **(03 marks)**

b) Find their median. **(02 marks)**

32. A motorist left town A at 7:00 am moving a speed of 40km/hr. for $1\frac{1}{2}$ hr. to town B. He rested for $\frac{1}{2}$ hour at town B and then continued to town C moving at a speed of 30km /hr. covering a distance of 60km

- Show the motorist's journey on the graph below. (01 mark)
- What distance had the motorist travelled by 10a.m? (02 marks)
- Calculated motorist's average speed for the whole journey. (02 marks)

(Rewrite the sentence ending:haven't they?)

.....
.....

48. Mariko is very young. He cannot join school now.

(Join as one sentence using:too.....to.....)

.....
.....

49. That English paper was made up of two sections.

(Rewrite the sentence using:comprised.....)

.....
.....

50. The tailor made a dress. It was big. It was expensive. It was made

of cotton. (Join as one sentence without using which, that or and)

.....
.....

SECTION B: 50MARKS

Questions 51 to 55 carry ten marks each

51. Read the passage below carefully and answer the questions that follow in full sentences.

Victor is a twelve-year boy at St Lawrence Junior School in Kampala. He has an uncle living and working in Mbarara district in western Uganda. During the second term holidays, his father decided to send him to Mbarara to spend his holidays with uncle who lives in Kakoba near the town.

During his conversation with his uncle, he told him that he enjoyed the journey because his father, Vincent was driving very fast from Kampala to Mbarara. he also told his uncle that on their way, they helped a man who was involved in an accident on the main road as he was trying to cross. He was knocked down by a speeding car of the mayor who lost control and hit him at the crossroads. This was at the junction near the roundabout going to Ishaka. He fell on the pavement, lay flat on the ground and terribly started bleeding. His father stopped the car and gave him first aid.

Vincent, his father was scared and called the traffic police. The traffic officers came and measured the place where the accident had happened. They reported that the driver was careless and he did not know the High way code. He failed to follow the road signs. "They requested his father to take the causality to Mbarara Referral Hospital. From the hospital, his father drove carefully and said that "No man is an island." So we should help one another.

Questions

a) How old is Victor?

.....
.....

b) Where does Victor's uncle live?

.....
.....

c) To which school does Victor go?

.....
.....

d) In which hospital did Victor's father take the casualty?

.....
.....

e) Whose car was involved in the accident?

.....
.....

f) On which place did the accident take place?

.....
.....

g) According to the passage, what was the cause of the accident?

.....
.....

h) Mention one cause of road accidents.

.....
.....

i) Give a word or group of words to mean the same as the following as used in the passage.

i. happened.....

ii. terribly.....

52. Read the poem below and answer the questions that follow in full sentences.

Defilement!

What a dangerous vice you are!
In homes, schools, churches, mosques, courts
Every where people talk about you

Sugar daddies and mummies
Trick innocent girls and boys
With sweets, money and other gifts
Oh! What a serious crime this is!

Sugar daddies and mummies
Why do you infect innocent children
With HIV/AIDS
Why don't you have mercy?

Young boys and girls
Guard your lives against these ruthless men and women
Say no to sweets, money and gifts and lifts
Say no to bad touches,
Avoid risks to stay safe.

OKOL EVANS

Questions

- a) What is the poem about?

.....
.....

- b) Where is defilement talked about?

.....
.....

- c) Who tricks innocent girls and boys?

.....
.....

d) What gifts are used to trick innocent boys and girls?

.....
.....

e) What do sugar mummies infect innocent boys with?

.....
.....

f) Which kind of advice does the speaker give young boys and girls?

.....
.....

g) How many verses are in this poem?

.....
.....

h) Give a word to mean the same as the following words as used in the poem.

i. vice

.....
.....

ii. ruthless

.....
.....

SECTION A: 40 MARKS

Questions one to 40 carry one mark each

1. State any one sign of crops damaged by caterpillars.

.....

2. Mention the type of chicken reared for meat production on the farm.

.....

3. Give any one reason as to why it is important for a country to know the health status of its citizens.

.....

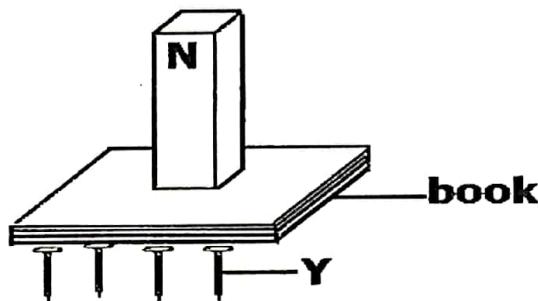

4. State the reason as to why it is difficult to hear sound across a vacuumed material.

.....

5. Give any one effect of scurvy to the oral health of a person.

.....

The diagram below shows a property of magnets. Use it to answer the questions 6 and 7

6. Identify the property of magnets drawn above.

.....

7. State any one danger of magnets to human health.

.....
.....

8. Cite any one reason why crop farmers may choose to grow annual crops instead of perennial crops.

.....
.....

9. Give any one way spiders can use their cobwebs when trapping their prey.

.....
.....

10. Give any one reason why salivary amylase cannot continue to digest cooked starch even in the stomach.

.....
.....

11. State the reason why it is necessary to feed a malaria patient with a lot of green leafy vegetables.

.....
.....

12. Mention any one method used by climbing plants.

.....
.....

13. State any one danger of rusting of metals.

.....
.....

14. Give any one pest of cattle.

.....

15. State the reason why the hole of a VIP latrine should not be covered.

.....

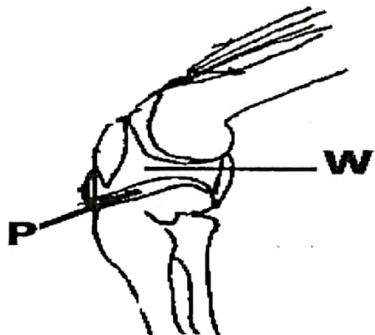

.....

16. Name the immunisable disease that puts people at risk of dying from cirrhosis.

.....

.....

The diagram below shows one of the joints in the human body. Use it to answer the questions 17 and 18.

17. Identify the movable joint drawn above.

.....

18. State the function of part P in the movable joint above.

.....

.....

19. Give any one reason why football players wear shin guards when playing football matches.

.....

.....

20. Give any one way the body of a housefly is adapted to the spread of cholera germs.

.....
.....

21. Give any one way the use of solar energy supports the environment in Uganda.

.....
.....

22. Name the type of clouds that shows sunny weather.

.....

23. Give any one reason as to why it is important to fence a community well.

.....
.....

24. Mention any one way prolonged breast feeding helps to delay the next pregnancy.

.....
.....

25. State the name given to crops that are harvested year after year.

.....

26. Give any one danger of excessive grinding and clenching of teeth.

.....
.....

27. State the principle of Primary Health Care that guides community members to take responsibility for their own health.

.....
.....

.....
.....

39. Briefly describe the law of levers.

.....
.....

40. State any one difference between short sight and long sight as used in light.

.....
.....

SECTION B: 60 MARKS

Questions 41 to 55 carry four marks each

41. a) State the way sound is produced in the human voice.

.....
.....

b) How can pitch in the human voice be increased?

.....
.....

c) Give any one way thick curtains reduce sound.

.....
.....

d) Name any one device used to store sound.

.....

42. a) Mention any two substances removed from blood by the cortex.

- i.
ii.

b) Cite any one substance that is selectively reabsorbed into the blood stream in the medulla.

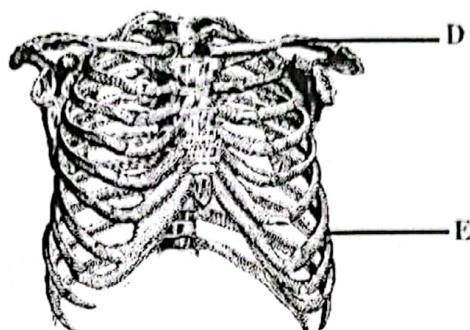

.....

c) State any one possible cause of kidney stones.

.....

43. The diagram below shows the axial skeleton of the human body.

Use it to answer the questions that follow

a) Name the bone marked with letter D.

b) Mention any two mineral salts that help in the formation of bones.

i)

ii)

c) Write any one disorder that can affect the bone marked E.

44. a) Apart from bad smell and food contamination, give any two other reasons why domestic animals should not share houses with people.

i)

ii)

b) Give two ways the use of bio gas promotes good sanitation in communities.

i)

ii)

45. a) State the difference between adolescence and puberty.

.....

b) Name two physical body changes that take place in adolescent boys.

i)

ii)

c) State any one way a P.7 child can prevent bad body smell during adolescence.

.....

46. a) Name the germ that causes mastitis in cattle.

.....

b) Give two signs of mastitis in cattle.

i)

ii)

c) State one way of controlling mastitis in cattle management.

.....

47. a) State the name given to the factory made materials that can be used again when remade.

.....

b) Mention any one example of recyclable materials apart from polythene bags.

.....

c) Mention two reasons why we recycle polythene bags.

i)

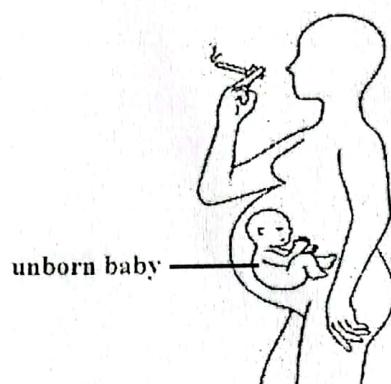

ii)

48. Match organisms in A with diseases they cause in B.

A	B
Protozoa	Coffee berry
Virus	Tuberculosis
Bacteria	Swine fever
Fungi	Malaria

- i) Protozoa
- ii) Virus
- iii) Bacteria
- iv) Fungi

49. The diagram below shows a pregnant woman practicing a bad habit. Use it to answer the questions that follow.

a) What bad habit is drawn in the above diagram?

.....
.....

b) Mention any two effects of such a habit to the unborn baby.

- i)
- ii)

c) State any one way the pregnant woman can protect herself from indulging in such habits.

.....
.....

50. a) What is budgeting?

.....
.....

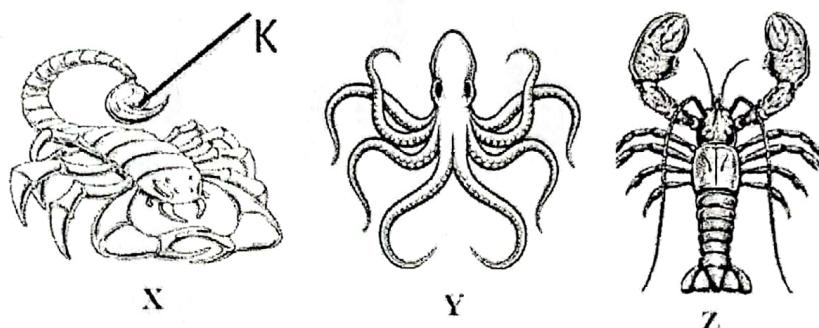

(b) Give **two** advantages of budgeting to a family.

- i)
- ii)

(c) What advice can you give to a family with many members but with low income?

.....

51. The diagram below illustrates some organisms. Study it carefully and answer the questions that follow.

a) Identify the organism marked Y.

.....

b) Give the function part K to organism X.

.....
.....

c) Mention any one other organism that can be grouped together with organism marked Z.

.....

d) State any one similarity between the organisms drawn above.

.....
.....

52.a) Briefly explain the term First Aid.

.....
.....

b) State the use of each of the following items in giving First Aid.

- i. Wheel chair
- ii. Crutches

c) State any one danger of accidents to the community.

.....
.....

53.a) Give any two ways plants benefit from seed dispersal.

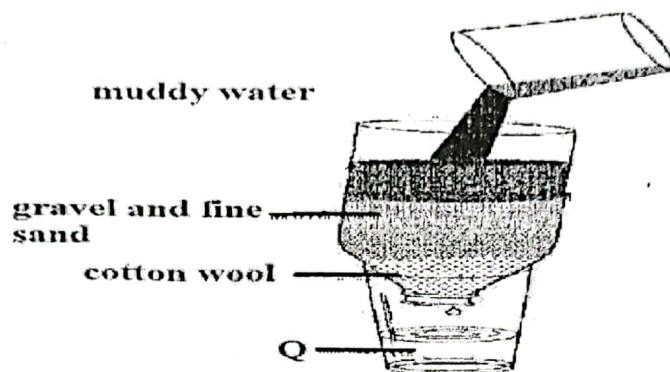

- i)
- ii)

b) Write down any one adaptation of black jack to their mode of dispersal.

.....

- c) State the type of weather that favours explosive mechanism of a bean pod.
-

54. The diagram below shows a method of separating mixtures.
Use it to answer the questions that follow.

- a) Identify the method of obtaining clean water drawn above.
-
- b) Mention any two applications of this method of separating mixtures.
- i)
- ii)
- c) Why is clean water obtained at point marked Q not safe for drinking?
-

55.a) You are provided with water, a glass cup and a cardboard paper.
Arrange them in a diagram to show that air exerts pressure. (Indicate
air pressure on your diagram).

b) Mention any **two** activities done with the above property of air.

- i)
- ii)
