Section A (40 Marks)

1

Workout: $496 + 23$

WARNING: Not to be reproduced electronically.

2

Write 110372 in words.

3

Given that
set M = {6, 5, 7, 8, 9, 10, 11} and
set N = {1, 2, 3, 4, 5, 6, 7}
find n(MUN)

4

Work out: $1\frac{2}{7} \times \frac{4}{5}$

5

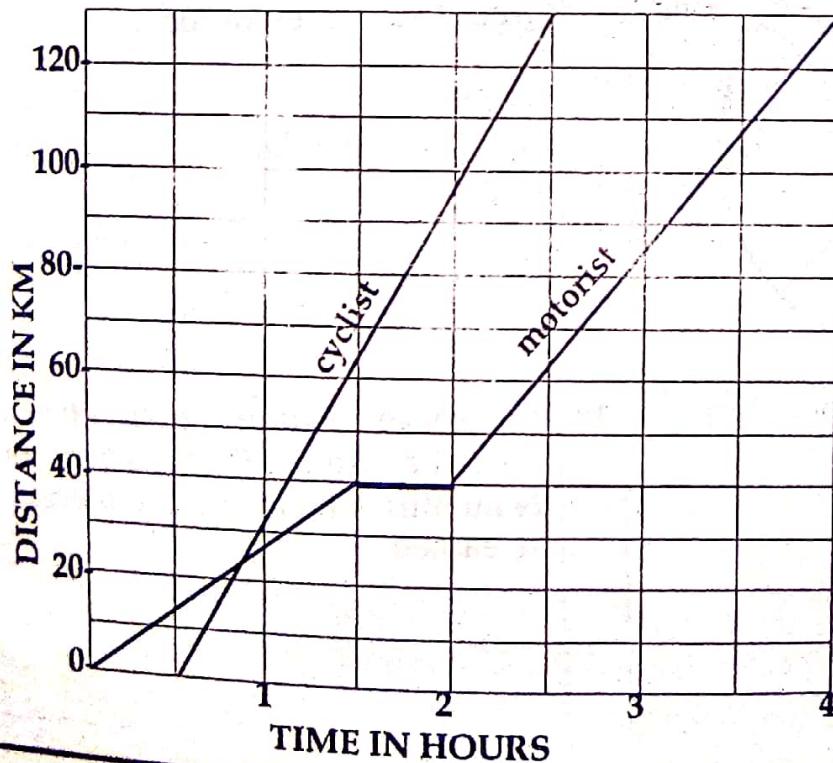

Simplify: $3x - 4y + 5x - 7y$

6

Find the next number in the sequence below.
576, 36, 4, 1, _____

7

Using a ruler, a pencil and a pair of compasses, construct an angle of 105° .

8	The cost of 3 books is sh 7,500. Find the cost of 7 similar books.	9	Convert 0.907kg to grammes.
10	Subtract 414_{five} - 343_{five}	11	Given that $a = 3$, $b = 3$ and $c = 2$. Find the value of $ab - c$
12	Today is Monday, what day of the week was it 35 days ago?	13	Express 679.3 in standard form.
14	The graph below shows the journeys made a motorist and cyclist.		
 <p>DISTANCE IN KM</p> <p>TIME IN HOURS</p>

 Visit www.primelearn.com for Online Video lessons. Exercises and Trial tests with Marking guides.

How many more hours did the motorist take on his journey than the cyclist?

15
WARNING: Never drive after drinking

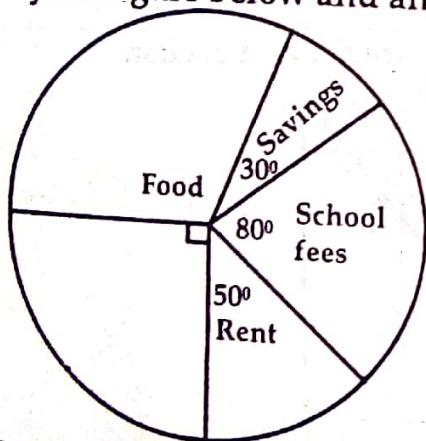

The bearing from Apac to Mbale is 130° . Find the bearing of Apac from Mbale.

16

The speed of a bus is 84km/hr. What distance will the bus have covered in $3\frac{1}{2}$ hr?

17

Study the figure below and answer the questions that follow.

Find the degrees that represent food.

18

Convert 14 30 hr to 12 hour clock system.

19

Kamwenge deposited sh 800,000 in a bank at a rate of 15% per annum for 24 months. Find the simple interest he earned.

20 Work out: $2^2 \times 2^{8x} = 2^{-3}$

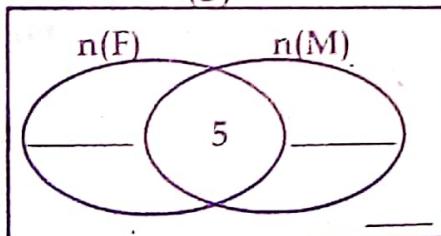

WARNING: Not to be reproduced electronically

- 21 Given the numeral 40725.
- (a) What is the place value of 0 in the numeral above? (01 marks)

- (b) Find the difference between the value of 4 and the value of 7. (03 marks)

- 22 At a party attended by 28 guests, 16 drank Fanta (F), 15 drank Mirinda (M), 5 drank both Fanta and Mirinda. If $(p - 1)$ drank none of the drinks.
- (a) Show the above information on a Venn diagram below. (03 marks)

$$n(\mathcal{E}) =$$

- (b) How many guests drank none of the drinks? (03 marks)

WARNING: Not to be reproduced electronically

23

Sseremba went shopping and bought the following items.

3kg of meat at sh 12,000 per kg

$2\frac{1}{2}$ kg of rice at sh 4,000 per kg

500gm of beans at sh 3,000 per kg

4 litres of cooking oil at sh 14,000

(a) Find Sseremba's total expenditure.

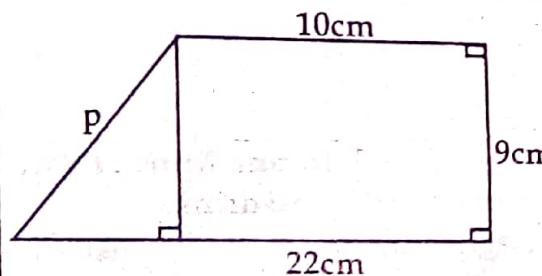

(04 marks)

(b) If Sseremba had 4 notes of sh 20,000 each. Find his change.

(01 mark)

24

Study the figure below and answer the questions that follow.

(a) Find the side marked p. (02 marks)

(b) Work out the distance around the figure. (01 mark)

(c) Find the area of the figure. (02 marks)

- 25 (a) Work out: $\frac{0.096 \times 0.12}{0.08 \times 0.6}$ (03 marks)
- (b) Simplify: $\frac{8}{9} \div \frac{1}{2} \times \frac{2}{3}$ (03 marks)
- 26 Using a ruler, a pencil and a pair of compasses, construct a parallelogram EFGH in which EF = 7cm, FG = 5.0cm and angle EFG = 120°. Drop a perpendicular from H to meet EF at O. (05 marks)
- 27 The time table shows the journey made by a train from Kampala to Tororo.
- | Place | Arrival time | Departure time |
|---------|--------------|----------------|
| Kampala | | 06 00hrs |
| Jinja | 10 00hrs | 10 30hrs |
| Iganga | 12 30hrs | 13 45hrs |
| Bugiri | 14 45hrs | 15 00hrs |
| Tororo | 16 00hrs | |

- WARNING: Not to be reproduced or communicated.**
- (a) Convert the arrival time of the train in Iganga in 12 hour clock system. (01 mark)
- (b) Find the total time taken by the train to travel from Kampala to Tororo. (02 marks)
- (c) Find the total time taken by the train on all stop overs. (02 marks)

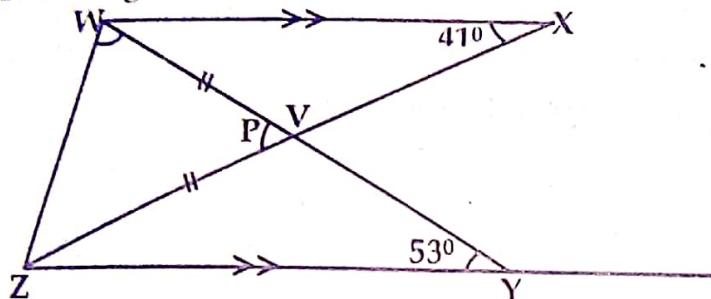

- 28 Study the exchange rates below and answer the questions that follow.
1 USA dollar is equivalent to Ugsh 3600
1 Kenya sh is equivalent to Ugsh 3200
- (a) How much money in Kenya shillings will a tourist get from the exchange of Ug sh 1,440,000? (02 marks)
- (b) Erikson had 2800 U.S.A dollars and exchanged them to Kenya shillings. How much in Kenya shilling did he get? (03 marks)
- WARNING: Not to be reproduced or communicated.**

- 29 Three metal rods of length 108cm, 208cm and 560cm are cut into pieces of the same length.
(a) Find the greatest length which can be cut out of the rods without leaving a remainder. (02 marks)
- (b) How many pieces can be cut from the rod with the greatest length? (02 marks)
- 30 The average of $y + 7$, $y + 9$, 17, 19, $25 - y$ and $11 + y$ is 16. Find the value of y . (03 marks)
- (b) Find the median of the above data. (02 marks)
- 31 Matope has r cows. Nkaiserry has 20 more cows than Matope. Sendeyo has 15 cows less than the total number that Matope and Nkaiserry have. If they all have 85 cows altogether.
(a) Find the value of r . (03 marks)

(b) How many cows does Sendeyo have?

(02 marks)

In the figure below, line WX is parallel to line YZ and $WV = VZ$. Angle $WXZ = 41^\circ$ and angle $WYZ = 53^\circ$.

(a) Find the value of P .

(03 marks)

(a) Find the size of angle ZWX .

(02 marks)

Review your answers

Always make sure you read through your answers before submitting the test/exam paper. It will help you find any mistakes or questions you may have misread or misinterpreted.

50. It was not necessary for Dauda to cut down all those trees.
(Rewrite the sentence using:*needn't have*.....)

WARNING: Not to be reproduced or transmitted.

Section B (50 Marks)

51. Read the passage below carefully and then answer, in full sentences, the questions that follow.

Newspapers contain information of interest to the public. The public is all the people who live in an area. Newspapers publish new information every day. For this reason, they focus on events that have just happened.

Generally, all newspapers arrange information in the same way. Most newspapers have a front page, an editorial page, a feature page, and a games and sports page.

The front page is the first page of a newspaper. It has articles that inform readers about important events in the news. The information answers the questions who, what, when, where, why and how. The name of the newspaper and the date are printed at the top of the front page. The headline tells the most important news item of the day. It is printed in large bold letters. Some articles about the news item appear below the headline.

The feature pages have articles on many different topics, such as education, health, security, the economy, and morals. For example, most of the newspapers these days are full of stories of corruption and land evictions.

The editorial page tells the opinions of the newspaper writers. Two kinds of opinion appear on these pages. Professional authors write persuasive commentaries. Readers too, write letters to the editor.

All newspapers publish advertisements, notices and announcements. This is how they manage to get revenue to pay their employees, such as reporters, journalists and editors.

Questions.

(a) What do newspapers contain?

(b) How often are newspapers published?

WARNING: Not to be reproduced or transmitted.

Questions.

(a) Where did the music, dance and drama festival take place?

(b) When was the music, dance and drama festival held?

(c) At what time did the invited guests start arriving?

(d) How long did the speeches take?

(e) What happened after the first speeches?

(f) Who was the guest of Honour?

(g) What happened after the Guest of Honour's speech?

(h) How many different speeches were given at the festival?

(i) Who wrote the programme?

(j) Why do you think music, dance and drama activities important in schools?

Read the poem carefully and then answer, in full sentences, the questions that follow.

My son, Enkaya!

Come and sit beside me
On this bench soft and warm
And pay close attention
To my words of wisdom!

There's a ghost called Meant - To - Study
And his comrade is Didn't - Study;
If you ever chance to meet them
Speed away from them
Before they befriend you!

The ghost Meant - To - Study

Made a study timetable
To revise daily his classwork
But Didn't - Study always disturbs him
And they play games instead!

These two fellows live together
In the house of Failure;
The door to this house is ever open
To the lazy and careless ones
Who end up in the arms of Mr. Regret!
(By Keto Francis)

50

54.

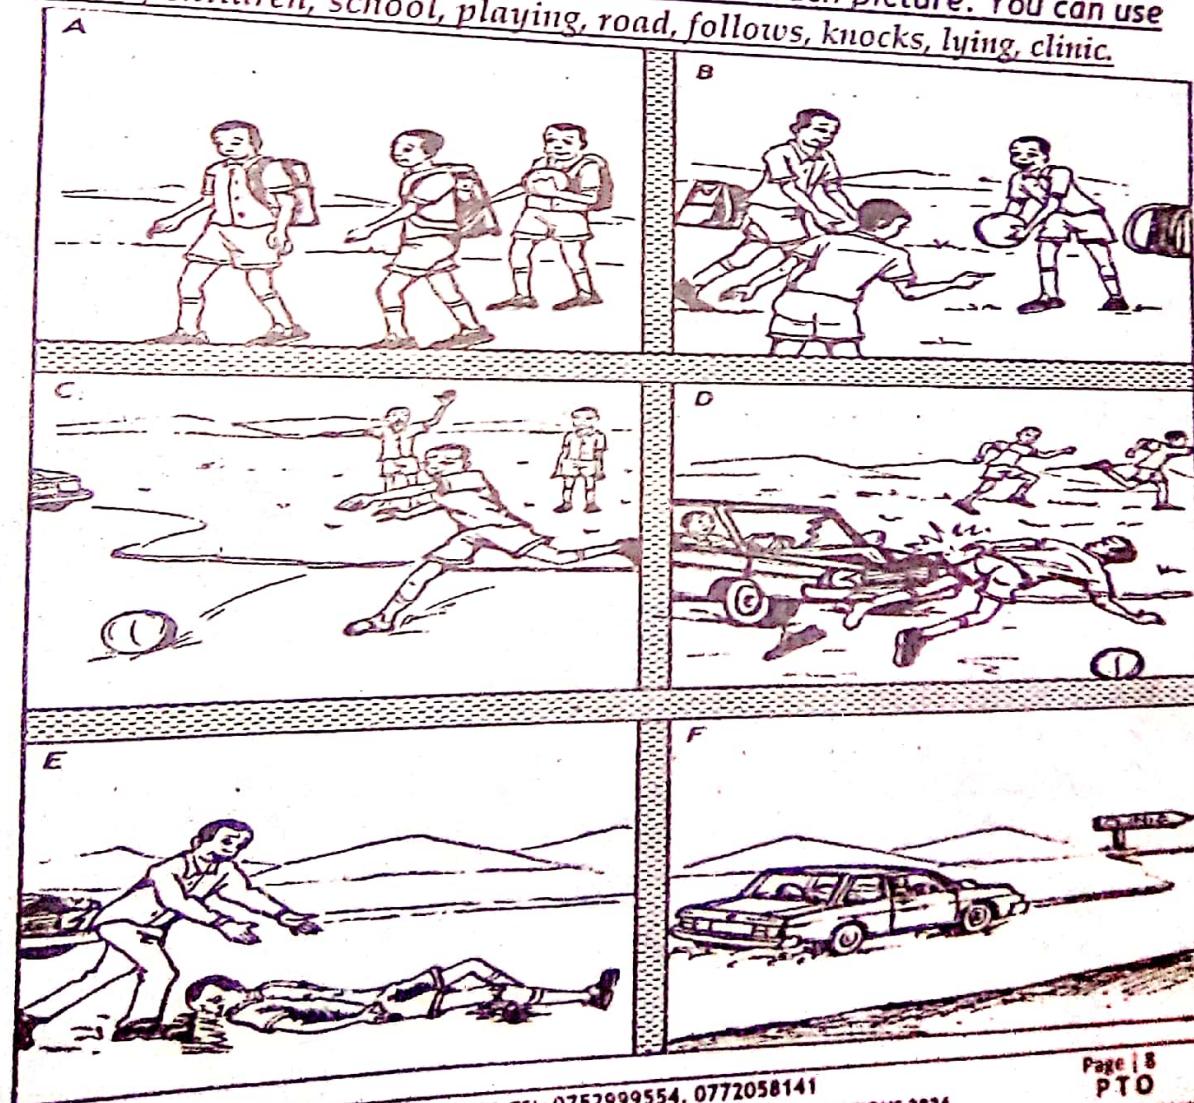

Questions.

- (a) Who invited Ekanya to sit beside him?
- (b) What was Ekanya asked to pay close attention to?
- (c) Who was Ekanya advised not to befriend?
- (d) Why did Meant - To - Study make a study timetable?
- (e) Who made it difficult for Meant - To - Study to follow his timetable?
- (f) In whose house do the two ghosts live?
- (g) Who welcome the lazy and careless one into this house?
- (h) Give another word or a group of words with the same meaning as the following underlined words in the poem:
- (i) beside : _____
- (ii) comrade : _____
- (i) What useful lesson do you think Ekanya learnt?

The sentences below are NOT in the correct order. Rearrange them in the CORRECT order to form a short composition about "Environment Protection".

- (a) The environment is the natural condition in which people, animals and plants live.
- (b) One of these activities is polluting the air, water and soil.
- (c) What is environment protection?
- (d) Another dangerous activity is the random cutting down of trees.
- (e) Burning bushes, smoking, dumping garbage and polythene materials pollutes our environment.
- (f) This is not a very difficult question to answer.
- (g) If we do not do so, climate change will become worse.
- (h) Unfortunately, people carry out activities that cause environmental degradation.
- (i) Environmental protection are the activities people do to protect the environment.
- (j) We must, therefore, work together to conserve our environment.

55. The picture (A-F) tell a story, study them carefully and then write a sentence describing what is happening in each picture. You can use words; children, school, playing, road, follows, knocks, lying, clinic.

Questions.

(a) Picture A.

(b) Picture B.

(c) Picture C:

(d) Picture D:

(e) Picture E.

(f) Picture F.

(g) Why has the boy run into the road?

(h) Where is the man taking the boy?

(i) Why do you think it is dangerous to play along the road?

(j) Suggest a suitable title for the story.

Review your answers

THE PRIME MAGIC SET IV INTEGRATED SCIENCE MARKING GUIDE 2024

Section A (40 Marks)

NO	ANSWER
1.	Leaves/ fleshy leaves.
2.	■ Improper keeping of medicine// improper disposal of expired drugs// improper disposal of faeces// leaving left over food uncovered// handling food with dirty hands.
3.	■ Plants provide oxygen to people//some plants are sources of medicine//some plants are sources of food to people.
4.	■ They destroy farmers crops, they lead to death of people. They lead to displacement of people, they lead to soil erosion, lightning can kill people.
5.	■ HIV destroys white blood cells.
6.	Hypogea germination.
7.	Maize//sorghum//rice//millet//wheat.
8.	■ Provides both milk and meat to a farmer.
9.	Severe pain around the fracture// swelling around the fracture// pain when moving the fractured limb.
10.	■ Both reproduce by means of spores.
11.	■ Eating food rich in roughages.
12.	■ It enables/helps teenagers to resist smoking/alcoholism/fornication.
13.	■ High temperature increases the speed of wind while low temperature decreases the speed of wind/the speed of sound increases with increase in temperature.
14.	■ Anaemia.
15.	■ Prevents famine//malnutrition/deficiency diseases.
16.	Wind musical instruments.
17.	■ Pipe G.
18.	Bacteria breaks down faeces/organic matter in latrines.
19.	■ By using spines.
20.	Tubal ligation// vasectomy.
21.	Primary Health Care is the essential health care where individuals, families and communities work together to solve their health problems.
22.	■ It prevents contaminating food//it prevents easy spread of diarrhoeal diseases.
23.	■ When the mother has no breast milk// when the mother has breast cancer//when the mother has AIDS.
24.	■ To fix nitrates into the soil//to convert nitrogen into nitrate
25.	■ BCG vaccine.
26.	■ At birth.
27.	■ Scurvy.
28.	■ Pollen grains.
29.	■ It leads to spread of diarrhoeal diseases//it leads to accumulation of a bad smell in the environment.
30.	■ Animals are source of meat to people//people get milk from animals//people get hides and skin from animals//animal dung and urine are used as manure.
31.	■ Bees wax.
32.	■ Regular deworming.
33.	■ Stretcher.
34.	■ A first aider uses it to carry the casualty who cannot walk to hospital.
35.	■ Leaves becomes yellowish//leaves curl and lose shape.
36.	■ Watering// providing a shade// thinning// spraying.
37.	■ Prop roots.
38.	■ A lactometer is used for detecting the presence of water in milk/purity of milk.
39.	It increases the population of crops in the garden//controls soil erosion.
40.	Exoskeleton.

Section B (60 Marks)

41. (a) Oral health is the well-being of the mouth parts.
 (b) bad mouth smell// stains on the teeth// tooth decay.

	(c) tooth decay//gingivitis//periodontal.
42.	(a) Mosquito : Wrigglers. (b) Housefly : Maggots. (c) Bees : Grubs. (d) Cockroach : Nymph
43.	(a) They produce a lot of pollen grains// they have dull colours// they have longer filaments than the style. (b) They have nectar// they have bright colours// they have a scent.
44.	(a) Ladders, slide, a ramp, a plank of wood, winding road. (b) <u>MA = Length</u> Height $= \frac{160m}{40m}$ <u>MA = 4</u>
45.	(a) vultures//crows. (b) It has a strong sharp hooked beak for tearing the prey. (c) They eat people's chicks and rabbits//they can cause harm to people.
46.	(a) Farm yard manure// compost manure// organic mulches// green manure. (b) Natural fertilizers take long time in the soil than artificial fertilizers// natural fertilizers are cheaper to get than artificial fertilizers// natural fertilizers do not need a skilled person to apply while artificial fertilizers need a skilled person.
47.	(a) Castrated goats and rams fatten for more meat, castrated goats and rams grow faster, castration prevents inbreeding, it prevents the spread of venereal diseases. (b) i) milk. ii) mohair.
48.	(a) i) P- wind sock. ii) Q - anemometer. (b) weather instrument Q measures the speed of wind. (c) To show the strength and direction of wind.
49.	(a) Fever is a condition in which the body temperature rises beyond the normal of 37°C while temperature is the degree of hotness or coldness of an object. (b) Tepid sponging. (c) Early treatment of infections, controlling mosquito bites to control malaria, maintaining proper hygiene. (d) To prevent choking.
50.	(a) It doesn't produce light on its own but just reflects light from the sun. (b) Light can be refracted//reflected//dispersed// travel in a straight line. (c) melanin.
51.	(a) Wolfram. (b) Nitrogen, Argon. (c) Electrical energy changes to heat then light energy.
52.	(a) Air exerts pressure. (b) The kite won't float in air/fly. (c) Wind helps to run wind mills//wind is used in winnowing seeds.
53.	(a) severe diarrhoea// severe vomiting. (b) giving him or her ORS//SSS// plenty of water// fresh juice.
54.	a) Sorting// soaking. b) Removes dirt from clothes// kills germs in clothes// kills vectors from clothes// removes sweat from clothes.
55.	(a) (i) A: Placenta. (ii) B: Amniotic fluid. (b) It transports oxygen and digested food to the foetus//it transports waste materials from the foetus to placenta.

PRIME MAGIC SET IV ENGLISH LANGUAGE MARKING GUIDE 2024

SECTION A (50 MARKS)

SECTION A (30 Marks)

ANSWER

- 1. □ any

Section A (40 Marks)

1. Name the part of onions eaten by people.
2. State any one cause of poisoning at home.
3. Give any one way how plants support human life.
4. State any one danger of natural changes to the environment.
5. How does HIV/ AIDS affect the humans?

The diagram below shows a type of germination. Study and use it to answer questions 6 and 7.

6. Name the type of germination shown in the diagram above.
7. Mention any one crop that undergoes the type of germination named in (6) above.
8. Give the main reason why some farmers rear sahiwal breed of cattle.
9. Give any one sign of a simple fracture.

10. How are mushrooms similar to ferns?

11. Give one way of preventing constipation in people.

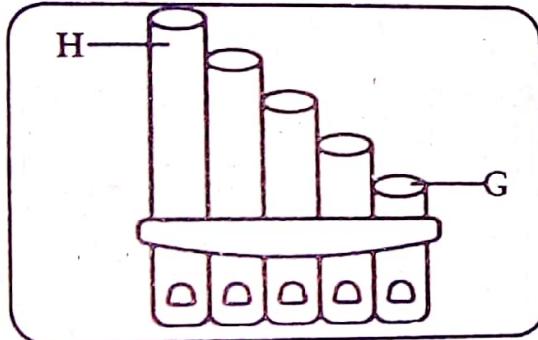

12. Why is it important for teenagers to acquire the skill of assertiveness?

13. How does temperature affect the speed of sound in the environment?

14. Give any one condition that results from prolonged dysentery.

15. State one importance of food security at home

Study the musical instrument below and use it to answer questions 16 and 17.

16. To which group of musical instruments does the above belong?

17. Identify the pipe between H and G which produces the highest pitch of sound.

18. State any one way how bacteria help to reduce the volume of faeces in latrines.

WARNING: Not to be reproduced electronically!

19. How does a hedgehog protect itself in the environment?

20. Mention any one permanent method of family planning.

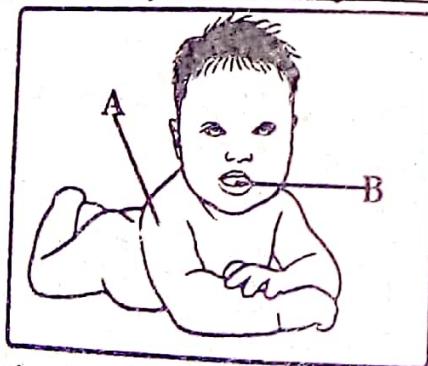

21. What is meant by Primary Health Care?

22. Give one importance of proper handling of food.

23. When should the mother be advised to put her baby on bottle feeding?

24. State the role of organisms found in root nodules of leguminous plants.

The diagram below shows an infant with different sites where vaccines are administered. Study it carefully and answer the questions 25 and 26.

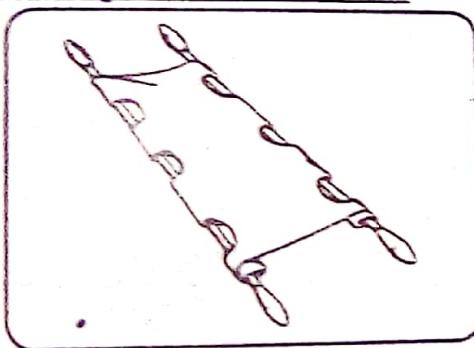

25. Which vaccine is administered at point A on the diagram above?

26. At what age is vaccine at point B administered to infants?

27. Name the deficiency diseases characterized by bleeding gums.

- WARNING: Not to be reproduced or electronically stored**
28. What do we call the male reproductive cells of flowers?
29. Give any one way how poor sanitation affects the people in our community.
30. State any one way how animals benefit people in the community.
31. Name the product of bees used to make shoe polish.
32. State any one way of controlling internal parasites in rabbits.

The diagram below shows a tool used in administering first aid. Study and use it to answer questions 33 and 34.

33. Name the tool shown in the diagram above.
34. State the use of the above tool to a first aider.
35. Give one sign of cassava mosaic on a cassava plant.
36. Give any one activity carried out on seedlings on a nursery bed.

37. Name the type of roots that develop on cereals during flowering stage.

38. State the use of a lactometer to a cattle farmer.

39. Describe how gap filling prevents land wastage.

40. Name the type of skeleton found in wasps.

Section B (60 Marks)

41. (a) What is meant by the term oral health?

(b) Give any two signs of poor oral hygiene.

(i) _____

(ii) _____

(c) Name any one disease caused due to poor oral health.

42. Match correctly the insects below to their young ones

Insect	Young ones
(a) Mosquito	Grub
(b) Housefly	Nymph
(c) Bees	Wrigglers
(d) Cockroach	Maggots

(a) Mosquito	:	_____
(b) Housefly	:	_____
(c) Bees	:	_____
(d) Cockroach	:	_____

43. Give any two characteristics of the following;

(a) Wind pollinated flowers.

(i) _____

(ii) _____

(b) Insect pollinated flowers.

(i) _____

(ii) _____

44.

(a) Mention any one example of an incline plane.

If the load moves through a length of 160m on an inclined plane of height-
40m.

(b) Find the mechanical advantage.

(3marks)

WARNING: Not to be reproduced electronically!

45. (a) Apart from marabou stork, name one other example of scavenger birds.

(b) How is the beak of an eagle adapted to its function?

(c) Give two dangers of birds of prey to people.

(i) _____

(ii) _____

46. (a) Mention two examples of natural fertilizers..

(i) _____

(ii) _____

(b) Give any two importance of using natural fertilizers over artificial
fertilizers.

(i) _____

(ii) _____

47. (a) State any two advantages of castrating billy goats and rams.

(i) _____

(ii) _____

WARNING: Not to be reproduced electronically!

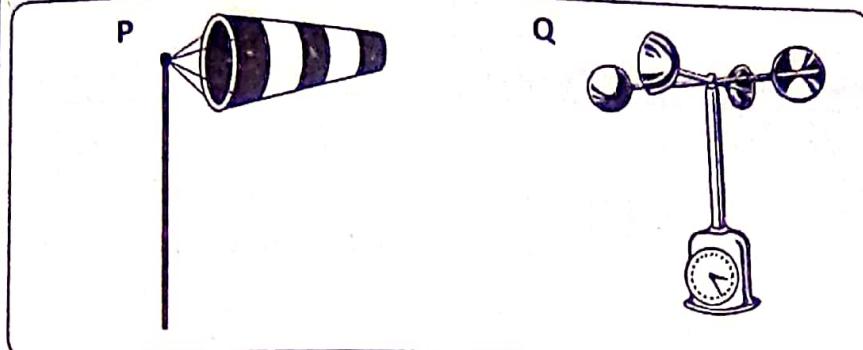

- (b) Why do farmers keep the following breeds of goats;
(i) Saanen goats.

(ii) Angora goats.

48.

The diagram below shows weather instruments. Study and use it to answer questions that follow.

WARNING: Not to be reproduced electronically!!

(a) Name the weather instrument marked P and Q from the diagram above.

(i) P _____ (ii) Q _____

(b) Give the importance of weather instrument Q at a weather station.

(c) Why is weather instrument P commonly found at the airstrip?

49

(a) Give one difference between fever and temperature.

(b) State the first aid for fever.

(c) How can we control and prevent fever and convulsion in the community?

(d) Give one reason why we are not advised to give a drink or any food stuff to a convulsing victim.

WARNING: Not to be reproduced electronically!!

50. (a) Give one reason why the moon is not a source of light.

(b) State any two properties of light.

(i)

(ii)

(c) Name the substance that protects our body from strong ultra-violet rays from the sun.

51. (a) Mention the mineral from which a coiled filament is made.

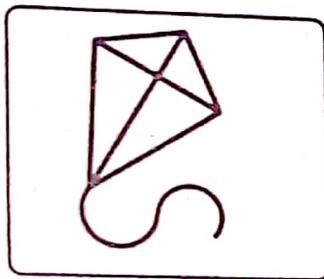

(b) Name two gases commonly used in electric bulbs.

(i)

(ii)

(c) Which energy change takes place in a working electric bulb?

52. The diagram below shows a kite in air. Study and use it to answer questions that follow.

(a) Which property of air helps the above kite to float in air as illustrated above?

(b) What can happen to the above kite if the paper used has hole?

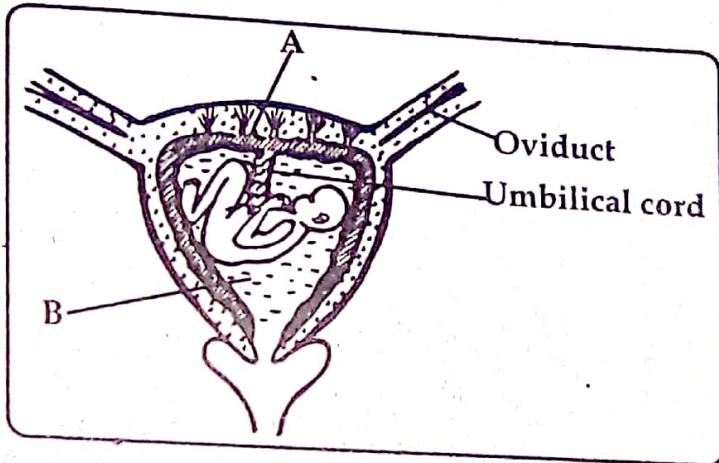

(c) Apart from moving kites, state any other two importance of moving air.

(i)

(ii)

- WARNING: Not to be reproduced electronically!!**
53. (a) Give two main causes of dehydration.
(i) _____
(ii) _____
(b) State two ways of rehydrating a dehydrated victim.
(i) _____
(ii) _____
54. (a) Mention the first two steps to follow when cleaning clothes.
(i) _____
(ii) _____
(b) Give two ways how cleaning of clothes help to promote health among people.
(i) _____
(ii) _____

55. The diagram below shows a foetus growing in the womb. Study and use it to answer questions that follow.

- (a) Name the parts marked A and B from the diagram above.

(i) A _____ (ii) B _____

- (b) Give any two uses of the umbilical cord to a foetus.

(i) _____
(ii) _____
