TOTAL		

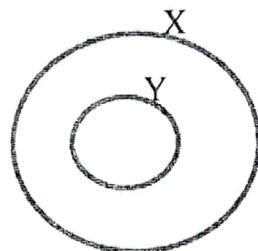

SECTION A: 40 MARKS

Answer all questions in this section

Questions 1 to 20 carry 2 marks each

1. Work out: $48 \div 2$
 2. Round off 7.896 to the nearest whole number.

3. In the Venn diagram below, shade $(X - Y)'$.

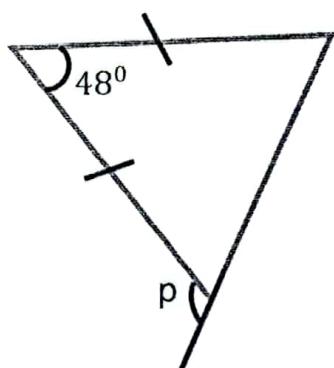

4. Find the sum of prime numbers between 60 and 80.

5. Express 0.2727 as a common fraction in its simplest form.

6. Find the median of the integers $+8, -1, -6, 0, +3, 2$.

7. A fair dice is rolled once. Find the probability that a number shown on top is above the first composite number.

8. Study the figure below and answer the question.

Calculate the value of p in degrees.

9. Mayinja started revising at 10:35 p.m. on Tuesday and stopped revising at 3:30 a.m. of the next day. For how long did he revise?

10. Ado bought 14kg of meat at sh. 7000 per half kg. how much did she pay?

11. Solve for $2^{3y-1} \div 64 = 4$.

12. Red bought 6 packets of biscuits and paid sh. 54,000. How many packets of similar biscuits can Deborah buy if she has sh.36,000.

13. Opio covered 5km in 1hr. 15minutes . Calculate his speed

14. Express CMLXXIX in Hindu Arabic.

15. In a box of tomatoes at Naalya market 25% of them are bad and 90 are in good condition. Find the total number of tomatoes.

16. Simplify: $\frac{k^{-2}}{k^{-5}}$.

17. Abigail goes shopping every 8 days and Ariadne every 5 days.
Ariadne and Abigail both had shopping today. How many days will it
be until they go shopping together again?

18. How many bottles of 1.5 litres can be got from 6000ml?

19. Given set $M = \{1, 2, 3, 4, 5\}$. Find the number of subsets in set M.

20. Using a ruler, a pencil and a pair of compasses only construct an
angle of $22\frac{1}{2}^\circ$.

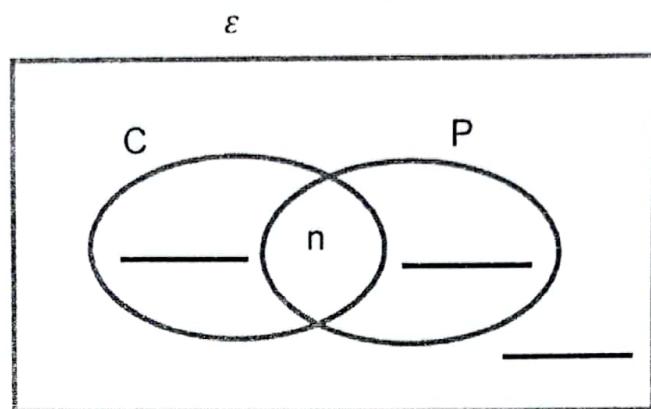

SECTION B: 60 MARKS

Answer all questions in this section

Marks for each question are indicated in the brackets

21. At a class party, 45 people like Pepsi only, n people like both Pepsi (P) and Coca cola (C), $(2n - 15)$ people like Coca cola but not Pepsi while $(n - 10)$ do not like any of the two drinks.

- a) Use the information above to complete the Venn diagram below. (03 marks)

- b) Given that those who like Coca cola only are more than those who like Pepsi by 40, find the value of n . (02 marks)

22. a) Change 627_{eight} to base ten. (02 marks)

b) Work out: $442_{\text{six}} \div 22_{\text{four}}$ (Give your answer in ternary base)

(03 marks)

23. a) Simplify: $\frac{5.28}{0.12} + \frac{1.2}{0.6}$ (02 marks)

b) Simplify: $\frac{4}{5} \times \frac{3}{7} \div \frac{9}{14} + 2\frac{7}{15}$ (02 marks)

24. a) Solve and write the solution set for $2(4 - h) < 16$. (03 marks)

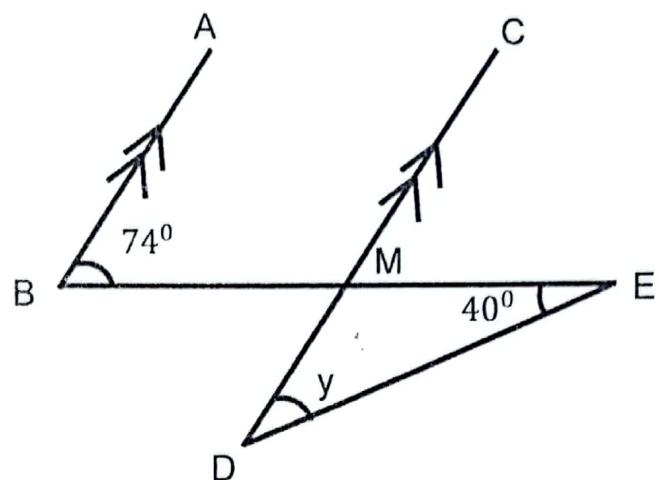

b) Alpha is 3 times as old as Sheldon now and he is $(2f)$ years old now. In 10 years time the difference in their age will be 12 years. How old is Sheldon. **(03 marks)**

25. A worker was given a task of carrying 96 black books from the store to a P.7 class. Every trip he carried 4 less books than the previous trip.

a) If he carried 4 trips, how many books did he carry in the first trip? **(03 marks)**

b) How many black books did he carry in the 2nd and 3 trips? **(02 marks)**

26. If $AB \parallel CD$ then

a) Find the value of y .

(02 marks)

b) Calculate the size of angle DMB.

(02 marks)

27. In a school 40% were boys and there were 720 girls last year. This year the number of girls increased by 15% and the number of boys increased in the ratio 9:8. How many pupils are in the school this year altogether?
(05 marks)

28. The table shows the rates at which Mandela Forex bureau buys and sells foreign currencies in Uganda shillings. Use it to answer questions that follow

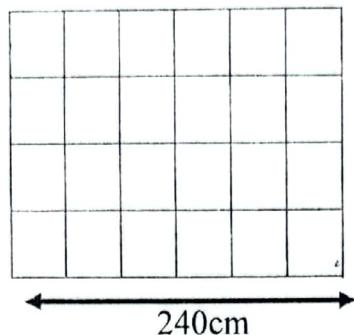

Currency	Buying rate	Selling rate
Us dollars 1	Ug sh. 3600	Ug sh. 3750
K sh. 1	Ug sh. 30	Ug sh. 32

a) Daniel had K sh. 20500 and bought a fridge using Us dollars. How many Us dollars did he pay for the fridge? **(02 marks)**

b) Maria had Us dollars 500 and bought a dining table in Kenya shillings. What was the cost of the dining in Kenya shillings.

(02 marks)

29. The figure below shows square tiles laid in a rectangular room of length 240cm as shown in the diagram. Study the diagram and answer the questions that follow

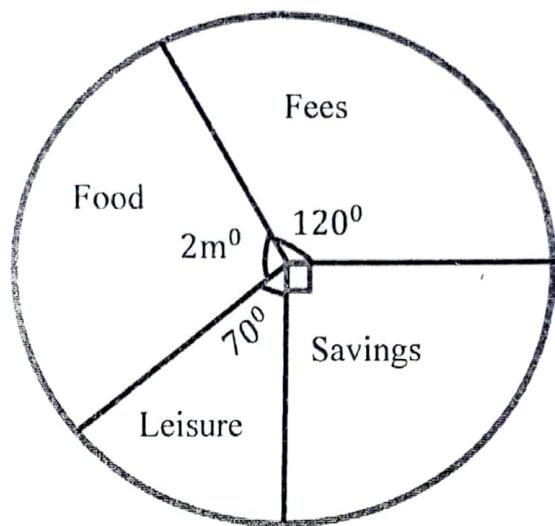

a) Find the width of the room. **(02 marks)**

b) Calculate the area of one tile **(02 marks)**

c) Work out the distance around the room **(02 marks)**

30. A car left town B at 8:45 p.m. for town C and arrived at 2:00 a.m.
- a) Convert the departure time of the car from town B into 24-hour clock.
(02 marks)
- b) How long did the journey take? **(02 marks)**
- c) If the car was moving at a steady speed of 90km/hr. How far is town B from C.
(02 marks)

31. The pie chart below shows how a cleaner spends his monthly salary.
Use it to answer questions that follow.

a) Find the value of m.

(02 mark)

b) If he spends sh. 20, 000 less on leisure than on food. Find his salary.

(03 marks)

32.) Using a ruler, a pencil and a pair of compasses only to construct a triangle XYZ in which angle X = 75° , XZ = 8cm and XY= 6cm.
(04 marks)

b) Measure angle XZY **(01 mark)**

SECTION A

1. Give any one way of saving charcoal during the cooking of food.

.....

2. Mention any one sign of coccidiosis infection in goat.

.....

3. Name the process by which frost is formed from water vapour in the atmosphere.

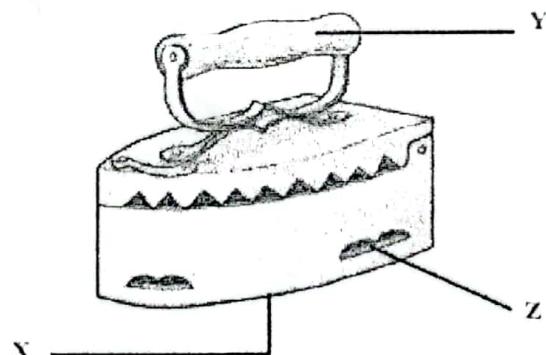

.....

4. State the reason why some substances are able to conduct electricity in molten or fused state.

.....

.....

The diagram below shows an ironing box. Use it to answer questions 5 and 6.

5. Give any one way holes marked Z help the ironing box above to work.

.....

.....

6. State the reason why part marked X is made of iron metal.

.....
.....

7. Mention the reason why sound energy travels slowest in gaseous state of matter.

.....
.....

8. State any one other situation when breast-feeding may be discouraged apart from the mother having breast cancer

.....
.....

9. State the way trees help to purify air around the industry

.....
.....

10. Cite the component of the electric circuit used to produce a warning sound.

.....
.....

11. Name the scale of temperature measurement which has a lower fixed point of 32°C .

.....
.....

12. State any one difference between a sprain and a strain.

.....
.....

13. Give any one reason why an octopus is able to change the colour of its skin.

14. State any one example of a fossil fuel.

.....
15. Name the force that enables primary seven candidates to write answers in a science paper.

.....
16. Give any one way drupes are different from berries.

.....
17. Mention any one breed of chicken kept in Uganda.

.....
18. State the cause of tooth decay in humans.

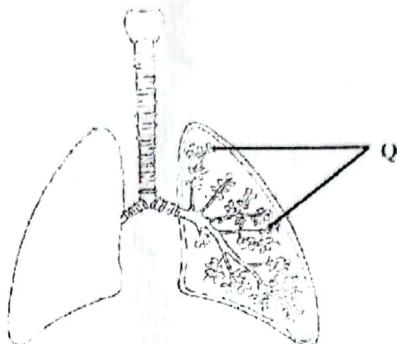

.....
19. Give any one reason why passengers in a moving bus fall forward when the driver suddenly applies brakes.

.....
20. Apart from speeding up the rate of chemical digestion, give any one other role of enzymes in the body.

.....
21. State the law of magnets.

.....
22. Give one way in which the stomach walls are protected from being destroyed by hydrochloric acid.

The diagram below represents parts of the human respiratory system. Use it to answer the questions 23 and 24.

23. Name the respiratory process that takes place of organ marked Q.

.....

24. State any one disorder of the respiratory system.

.....

25. State the reason why a victim of HIV/AIDS is easily affected by other diseases.

.....

26. Give a reason why aluminium is grouped under heat conductors.

.....

27. State any one reason why fertilization takes place in the fallopian tube.

.....

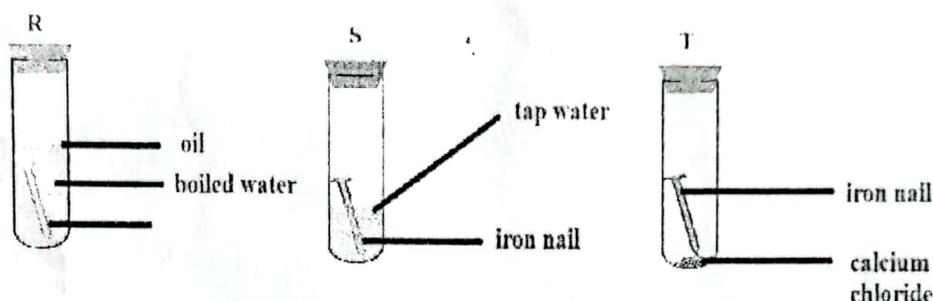

28. Give any one device at home that operates using a bimetallic strip.

.....

29. Identify any one advantage of weeds in the garden.

30. State the method used to separate good beans from bad beans using water.
-

The diagram below shows an experiment about rusting. Use it to answer questions 31 and 32.

31. Give a reason why iron nails in container S will result after three days.
-

32. State any one importance of rusting to the soil.
-

33. State the reason why farmers carry out hardening off.
-

34. Name any one bone that forms the vertebra.
-

35. Give any one function of the stem to a sugar cane plant apart from storing food.
-
-

36. Write down any one way bee keepers can protect themselves from bee stings when harvesting.

.....

37. State the reason why muscles of the heart produce movement of their own.

.....

38. Give any one reason why cattle farmers wash the udder with warm water before milking.

.....

.....

39. State any one way polythene bags are dangerous to the soil.

.....

.....

40. Name the group of vertebrates that can sting for protection against their enemies.

.....

SECTION B: 60 MARKS

41. a) State any two ways cattle farmers can improve the quality of their products.

i.

ii.

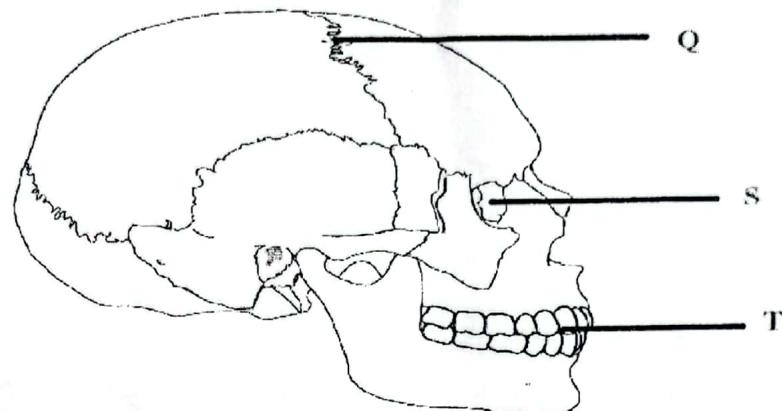

b) Apart from milk and hides, mention any one other product got from cattle farming.

.....

c) State any one way of preventing diseases in cattle farms.

.....

42. The diagram below represents joints of the skull. Study and answer the questions that follow.

a) Name the body organs protected by parts marked S.

b) Give any one reason why joints of the skull do not produce movement.

c) How does wearing a helmet protect the head of a motorcyclist from injury in case of an accident?

d) Apart from protection, state any one other function of the human skeleton.

43. The table below illustrates the composition of air we inhale and exhale. Study and answer questions that follow.

Type of air	Inhaled%	Exhaled%
Nitrogen	78	78
Oxygen	21	16
Carbon dioxide	0.03	4
Rare gases	0.97	0.97

a) Name the type of air that is mostly used up by the body.

.....

b) Give any one reason why we exhale more carbon dioxide than we inhale.

.....

.....

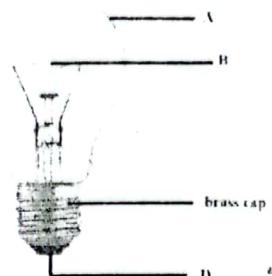

c) State the reason why the percentage of inhaled and exhaled nitrogen remained unchanged.

.....

d) Give any one use of air in the body.

.....

44. The diagram below shows an electric bulb. Study it and answer questions that follow.

a) Name the part labeled D.

.....

b) Name the mineral used for making part B.

.....

c) Mention any one component of air used in electric bulbs.

.....

d) State the reason why part A may break if cold water is sprinkled on it when the bulb is lighting.

.....

45. a) Name the fungus that helps in the formation of alcohol.

.....

b) Mention any two methods of making alcohol.

i.

ii.

c) State any one law in Uganda governing the possession of alcohol.

46.a) Identify any one secondary sex characteristic common in both adolescent boys and girls.

.....

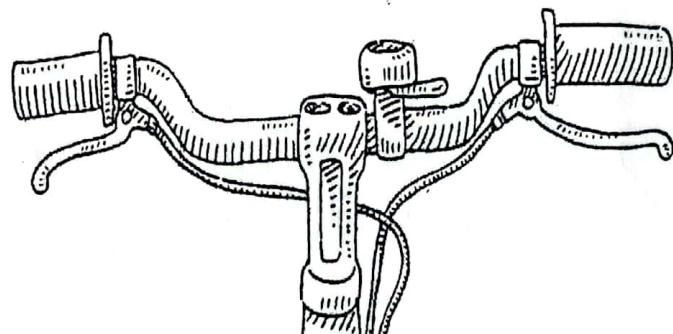

b) State the best way adolescent boys and girls can safeguard themselves from HIV/AIDS infection.

.....

(c), Mention any two methods of family planning that cannot be reversed.

- i.
- ii.

47. The diagram below shows a bicycle handle. Study and use it to answer questions that follow.

a) Name the group of simple machines where a bicycle handle belongs.

.....

b) Mention any two examples of simple machines in the same group as a bicycle handle.

- i)
- ii)

c) Give any one use of pulleys.

.....

48. (a) Mention any two items used at school to keep the environment clean.

i).....

(ii).....

(b) How can bad smell in an ordinary Pit latrine be controlled?

.....

(c) Point out any one disease that be spread due to poor disposal of human wastes.

.....

48. (a) Name the first type of teeth to grow in babies.

.....

b) State any one characteristic of canine teeth.

.....

c). Name the disorder of teeth that causes continuous grinding of teeth in children.

.....

d) Write down any one way of caring for children's teeth.

.....

50. a) State the reason why cassava tubers suns are dried before storage.

.....

b) Mention any two diseases of cassava in the garden.

i.....

ii.....

c) Apart from weeding, mention any one way of caring for cassava plants in the garden.

51(a) State the difference between an invalid and a convalescent.

(b) Mention any two examples of the vulnerable groups of people in the community.

(c) Suggest any one situation where bottle feeding is discouraged at home.

52. The table below shows immunisable disease their vaccines and body site. Study and complete it correctly.

Disease	Vaccine	Immunisation site
tuberculosis	Right upper arm
.....	Hep B	Left upper thigh
Whooping cough	DPT
Measles	Lest upper arm

53. (a) Name the instrument used to measure the human body temperature.

.....

(b) Identify one liquid commonly used in the above named instrument.

.....

(c) Give any one reason why the above liquid is preferred to other liquids.

.....

(d) Cite any one area where the above instrument is usually put to record the human body temperature.

.....

54. Peter accidentally poured salt on sand. His teacher gave him a beaker, water filter paper, a source of heat (fire) and a pan to help him get back the salt.

Describe in four sentences how Peter will recover the salt from the sand.

i)

.....

ii)

.....

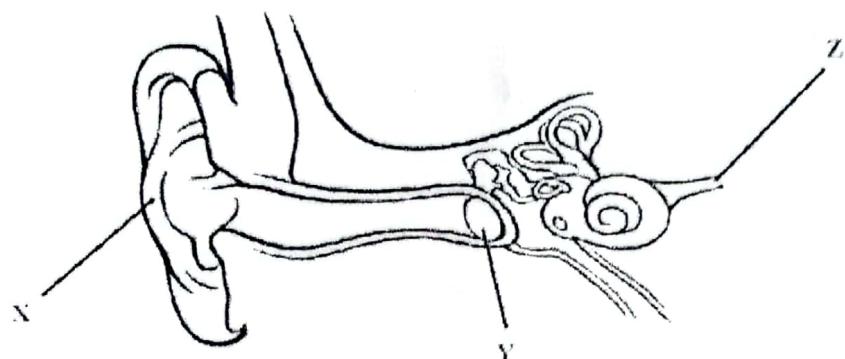

iii)

.....

iv)

.....

55. The diagram below represents the human ear. Study it and answer questions that follow.

a) Name the part labeled X and Y

i) X.....

ii) Y

b) State the function of part labelled Z.

.....

c) Give any one disorder of the human ear.

.....

.....
.....
.....

49. An English paper consists of two sections.

(Rewrite using.....comprises.....)

.....
.....
.....

50. The moment the choir sang the anthems, the ceremony began.

(Rewrite the sentence beginning: No sooner.....)

.....
.....

SECTION B

(Questions 51 to 55 carry ten marks each)

51. Read the information below carefully and answer the questions that follow in full sentences.

During the funeral of Amos' father, a big number of mourners joined him to send off the late Ambrose at their ancestral home at Butu in Zorobwe town council. Below is the message of appreciation Amos wrote and published in the Observer newspaper a week after his father's funeral. Read it and answer the questions.

APPRECIATION

On behalf of our family, I would like to extend my sincere **gratitude** to whoever joined us when we lost our dear father. You gave us comfort and support during that trying time. Thank you for the condolences you gave us. Special thanks to the people who contributed selflessly towards this cause. I can't forget the driver who did a great job of driving the hearse. The grave diggers who rendered **voluntary** service are highly appreciated as well, the doctors that tried to save our father's life deserve special recognition before he succumbed to cancer at Mulago Hospital. May God reward you abundantly and protect you in all your life endeavors. May dad's soul rest in peace.

Questions

a) Where was the deceased buried?

.....
.....

b) To whom is the appreciation addressed?

.....
.....

c) What shows that Amos was appreciative?

.....
.....

d) Which group of people did not ask for money for their work?

.....
.....

e) In which newspaper was this message published?

.....
.....

f) What did the deceased die of?

.....
.....

g) Why do you think doctors deserve a special recognition?

.....
.....

h) Give a word to mean the following.

i) gratitude.....

ii) voluntary.....

i) From which hospital did he died?

.....

52. Read the poem below carefully and then answer the questions that follow in full sentences.

A good friend
All I need is one
A good friend at school
The one who will help me
In all things I need.

I need to revise my books
Just with a good friend
The one who loves God
Who will teach me how to pray always

I need a good friend
Who will help me to solve mathematical equations
A friend who doesn't disturb other classmates
But concentrates in class and completes the given tasks.
I need a friend who will help me to excel.
Because a friend in need is a friend indeed.

Anonymous

Questions

a) What is the poem about?

.....
.....

b) What does the writer need?

.....
.....
